SAFETY DATA SHEET

Revision date: 04-Mar-2024

Revision Number 1

| Section 1: Identification | |
|--|--|
| Product identifier | |
| Product Name | VANILLA FLAVOUR POWDER NAT DS P50125 (FAVAN50125) |
| Product Code(s) | 00000027227 |
| Other means of identification | |
| Pure substance/mixture | Mixture |
| Recommended use of the chemical | and restrictions on use |
| Recommended use | Flavour. |
| Uses advised against | No information available. |
| Details of manufacturer or importer | - |
| <u>Supplier</u> Ixom Operations Pty Ltd (Bronson & J ABN:51 600 546 512 70 Marple Avenue Villawood NSW 2163 Australia | acobs division) - incorporated in Australia |
| Telephone Number: +61 2 8717 2929 Facsimile: +61 2 9755 9611 | |
| Emergency telephone number | |
| Emergency telephone number | 1 800 033 111 (ALL HOURS) |
| Please ensure you refer to the limitations of this | Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet. |
| Section 2: Hazard identific | ation |
| Not classified as dangerous goods in a | accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail |

(ADG). Classified as a hazardous substance in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

GHS Classification

Serious eye damage/eye irritation

Category 2

Label elements Exclamation mark

Signal word WARNING

Hazard statements H319 - Causes serious eye irritation

Precautionary Statements - Prevention

Wash face, hands and any exposed skin thoroughly after handling. Wear eye/face protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Other hazards which do not result in classification

May form combustible dust concentrations in air.

Section 3: Composition and information on ingredients

| Chemical name | CAS No. | Weight-% |
|---------------------------|-------------|----------|
| Vanillin | 121-33-5 | 10-<30 |
| Non-hazardous ingredients | Proprietary | Balance |

| Section 4: First aid meas | sures |
|-----------------------------------|--|
| Description of first aid measures | 3 |
| General advice | For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor. |
| Inhalation | Remove to fresh air. If symptoms persist, call a physician. |
| Eye contact | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Keep eye wide open while rinsing. Do not rub affected area. Get medical attention if irritation develops and persists. |
| Skin contact | Wash skin with soap and water. If symptoms persist, call a physician. |
| Ingestion | Clean mouth with water and drink afterwards plenty of water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |

Self-protection of the first aider Avoid contact with skin, eyes or clothing. Wear personal protective clothing (see section 8).

Most important symptoms and effects, both acute and delayed

Symptoms

May cause redness and tearing of the eyes.

Revision Number 1

| Effects of Exposure | No information available. |
|---------------------|---------------------------|
| | |

Indication of any immediate medical attention and special treatment needed

Note to physicians Treat symptomatically.

Section 5: Firefighting measures

Suitable Extinguishing Media

Suitable extinguishing media Water spray. Foam. Dry chemical. Carbon dioxide (CO2).

Unsuitable extinguishing media High volume water jet.

Specific hazards arising from the chemical

Specific hazards arising from the chemical Combustible solid. On burning will emit toxic fumes, including those of oxides of carbon. Dusts or fumes may form explosive mixtures in air. Avoid generation of dust. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

Hazardous combustion products Oxides of carbon.

Special protective actions for fire-fighters

Special protective equipment and precautions for fire-fighters Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.

Section 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

| Personal precautions | Avoid contact with skin, eyes or clothing. Avoid breathing dust or spray mist. Ensure adequate ventilation. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Do not touch or walk through spilled material. Wash thoroughly after handling. Use personal protective equipment as required. |
|------------------------------------|---|
| Other information | Ventilate the area. |
| For emergency responders | Shut off ignition sources. Clear area of all unprotected personnel. Use personal protection recommended in Section 8. |
| Environmental precautions | |
| Environmental precautions | Prevent further leakage or spillage if safe to do so. Keep out of drains, sewers, ditches and waterways. See Section 12 for additional Ecological Information. |
| Methods and material for containme | ent and cleaning up |
| Methods for containment | Stop leak if you can do it without risk. Remove ignition sources. Provide adequate ventilation. Do not touch or walk through spilled material. Dike far ahead of spill to collect runoff water. |
| Methods for cleaning up | Cover with damp absorbent (inert material, sand or soil). Vacuum or sweep material and place in a disposal container. Use non-sparking tools. Avoid generation of dust. Pick up and transfer to properly labeled containers. |

