SAFETY DATA SHEET

Revision date: 18-Sep-2024

Revision Number 4

Section 1: Identification	
Product identifier	
Product Name	DSF 611
Product Code(s)	00000018795
Other means of identification	
Recommended use of the chemical	and restrictions on use
Recommended use	Frother.
Uses advised against	
Details of manufacturer or importer	-
Supplier IXOM Operations Pty Ltd ABN: 51 600 546 512 Level 8, 1 Nicholson Street Melbourne 3000 Australia Telephone Number: +61 3 9906 3000	
Emergency telephone number	
Emergency telephone number	1 800 033 111 (ALL HOURS)
Please ensure you refer to the limitations of this	Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.
Section 2: Hazard identific	ation
Not classified as Dangerous Goods by Rail; NON-DANGEROUS GOODS.	n accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS). / the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and
GHS Classification	

Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 2
Specific target organ toxicity (single exposure)	Category 3

Label elements Exclamation mark

Signal word WARNING

Hazard statements

H315 - Causes skin irritation H319 - Causes serious eye irritation H335 - May cause respiratory irritation

Precautionary Statements - Prevention

Avoid breathing dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/clothing and eye/face protection. Use personal protective equipment as required.

Precautionary Statements - Response

IF exposed or concerned: Get medical advice/attention.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

IF ON SKIN: Wash with plenty of soap and water.

If skin irritation occurs: Get medical advice/attention.

Take off contaminated clothing and wash before reuse.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

Call a POISON CENTER or doctor/physician if you feel unwell.

Precautionary Statements - Storage

Store in a well-ventilated place. Keep container tightly closed.

Store locked up.

Precautionary Statements - Disposal

Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable.

Other hazards which do not result in classification

Harmful to aquatic life with long lasting effects.

Section 3: Composition and information on ingredients

Chemical name	CAS No.	Weight-%
2-Ethyl hexanol	104-76-7	10-<30%
Non hazardous component(s)	-	to 100%

Section 4: First aid measures

Description of first aid measures

General advice	For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor.
Inhalation	Remove to fresh air. Get medical attention immediately if symptoms occur.
Eye contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Keep eye wide open while rinsing. Do not rub affected area. Get medical attention if symptoms occur.
Skin contact	Wash off immediately with soap and plenty of water for at least 15 minutes. (Call a physician if symptoms occur).
Ingestion	Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

Most important symptoms and effects, both acute and delayed

Symptoms	Irritating. May cause redness and tearing of the eyes. Erythema (skin redness). Coughing and/ or wheezing. Difficulty in breathing.
Effects of Exposure	No information available.
Indication of any immediate medical attention and special treatment needed	
Note to physicians	Treat symptomatically.

Section 5: Firefighting measures

Suitable Extinguishing Media		
Suitable extinguishing media	Foam. Dry chemical or CO2.	
Unsuitable extinguishing media	Do not use a solid water stream as it may scatter and spread fire.	
Specific hazards arising from the chemical		
Specific hazards arising from the chemical	Combustible liquid. In a fire or if heated, a pressure increase will occur and the container may burst. Thermal decomposition can lead to release of irritating and toxic gases and vapors.	
Hazardous combustion products	Carbon oxides.	
Special protective actions for fire-fighters		
Special protective equipment and precautions for fire-fighters	Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.	

Section 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

Personal precautions	Avoid contact with skin, eyes or clothing. Avoid breathing vapors or mists. Ensure adequate ventilation. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Do not touch or walk through spilled material. Remove all sources of ignition. Use personal protective equipment as required. Wash thoroughly after handling.	
Other information	Refer to protective measures listed in Sections 7 and 8.	
For emergency responders	Use personal protection recommended in Section 8.	
Environmental precautions		
Environmental precautions	Prevent further leakage or spillage if safe to do so.	
Methods and material for containment and cleaning up		
Methods for containment	Stop leak if you can do it without risk.	
Methods for cleaning up	Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal.	

