# SAFETY DATA SHEET

Revision date: 16-Aug-2023

# **1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER**

### Product identifier Strawberry Flavour Nat (R229032) **Product Name** Product Code(s) 00000027059 Other means of identification 1197 **UN number** Synonyms E50024 (FASTR50024) Pure substance/mixture Mixture Recommended use of the chemical and restrictions on use **Recommended use** Flavour. Uses advised against No information available Supplier Ixom Operations Pty Ltd (Bronson & Jacobs division) - incorporated in Australia ABN:51 600 546 512 70 Marple Avenue Villawood NSW 2163 Australia

Telephone Number: +61 2 8717 2929 Facsimile: +61 2 9755 9611

### Emergency telephone number

Emergency telephone number 1 800 033 111 (ALL HOURS)

Please ensure you refer to the limitations of this Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.

# 2. HAZARDS IDENTIFICATION

### GHS Classification

Classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG).

Classified as a hazardous chemical in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

### Flammable liquids

B

Category 3

SIGNAL WORD Warning

### Label elements

#### Flame

Hazard statements H226 - Flammable liquid and vapor

### **Precautionary Statements - Prevention**

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking Keep container tightly closed Ground/bond container and receiving equipment Use explosion-proof electrical, ventilating, lighting equipment Use only non-sparking tools Take precautionary measures against static discharge Wear protective gloves / protective clothing / eye protection / face protection **Precautionary Statements - Response** 

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower In case of fire: Use extinguishing media as outlined in Section 5 of this Safety Data Sheet to extinguish. **Precautionary Statements - Storage** Store in a well-ventilated place. Keep cool **Precautionary Statements - Disposal** Dispose of contents/container to an approved waste disposal plant

### Other hazards which do not result in classification

Causes mild skin irritation

Poisons Schedule (SUSMP) None allocated

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

### Mixture

Contains propylene glycol.

| Chemical name                        | CAS No. | Weight-% |
|--------------------------------------|---------|----------|
| Flavour ingredients at non-hazardous | -       | 100      |
| concentrations                       |         |          |

# 4. FIRST AID MEASURES

### Description of first aid measures

| General advice | For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor.  |
|----------------|--|
| Inhalation     | Remove to fresh air and keep at rest in a position comfortable for breathing. If breathing is irregular or stopped, administer artificial respiration. Call a physician if symptoms occur. |

| Eye contact  | Rinse thoroughly with plenty of water, also under the eyelids. Keep eye wide open while rinsing. Do not rub affected area. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if symptoms occur.                             |  |
|--|---|--|
| Skin contact   | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Call a physician if symptoms occur.   |  |
| Ingestion  | Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. Get medical attention if symptoms occur.  |  |
| Self-protection of the first aider   | Remove all sources of ignition. Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. Use personal protective equipment as required. See section 8 for more information. |  |
| Most important symptoms and effects, both acute and delayed                |   |  |
| Symptoms   | No information available.   |  |
| Indication of any immediate medical attention and special treatment needed |   |  |
| Note to physicians   | Treat symptomatically.  |  |
|  |   |  |

| 5. FIRE FIGHTING MEASUR                           | 5. FIRE FIGHTING MEASURES  |  |  |
|---|--|--|--|
| Suitable Extinguishing Media                      |  |  |  |
| Suitable Extinguishing Media                      | Foam. Carbon dioxide (CO2). Dry chemical.  |  |  |
|   |  |  |  |
| Unsuitable extinguishing media                    | CAUTION: Use of water spray when fighting fire may be inefficient.   |  |  |
| Specific hazards arising from the chemical        |  |  |  |
| Specific hazards arising from the chemical        | Flammable. Risk of ignition. Keep product and empty container away from heat and sources of ignition. Containers may explode when heated. In the event of fire, cool tanks with water spray. Runoff may create fire or explosion hazard. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. |  |  |
| Hazardous combustion products                     | Oxides of carbon.  |  |  |
| Special protective actions for fire-fighters      |  |  |  |
| Special protective equipment for<br>fire-fighters | Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.   |  |  |
| Hazchem code                                      | 3Y   |  |  |
| 6. ACCIDENTAL RELEASE                             | MEASURES   |  |  |

### Personal precautions, protective equipment and emergency procedures

Personal precautions Evacuate personnel to safe areas. Ensure adequate ventilation. Avoid contact with skin, eyes, and clothing. Avoid breathing vapors or mists. Use personal protective equipment as required. See section 8 for more information. Keep people away from and upwind of spill/leak. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Pay attention to flashback. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Do not touch or walk through spilled material.