Section 7: Handling and storage

Precautions for safe handling

| Advice on safe handling | Avoid breathing dust or spray mist. Avoid contact with skin, eyes or clothing. Avoid generation of dust. Take precautionary measures against static discharges. Use personal protection equipment. Keep away from open flames, hot surfaces and sources of ignition. Use according to package label instructions. Handle in accordance with good industrial hygiene and safety practice. |
|-------------------------------------|---|
| General hygiene considerations | Remove and wash contaminated clothing and gloves, including the inside, before re-use. Regular cleaning of equipment, work area and clothing is recommended. Contaminated work clothing should not be allowed out of the workplace. Wash hands and face before breaks and immediately after handling the product. Wear suitable gloves and eye/face protection. Do not eat, drink or smoke when using this product. |
| Conditions for safe storage, includ | ing any incompatibilities |
| Storage Conditions | Keep containers tightly closed in a cool, well-ventilated place. Protect from sunlight. Store away from sources of heat or ignition. Store away from incompatible materials described in Section 10. Keep container closed when not in use. |
| Incompatible materials | Oxidizing agent. |

Section 8: Exposure controls and personal protection

Control parameters

Exposure Limits

No value assigned for this specific material by Safe Work Australia. However, Workplace Exposure Standard(s) for particulates:

Dusts not otherwise classified: 8hr TWA = 10 mg/m³

As published by Safe Work Australia Workplace Exposure Standards for Airborne Contaminants.

TWA - The time-weighted average airborne concentration of a particular substance when calculated over an eight-hour working day, for a five-day working week.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

Appropriate engineering controls

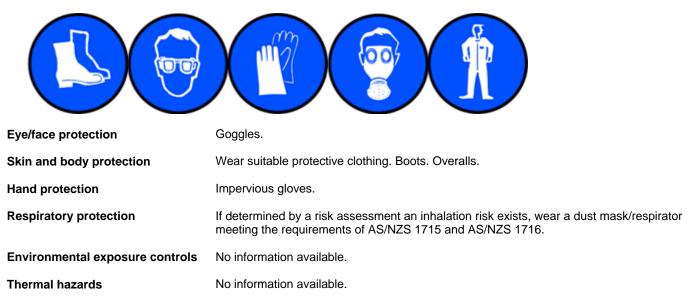

Engineering controls Ensure adequate ventilation, especially in confined areas. Apply technical measures to comply with the occupational exposure limits.

If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, CHEMICAL GOGGLES, GLOVES, DUST MASK.

Section 9: Physical and chemical properties

Information on basic physical and chemical properties

| Physical state Appearance Color Odor Odor threshold | Solid Free-flowing Powder Off-white to Cream Strong Sweet, Vanilla No information available | |
|---|---|------------------|
| Property | Values | Remarks • Method |
| pH | No data available | None known |
| pH (as aqueous solution) | No data available | None known |
| Melting point / freezing point | No data available | None known |
| Boiling point / boiling range | No data available | None known |
| Flash point | No data available | None known |
| Evaporation rate | No data available | None known |
| Flammability (solid, gas) | No data available | None known |
| Flammability Limit in Air | | None known |
| Upper flammability or explosive | No data available | |
| limits | | |
| Lower flammability or explosive | No data available | |
| limits | | |
| Vapor pressure | No data available | None known |
| Vapor density | No data available | None known |
| Relative density | No data available | None known |
| Water solubility | No data available | None known |
| Solubility(ies) | No data available | None known |
| Partition coefficient | No data available | None known |
| Autoignition temperature | No data available | None known |
| Decomposition temperature | No data available | None known |
| Kinematic viscosity | No data available | None known |
| Dynamic viscosity | No data available | None known |
| | | |

Other information

No information available

| Section 10: Stability and re | activity |
|---|--|
| Reactivity_ | |
| Reactivity | No information available. |
| Chemical stability | |
| Stability | Stable under normal conditions. |
| Explosion data Sensitivity to mechanical impact Sensitivity to static discharge | t None. Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. |
| Possibility of hazardous reactions | |
| Possibility of hazardous reactions | None under normal processing. |
| Conditions to avoid | |
| Conditions to avoid | Avoid exposure to heat, sources of ignition, and open flame. Avoid contact with combustible substances. Static discharge (electrostatic discharge). Dust formation. Direct sunlight. |
| Incompatible materials | |
| Incompatible materials | Oxidizing agent. |
| Hazardous decomposition products | |
| Hazardous decomposition products | Oxides of carbon. |