Section 7: Handling and storage

Precautions for safe handling

Advice on safe handling	Avoid contact with skin, eyes or clothing. Avoid breathing vapors or mists. Ensure adequate ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. Take off contaminated clothing and wash before reuse. Remove all sources of ignition. Use personal protection equipment. Wash thoroughly after handling. Take precautionary measures against static discharges.
Conditions for safe storage, includi	ng any incompatibilities
Storage Conditions	Keep containers tightly closed in a dry, cool and well-ventilated place. Store away from sources of heat or ignition. Store locked up. Keep container closed when not in use.
	Classified as a C2 (COMBUSTIBLE LIQUID) for the purpose of storage and handling, in accordance with the requirements of AS 1940. Refer to State Regulations for storage and transport requirements.
Incompatible materials	Strong acids. Strong bases. Strong oxidizing agents.

Section 8: Exposure controls and personal protection

Control parameters

Exposure Limits

No value assigned for this specific material by Safe Work Australia. However, supplier recommended Workplace Exposure Standard(s):

Chemical name	Australia	New Zealand	ACGIH TLV
2-Ethyl hexanol	-	-	TWA: 5 ppm
104-76-7			

Chemical name	European Union	United Kingdom	Germany DFG
2-Ethyl hexanol	-	TWA: 1 ppm	TWA: 10 ppm
104-76-7		TWA: 5.4 mg/m ³	TWA: 54 mg/m ³
		STEL: 3 ppm	Peak: 10 ppm
		STEL: 16.2 mg/m ³	Peak: 54 mg/m ³

2-Ethyl hexanol: 8hr TWA = 200 ppm (recommended standard)

TWA - The time-weighted average airborne concentration of a particular substance when calculated over an eight-hour working day, for a five-day working week.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

Appropriate engineering controls

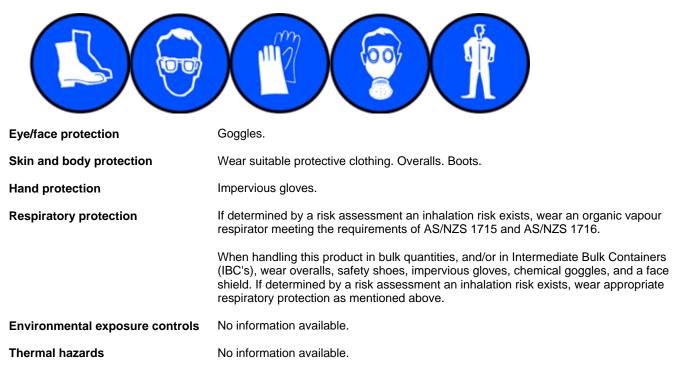

Engineering controls Apply technical measures to comply with occupational exposure limits.

If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, CHEMICAL GOGGLES, GLOVES, RESPIRATOR.

Section 9: Physical and chemical properties

Information on basic physical and chemical properties

Physical state Appearance Color Odor Odor threshold	Liquid No information available Yellow Mild No information available	
Property	Values	Remarks • Method
pH	7-8	None known
pH (as aqueous solution)	No data available	None known
Melting point / freezing point	No data available	None known
Boiling point / boiling range	180-230°C	
Flash point	>94°C (estimated)	None known
Evaporation rate	No data available	None known
Flammability (solid, gas)	No data available	None known
Flammability Limit in Air		None known
Upper flammability or explosive limits	No data available	
Lower flammability or explosive limits	No data available	
Vapor pressure	No data available	None known
Vapor density	No data available	None known
Relative density	ca. 0.9	
Water solubility	No data available	
Solubility(ies)	Immiscible in water	None known
Partition coefficient	No data available	None known

Autoignition temperature Decomposition temperature Kinematic viscosity Dynamic viscosity

No data available No data available No data available No data available None known None known None known

Other information

Section 10: Stability and reactivity **Reactivity** No information available. Reactivity Chemical stability Stability Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure. **Explosion data** Sensitivity to mechanical impact None. Sensitivity to static discharge None. Possibility of hazardous reactions None under normal processing. Possibility of hazardous reactions Conditions to avoid Conditions to avoid Heat, flames and sparks. Incompatible materials Incompatible materials Strong acids. Strong bases. Strong oxidizing agents. Hazardous decomposition products

Hazardous decomposition products Carbon oxides.

