SAFETY DATA SHEET

Revision date: 17-Sep-2024

Revision Number 1

| Section 1: Identification | | | |
|---|--|--|--|
| Product identifier | | | |
| Product Name | BIOSIGNAL LIPID 20 | | |
| Product Code(s) | 00000027787 | | |
| Other means of identification | | | |
| Recommended use of the chemical | and restrictions on use | | |
| Recommended use | Cosmetics applications. | | |
| Uses advised against | No information available. | | |
| Details of manufacturer or importer | | | |
| <u>Supplier</u> Ixom Operations Pty Ltd (Bronson & Ja ABN:51 600 546 512 70 Marple Avenue Villawood NSW 2163 Australia | acobs division) - incorporated in Australia | | |
| Telephone Number: +61 2 8717 2929 Facsimile: +61 2 9755 9611 | | | |
| Emergency telephone number | | | |
| Emergency telephone number | 1 800 033 111 (ALL HOURS) | | |
| Please ensure you refer to the limitations of this S | Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet. | | |
| Castion O. Honord identified | | | |

Section 2: Hazard identification

Not classified as a hazardous substance in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.

GHS Classification

Label elements

Signal word None

Other hazards which do not result in classification

Section 3: Composition and information on ingredients

| Chemical name | CAS No. | Weight-% |
|---------------|-------------|----------|
| Phospholipids | 123465-35-0 | 18-22 |
| Glycerol | 56-81-5 | 78-82 |

Section 4: First aid measures

Description of first aid measures

| General advice | For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor. |
|----------------|---|
| Inhalation | Remove to fresh air. If symptoms persist, call a physician. |
| Eye contact | Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Consult a physician. |
| Skin contact | Wash skin with soap and water. If symptoms persist, call a physician. |
| Ingestion | Clean mouth with water and drink afterwards plenty of water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. |

Most important symptoms and effects, both acute and delayed

| Symptoms | No information available. |
|------------------------------------|--|
| Effects of Exposure | No information available. |
| Indication of any immediate medica | I attention and special treatment needed |
| Note to physicians | Treat symptomatically. |

Section 5: Firefighting measures

Suitable Extinguishing Media

| Suitable extinguishing media | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. | |
|--|---|--|
| Unsuitable extinguishing media | Do not use straight streams. | |
| Specific hazards arising from the c | hemical | |
| Specific hazards arising from the chemical | Combustible liquid. On burning will emit toxic fumes, including those of oxides of carbon. In the event of fire, cool tanks with water spray. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. | |
| Hazardous combustion products | Oxides of carbon. | |
| Special protective actions for fire-fighters | | |

Special protective equipment and precautions for fire-fighters

Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.

Section 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

| Personal precautions | Avoid contact with skin, eyes or clothing. Avoid breathing vapors or mists. Ensure adequate ventilation. Do not touch or walk through spilled material. Keep people away from and upwind of spill/leak. Wash thoroughly after handling. Use personal protective equipment as required. | |
|--|--|--|
| For emergency responders | Shut off ignition sources. Use personal protection recommended in Section 8. | |
| Environmental precautions | | |
| Environmental precautions | Prevent further leakage or spillage if safe to do so. See Section 12 for additional Ecological Information. | |
| Methods and material for containment and cleaning up | | |
| Methods for containment | Stop leak if you can do it without risk. Remove ignition sources. Provide adequate ventilation. | |
| Methods for cleaning up | Slippery when spilt. Avoid accidents, clean up immediately. Dam up. Soak up with inert absorbent material. Pick up and transfer to properly labeled containers. | |

Section 7: Handling and storage

Precautions for safe handling Avoid contact with skin, eyes or clothing. Avoid breathing vapors or mists. Wash thoroughly Advice on safe handling after handling. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use personal protection equipment. Use according to package label instructions. Handle in accordance with good industrial hygiene and safety practice. Regular cleaning of equipment, work area and clothing is recommended. Wash hands General hygiene considerations before breaks and immediately after handling the product. Avoid contact with skin, eyes or clothing. Wear suitable gloves and eye/face protection. Conditions for safe storage, including any incompatibilities Keep container tightly closed in a dry and well-ventilated place. Protect from sunlight. Store **Storage Conditions** away from incompatible materials described in Section 10. Store away from sources of heat or ignition. Store at around 25C. Keep container closed when not in use. Classified as a C2 (COMBUSTIBLE LIQUID) for the purpose of storage and handling, in accordance with the requirements of AS 1940. Refer to State Regulations for storage and transport requirements. Store away from incompatible materials (refer to SDS). Incompatible materials Strong oxidizing agents. Strong acids.