| Other information                 | Ventilate the area. Refer to protective measures listed in Sections 7 and 8.  |
|-----------------------------------|---|
| For emergency responders          | Shut off ignition sources. Clear area of all unprotected personnel. Use personal protection recommended in Section 8.   |
| Environmental precautions         |   |
| Environmental precautions         | Prevent further leakage or spillage if safe to do so. Refer to protective measures listed in Sections 7 and 8. Prevent product from entering drains.  |
| Methods and material for containm | ent and cleaning up   |
| Methods for containment           | Stop leak if you can do it without risk. Do not touch or walk through spilled material. A vapor suppressing foam may be used to reduce vapors. Dike far ahead of spill to collect runoff water. Keep out of drains, sewers, ditches and waterways. Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. |
| Methods for cleaning up           |   |

# 7. HANDLING AND STORAGE

### Precautions for safe handling

| Advice on safe handling                                      | Use personal protection equipment. Avoid contact with skin and eyes. Avoid breathing vapors or mists. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use grounding and bonding connection when transferring this material to prevent static discharge, fire or explosion. Use with local exhaust ventilation. Use spark-proof tools and explosion-proof equipment. Keep in an area equipped with sprinklers. Use according to package label instructions. |  |
|--|---|--|
| General hygiene considerations                               | Do not eat, drink or smoke when using this product. Contaminated work clothing should not<br>be allowed out of the workplace. Regular cleaning of equipment, work area and clothing is<br>recommended. Wash hands before breaks and immediately after handling the product.   |  |
| Conditions for safe storage, including any incompatibilities |   |  |
| Storage Conditions   | Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static electricity). Keep in properly labelled containers. Do not store near combustible materials. Protect from direct sunlight. Store away from incompatible materials described in Section 10. Store in accordance with the particular national regulations. Store in accordance with local regulations.            |  |
| Incompatible materials                                       | Oxidizing agents.   |  |

Poisons Schedule (SUSMP) None allocated

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### **Control parameters**

**Exposure Limits** 

No value assigned for this specific material by Safe Work Australia. However, Workplace Exposure Standard(s) for constituent(s):

Propane-1,2-diol (propylene glycol) (total: vapour & particulates): 8hr TWA = 474 mg/m<sup>3</sup> (150 ppm); (particulates only): 8hr TWA = 10 mg/m<sup>3</sup>

As published by Safe Work Australia Workplace Exposure Standards for Airborne Contaminants.

TWA - The time-weighted average airborne concentration of a particular substance when calculated over an eight-hour working day, for a five-day working week.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

### Appropriate engineering controls

Engineering controls

Ensure adequate ventilation, especially in confined areas. Apply technical measures to comply with the occupational exposure limits.

If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

### Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVES.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

| Information on basic physical and chemical properties |   |  |
|---|---|--|
| Physical state  | Liquid  |  |
| Appearance  | No information available                        |  |
| Color   | Colourless to Pale Yellow                       |  |
| Odor  | Sweet Fruity Characteristic odour of Strawberry |  |
| Odor threshold  | No information available                        |  |

Other information

# **10. STABILITY AND REACTIVITY**

| Reactivity   |  |  |
|--|--|--|
| Reactivity   | No information available.  |  |
| Chemical stability                                 |  |  |
| Stability  | Stable under normal conditions.  |  |
| Explosion data<br>Sensitivity to mechanical impac  | <b>t</b> None.   |  |
| Sensitivity to static discharge                    | Yes.   |  |
| Possibility of hazardous reactions                 |  |  |
| Possibility of hazardous reactions                 | Heating can cause expansion or decomposition of the material, which can lead to the containers exploding.                        |  |
| Conditions to avoid                                |  |  |
| Conditions to avoid                                | Heat, flames and sparks. Static discharge (electrostatic discharge). Avoid contact with combustible substances. Direct sunlight. |  |
| Incompatible materials                             |  |  |
| Incompatible materials                             | Oxidizing agents.  |  |
| Hazardous decomposition products                   |  |  |
| Hazardous decomposition products Oxides of carbon. |  |  |