Section 11: Toxicological information

Information on likely routes of exposure

| Product Information | No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are: |
|--------------------------------|---|
| Inhalation | May cause irritation. |
| Eye contact | Causes serious eye irritation. May cause redness, itching, and pain. Dust contact with the eyes can lead to mechanical irritation. |
| Skin contact | May cause irritation. |
| Ingestion | May cause gastrointestinal discomfort if consumed in large amounts. |
| Symptoms | May cause redness and tearing of the eyes. |
| Acute toxicity | |
| Numerical measures of toxicity | Product Information |

<u>Numerical measures of toxicity</u> - Product Information No information available

Component Information

| Chemical name | Oral LD50 | Dermal LD50 | Inhalation LC50 | |
|--|--------------------------------|---------------------------------|--------------------------|--|
| Vanillin | > 3925 mg/kg (Rat)(1) | > 2000 mg/kg (Rat)(1) | - | |
| See section 16 for terms and abbreviations | | | | |
| Delayed and immediate effects as well as chronic effects from short and long-term exposure | | | | |
| Skin corrosion/irritation | No information available. | | | |
| Serious eye damage/eye irritation | Causes serious eye irritation. | Classification based on data av | ailable for ingredients. | |
| Respiratory or skin sensitization | No information available. | | | |
| Germ cell mutagenicity | No information available. | | | |
| Carcinogenicity | No information available. | | | |
| | | | | |
| Reproductive toxicity | No information available. | | | |
| STOT - single exposure | No information available. | | | |
| STOT - repeated exposure | No information available. | | | |
| Aspiration hazard | No information available. | | | |

Section 12: Ecological information

Ecotoxicity

Aquatic ecotoxicity

Avoid contaminating waterways.

| Chemical name | Algae/aquatic plants | Fish | Toxicity to | Crustacea |
|---------------|----------------------|----------------------|----------------|-----------|
| | | | microorganisms | |
| Vanillin | - | LC50: 53 - 61.3mg/L | - | - |
| | | (96h, Pimephales | | |
| | | promelas) | | |
| | | LC50: =88mg/L (96h, | | |
| | | Pimephales promelas) | | |
| | | LC50: =57mg/L (96h, | | |
| | | Pimephales promelas) | | |

Terrestrial ecotoxicity

There is no data for this product.

| Chemical name | Earthworm | Avian | Honeybees |
|---------------|---|-------|-----------|
| Vanillin | NOEC = 10000 mg/kg (Eisenia foetida 42 Days soil | - | - |
| | dry weight) Source: IUCLID | | |

Persistence and degradability

Persistence and degradability No information available.

Bioaccumulative potential

Bioaccumulation

There is no data for this product.

| Chemical name | Partition coefficient |
|---------------|-----------------------|
| Vanillin | 1.23 |

Mobility

Mobility

No information available.

Other adverse effects

Other adverse effects No information available.

Section 13: Disposal considerations

Waste treatment methods

| Waste from residues/unused products | Dispose of in accordance with local regulations. Dispose of waste in accordance with environmental legislation. |
|--|---|
| Contaminated packaging | Empty containers pose a potential fire and explosion hazard. Do not cut, puncture or weld |

containers. Dispose of in accordance with federal, state and local regulations.

See section 8 for more information

| Section 14: Transp | oort information |
|--------------------|--|
| ADG | Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS. |
| ΙΑΤΑ | Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS. |
| IMDG_ | Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS. |

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code No information available

| Section 15: Regulator | y information |
|-----------------------|---------------|
|-----------------------|---------------|

Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations

<u>Australia</u>

Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG).

Classified as a hazardous substance in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS). See section 8 for national exposure control parameters

Standard for Uniform Scheduling of Medicines and Poisons (SUSMP)

No poisons schedule number allocated

Poison Schedule Number Not applicable

Disclaimer

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Ixom Operations Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their Bronson & Jacobs representative or Ixom Operations Pty Ltd at the contact details on page 1.

Ixom Operations Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.

Bronson and Jacobs incorporating the businesses of Woods and Woods and Keith Harris and Australian Botanical Products.