Section 8: Exposure controls and personal protection

Control parameters

Exposure Limits

No value assigned for this specific material by Safe Work Australia. However, Workplace Exposure Standard(s) for constituent(s):

| Chemical name | Australia | New Zealand | ACGIH TLV |
|---------------------------|---------------------------|---|---|
| Glycerol | TWA: 10 mg/m ³ | TWA: 10 mg/m ³ | - |
| 56-81-5 | _ | - | |
| | | | |
| | | | |
| Chemical name | European Union | United Kingdom | Germany DFG |
| Chemical name Glycerol | European Union - | United Kingdom TWA: 10 mg/m ³ | Germany DFG TWA: 200 mg/m ³ |

As published by Safe Work Australia Workplace Exposure Standards for Airborne Contaminants.

TWA - The time-weighted average airborne concentration of a particular substance when calculated over an eight-hour working day, for a five-day working week.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

Appropriate engineering controls

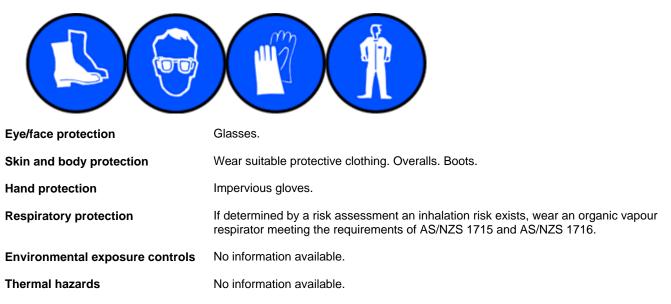

Engineering controls Ensure adequate ventilation, especially in confined areas. Apply technical measures to comply with the occupational exposure limits.

If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements. Apply technical measures to comply with occupational exposure limits.

Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVES.

Section 9: Physical and chemical properties

Information on basic physical and chemical properties

| Physical state Appearance Color Odor Odor threshold | Liquid No information av Yellow to Orange Characteristic No information av | | |
|---|--|----------------------|------------------|
| Property | Values | | Remarks • Method |
| pH | No data available | | None known |
| pH (as aqueous solution) | No data available | | None known |
| Melting point / freezing point | No data available | | None known |
| Boiling point / boiling range | No data available | | None known |
| Flash point | No data available | (199°C for Glycerol) | None known |
| Evaporation rate | No data available | | None known |
| Flammability (solid, gas) | No data available | | None known |
| Flammability Limit in Air | | | None known |
| Upper flammability or explosive | No data available | | |
| limits | | | |
| Lower flammability or explosive | No data available | | |
| limits | | | |
| Vapor pressure | No data available | | None known |
| Vapor density | No data available | | None known |
| Relative density | 1.00 - 1.30 | | None known |
| Water solubility | No data available | | None known |
| Solubility(ies) | No data available | | None known |
| Partition coefficient | No data available | | None known |
| Autoignition temperature | No data available | | None known |
| Decomposition temperature | No data available | | None known |
| Kinematic viscosity | No data available | | None known |
| Dynamic viscosity | No data available | | None known |

Other information

Section 10: Stability and reactivity

| <u>Reactivity</u> | |
|---|---|
| Reactivity | No information available. |
| Chemical stability | |
| Stability | Stable under normal conditions. |
| Explosion data Sensitivity to mechanical impact Sensitivity to static discharge | t None. None. |
| Possibility of hazardous reactions | |
| Possibility of hazardous reactions | None under normal processing. |
| Conditions to avoid | |
| Conditions to avoid | Heat, flames and sparks. Direct sunlight. |
| Incompatible materials | |

Incompatible materials

Strong oxidizing agents. Strong acids.

Hazardous decomposition products

Hazardous decomposition products Oxides of carbon.

Section 11: Toxicological information

Information on likely routes of exposure

| Product Information | No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are: |
|---------------------|---|
| Inhalation | May cause irritation. |
| Eye contact | May cause irritation. |
| Skin contact | May cause irritation. |
| Ingestion | Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. |
| Symptoms | No information available. |

Acute toxicity .