# **11. TOXICOLOGICAL INFORMATION**

### Acute toxicity

### Information on likely routes of exposure

| Product Information              | No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are: |
|----------------------------------|---|
| Inhalation                       | May cause irritation.   |
| Eye contact                      | May cause irritation.   |
| Skin contact                     | Causes mild skin irritation.  |
| Ingestion                        | Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhoea.  |
| Symptoms                         | No information available.   |
| Numerical management of taxiaity | Draduct Information   |

<u>Numerical measures of toxicity</u> - Product Information No information available

### See section 16 for terms and abbreviations

### Delayed and immediate effects as well as chronic effects from short and long-term exposure

| Skin corrosion/irritation         | No information available. |
|-----------------------------------|---------------------------|
| Serious eye damage/eye irritation | No information available. |
| Respiratory or skin sensitization | No information available. |
| Germ cell mutagenicity            | No information available. |
| Carcinogenicity                   | No information available. |
| Reproductive toxicity             | No information available. |
| STOT - single exposure            | No information available. |
| STOT - repeated exposure          | No information available. |
| Aspiration hazard                 | No information available. |

# **12. ECOLOGICAL INFORMATION**

### **Ecotoxicity**

**Ecotoxicity** Avoid contaminating waterways.

### Persistence and degradability

| Persistence and degradability | No information available. |
|-------------------------------|---------------------------|
|-------------------------------|---------------------------|

| Bioaccumulative potential   |                           |  |  |
|-----------------------------|---------------------------|--|--|
| Bioaccumulation             | No information available. |  |  |
|                             |                           |  |  |
| Mobility                    |                           |  |  |
| Mobility in soil            | No information available. |  |  |
| Other adverse effects       |                           |  |  |
| Other adverse effects       | No information available. |  |  |
| 13. DISPOSAL CONSIDERATIONS |                           |  |  |
|                             |                           |  |  |

### Waste treatment methods

| Waste from residues/unused<br>products | Should not be released into the environment. Dispose of in accordance with local regulations. Dispose of waste in accordance with environmental legislation.              |
|--|---|
| Contaminated packaging                 | Empty containers pose a potential fire and explosion hazard. Do not cut, puncture or weld containers. Dispose of in accordance with federal, state and local regulations. |

# **14. TRANSPORT INFORMATION**

### <u>ADG</u>

Classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for Transport by Road and Rail; DANGEROUS GOODS.

### <u>IATA</u>

Classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; DANGEROUS GOODS.

| UN number                  | 1197                         |
|----------------------------|------------------------------|
| UN proper shipping name    | EXTRACTS, FLAVOURING, LIQUID |
| Transport hazard class(es) | 3                            |
| Packing group              | III                          |

### **IMDG**

Classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; DANGEROUS GOODS.

| UN number                  | 1197                         |
|----------------------------|------------------------------|
| UN proper shipping name    | EXTRACTS, FLAVOURING, LIQUID |
| Transport hazard class(es) | 3                            |
| Packing group              | III                          |
| IMDG EMS Fire              | F-E                          |
| IMDG EMS Spill             | S-D                          |
| Marine pollutant           | No                           |

# **15. REGULATORY INFORMATION**

### Safety, health and environmental regulations/legislation specific for the substance or mixture

### National regulations

### <u>Australia</u>

Classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG).

Classified as a hazardous chemical in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

See section 8 for national exposure control parameters

Poisons Schedule (SUSMP) None allocated

**Major hazard (accident/incident planning) regulation** Verify that license requirements are met

Liquids that meet the criteria for Class 3 Packing Group II or III

50 000

# International Inventories

AIIC

All the constituents of this material are listed on the Australian Inventory of Industrial Chemicals.

Legend: AllC- Australian Inventory of Industrial Chemicals

**International Regulations** 

The Montreal Protocol on Substances that Deplete the Ozone Layer Not applicable

The Stockholm Convention on Persistent Organic Pollutants Not applicable

The Rotterdam Convention Not applicable

# **16. OTHER INFORMATION**

Reason(s) For Issue: First Issue Primary SDS

Issuing Date: 16-Aug-2023

This Safety Data Sheet has been prepared by Ixom Operations Pty Ltd (Toxicology and SDS Services).

**Revision Note:** 

The symbol (\*) in the margin of this SDS indicates that this line has been revised.

| Key or legend to abbreviations and acronyms used in the safety data sheet |                             |      |                                  |  |  |  |
|---|-----------------------------|------|----------------------------------|--|--|--|
| Legend Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION                   |                             |      |                                  |  |  |  |