Section 11: Toxicological information

Information on likely routes of exposure

Product Information	No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are:
Inhalation	Irritating to respiratory system.
Eye contact	Causes serious eye irritation.
Skin contact	Causes skin irritation.
Ingestion	Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.
Symptoms	Irritating. May cause redness and tearing of the eyes. Erythema (skin redness). Coughing and/ or wheezing. Difficulty in breathing.
Acute toxicity	

<u>Numerical measures of toxicity</u> - Product Information No information available

Component Information

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50	
2-Ethyl hexanol	= 3730 mg/kg (Rat)	= >3000 mg/kg (Rat)	> 227 ppm (Rat)6 h	
See section 16 for terms and abbrevia	tions			
Delayed and immediate effects as w	all as chronic offacts from sh	ort and long-torm oxnosuro		
Delayed and inimediate effects as w	en as chionic enects nom sh	on and long-term exposure	-	
Skin corrosion/irritation	Causes skin irritation. Classification is based on mixture calculation methods based on			
	component data.			
Serious eye damage/eye irritation	Causes serious eye irritation. Con component data.	Lassification is based on mixtu	re calculation methods based	
	on component data.			
Respiratory or skin sensitization	Not a skin sensitiser (guinea pi	g). Classification is based on n	nixture calculation methods	
	based on component data.			
Germ cell mutagenicity	No information available.			
,				
Carcinogenicity	No information available.			
Reproductive toxicity	No information available.			
STOT - single exposure	May cause respiratory irritation. Classification is based on mixture calculation methods			
	based on component data.			
	-			
CTOT remediad evene	No information evolution			
STOT - repeated exposure	No information available.			

Section 12: Ecological information

Ecotoxicity

Aquatic ecotoxicity

Keep out of waterways. Harmful to aquatic life with long lasting effects.

Chemical name	Algae/aquatic plants	Fish	Toxicity to	Crustacea
			microorganisms	
2-Ethyl hexanol		LC50: 32 - 37mg/L (96h,		EC50: =39mg/L (48h,
	Desmodesmus	Oncorhynchus mykiss)		Daphnia magna)
	subspicatus)	LC50: >7.5mg/L (96h,		
		Oncorhynchus mykiss)		
		LC50: 27 - 29.5mg/L		

(96h, Pimephales	
promelas)	
, ,	
LC50: =29.7mg/L (96h,	
Pimephales promelas)	
LC50: 10.0 - 33.0mg/L	
(96h, Lepomis	
macrochirus)	

Terrestrial ecotoxicity	There is no data for this product.			
Persistence and degradability				
Persistence and degradability	No information available.			
Bioaccumulative potential				
Bioaccumulation	There is no data for this product.			
Component Information				
Chemica		Partition coefficient		
2-Ethyl ł	nexanol	2.9		
Mobility				
Mobility	No information available.			
Other adverse effects				
Other adverse effects	No information available.			
Section 13: Disposal cons	siderations			
Waste treatment methods				
Waste from residues/unused products	Dispose of in accordance with federal, state and local regulations.			
Contaminated packaging	Empty containers pose a potential fire and explosion hazard. Do not cut, puncture or weld containers. Empty containers should be taken to an approved waste handling site for recycling or disposal.			
See section 8 for more information	1			
Section 14: Transport info	ormation			

ADG	Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.
IATA	Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS. Not regulated
IMDG_	Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS. Not regulated

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code No information available

Section 15: Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations

Australia

Classified as a hazardous substance in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS). Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.

See section 8 for national exposure control parameters

Standard for Uniform Scheduling of Medicines and Poisons (SUSMP)

No poisons schedule number allocated

Poison Schedule Number Not applicable

Disclaimer

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since IXOM Operations Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their IXOM representative or IXOM Operations Pty Ltd at the contact details on page 1.

IXOM Operations Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.