Numerical measures of toxicity - Product Information No information available

Component Information

| Chemical name | Oral LD50 | Dermal LD50 | Inhalation LC50 |
|---------------|---------------------|-------------------------|----------------------|
| Glycerol | = 12600 mg/kg (Rat) | > 10 000 mg/kg (Rabbit) | > 2.75 mg/L (Rat)4 h |
| | | | |

See section 16 for terms and abbreviations

Delayed and immediate effects as well as chronic effects from short and long-term exposure

| Skin corrosion/irritation | Non-irritating to the skin. (1). |
|-----------------------------------|----------------------------------|
| Serious eye damage/eye irritation | Non-irritating to the eyes. (1). |
| Respiratory or skin sensitization | Non-sensitiser to skin. (1). |
| Germ cell mutagenicity | Not mutagenic. (1). |
| Carcinogenicity | Not carcinogenic. (1). |
| | |
| Poproductivo toxicity | No information available |

| STOT - single exposure | No information available. |
|--------------------------|---------------------------|
| STOT - repeated exposure | No information available. |
| Aspiration hazard | No information available. |

Section 12: Ecological information

Ecotoxicity

Aquatic ecotoxicity

Avoid contaminating waterways.

| Chemical name | Algae/aquatic plants | Fish | Toxicity to microorganisms | Crustacea |
|---------------|----------------------|---|-------------------------------|-----------|
| Glycerol | - | LC50: 51 - 57mL/L (96h, Oncorhynchus mykiss) | | - |

| Terrestrial ecotoxicity | There is no data for this product. | | |
|--|---|-----------------------|--|
| Persistence and degradability | | | |
| Persistence and degradability | Biodegradable. (1). | | |
| Bioaccumulative potential | | | |
| Bioaccumulation | Not likely to bioaccumulate. (1). | | |
| Chemical | name | Partition coefficient | |
| Glyce | ycerol -1.75 | | |
| <u>Mobility</u> | | | |
| Mobility | Mobility in soil is expected to be very h | nigh. (1). | |
| Other adverse effects | | | |
| Other adverse effects | No information available. | | |
| Section 13: Disposal considerations | | | |
| Waste treatment methods | | | |
| Waste from residues/unused products | Should not be released into the environment. Dispose of in accordance with local regulations. Dispose of in accordance with federal, state and local regulations. | | |
| Contaminated packaging | Empty containers pose a potential fire and explosion hazard. Do not cut, puncture or weld containers. | | |
| See section 8 for more information | | | |

Section 14: Transport information

| ADG | Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS. |
|------|--|
| IATA | Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS. |
| IMDG | Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS. |

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code No information available

Section 15: Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations

<u>Australia</u>

Not classified as a hazardous substance in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.

See section 8 for national exposure control parameters

Standard for Uniform Scheduling of Medicines and Poisons (SUSMP)

No poisons schedule number allocated

Poison Schedule Number Not applicable

Australian Industrial Chemicals Introduction Scheme (AICIS)

| Chemical name | Australian Industrial Chemicals Introduction Scheme (AICIS) | Additional information |
|-----------------------------|---|---|
| Phospholipids - 123465-35-0 | | Defined scope of assessment: For cosmetic use only. For dermal use only. Concentration <=20% and is not to be used in topical products intended for use in the eye. |
| Glycerol - 56-81-5 | Present | - |

Illicit Drug Precursors/Reagents

This product does not contain any substance(s) on the Illicit Drug Precursors/Reagents list.

| International Inventories AIIC | All the constituents of this material are listed on the Australian Inventory of Industrial Chemicals. |
|-----------------------------------|---|
| NZIoC | Contact supplier for inventory compliance status. |
| TSCA | Contact supplier for inventory compliance status. |
| DSL/NDSL | Contact supplier for inventory compliance status. |

| EINECS/ELINCS | Contact supplier for inventory compliance status. |
|---------------|---|
| ENCS | Contact supplier for inventory compliance status. |
| IECSC | Contact supplier for inventory compliance status. |
| KECL | Contact supplier for inventory compliance status. |
| PICCS | Contact supplier for inventory compliance status. |
| FICCO | Contact supplier for inventory compliance status. |

Disclaimer

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Ixom Operations Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their Bronson & Jacobs representative or Ixom Operations Pty Ltd at the contact details on page 1.

Ixom Operations Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.

Bronson and Jacobs incorporating the businesses of Woods and Woods and Keith Harris and Australian Botanical Products.
