# SAFETY DATA SHEET

Revision date: 15-Aug-2024

#### Revision Number 5

Section 1: Identification	
Product identifier	
Product Name	NATURAL VITAMIN E
Product Code(s)	00000030030
Other means of identification	
Synonyms	Natural Vitamin E Oil 70%; Natural Vitamin E Oil 25%; Decanox MTS 70
Recommended use of the chemical	and restrictions on use
Recommended use	Food applications. Cosmetics, personal care products.
Uses advised against	No information available.
Details of manufacturer or importer	
<b>Supplier</b> Ixom Operations Pty Ltd (Bronson & Ja ABN:51 600 546 512 70 Marple Avenue Villawood NSW 2163 Australia	acobs division) - incorporated in Australia
Telephone Number: +61 2 8717 2929 Facsimile: +61 2 9755 9611	
Emergency telephone number	
Emergency telephone number	1 800 033 111 (ALL HOURS)
Please ensure you refer to the limitations of this S	afety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.

# Section 2: Hazard identification

Not classified as a hazardous substance in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.

#### GHS Classification

Label elements

Signal word None Other hazards which do not result in classification

# Section 3: Composition and information on ingredients

Chemical name	CAS No.	Weight-%
Mixed d-tocopherols	-	>=25
Ingredients determined not to be hazardous	-	to 100

## Section 4: First aid measures

#### Description of first aid measures

General advice	For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor.
Inhalation	Remove to fresh air. If symptoms persist, call a physician.
Eye contact	Rinse thoroughly with plenty of water, also under the eyelids. Get medical attention if symptoms occur.
Skin contact	Wash skin with soap and water. If symptoms persist, call a physician.
Ingestion	Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. Consult a physician if necessary.
Mart in a start and a start a start	the best best and delayed

#### Most important symptoms and effects, both acute and delayed

Symptoms	No information available.
Effects of Exposure	No information available.
Indication of any immediate medical	attention and special treatment needed

Note to physicians Treat symptomatically.

# Section 5: Firefighting measures

Suitable Extinguishing Media	
Suitable extinguishing media	Dry chemical, CO2, water spray or regular foam.
Unsuitable extinguishing media	Solid water jet/stream may scatter and spread the fire.
Specific hazards arising from the cl	hemical
Specific hazards arising from the chemical	Combustible liquid. On burning will emit toxic fumes, including those of oxides of carbon. In the event of fire, cool tanks with water spray. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.
Hazardous combustion products	Oxides of carbon.
Special protective actions for fire-fi	ghters

Special protective equipment and precautions for fire-fighters

Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.

# Section 6: Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

Personal precautions	Avoid contact with skin, eyes or clothing. Avoid breathing vapors or mists. Ensure adequate ventilation. Do not touch or walk through spilled material. Keep people away from and upwind of spill/leak. Wash thoroughly after handling. Use personal protective equipment as required.
For emergency responders	Shut off ignition sources. Use personal protection recommended in Section 8.
Environmental precautions	
Environmental precautions	Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. See Section 12 for additional Ecological Information.
Methods and material for containme	ent and cleaning up
Methods for containment	Stop leak if you can do it without risk. Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Remove ignition sources. Provide adequate ventilation.
Methods for cleaning up	Slippery when spilt. Avoid accidents, clean up immediately. Dam up. Soak up with inert absorbent material. Use personal protective equipment as required. Pick up and transfer to properly labeled containers.

# Section 7: Handling and storage

Precautions for safe handling	
Advice on safe handling	Avoid contact with skin, eyes or clothing. Avoid breathing vapors or mists. Wash thoroughly after handling. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use personal protection equipment. Use according to package label instructions. Handle in accordance with good industrial hygiene and safety practice.
General hygiene considerations	Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product. Contaminated work clothing should not be allowed out of the workplace. Avoid contact with skin, eyes or clothing. Wear suitable gloves and eye/face protection.
Conditions for safe storage, includ	ling any incompatibilities
Storage Conditions	Keep containers tightly closed in a dry, cool and well-ventilated place. Protect from sunlight. Store away from incompatible materials (refer to SDS). Store away from sources of heat or ignition. Keep container closed when not in use.
	Classified as a C2 (COMBUSTIBLE LIQUID) for the purpose of storage and handling, in accordance with the requirements of AS 1940. Refer to State Regulations for storage and transport requirements.
Incompatible materials	Alkali. Strong acids. Metal salts. Oxidizing agent.

# Section 8: Exposure controls and personal protection

#### Control parameters

Exposure Limits

No value assigned for this specific material by Safe Work Australia.

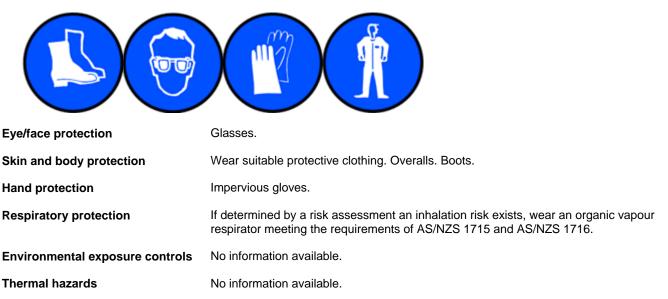

#### Appropriate engineering controls

**Engineering controls** Ensure adequate ventilation, especially in confined areas.

#### Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

#### OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVES.

### Section 9: Physical and chemical properties

#### Information on basic physical and chemical properties

Physical state Appearance Color Odor	Liquid Clear, Oily Pale Yellow to Brownish - Red Characteristic, Almost Odourless	
Odor threshold	No information available	
Property_	Values	Remarks • Method
pH	No data available	None known
pH (as aqueous solution)	No data available	None known
Melting point / freezing point	No data available	None known
Boiling point / boiling range	> 300 °C	None known
Flash point	> 200 °C	None known
Evaporation rate	No data available	None known
Flammability (solid, gas)	No data available	None known
Flammability Limit in Air		None known
Upper flammability or explosive	No data available	
limits		

Lower flammability or explosive limits	No data available
Vapor pressure	No data available
Vapor density	No data available
Relative density	0.92 - 0.96
Water solubility	No data available
Solubility(ies)	Immiscible in water
Partition coefficient	No data available
Autoignition temperature	No data available
Decomposition temperature	> 300 °C
Kinematic viscosity	No data available
Dynamic viscosity	No data available
· ·	

None known @ 25 °C None known None known None known None known None known None known

Other information

Section 10: Stability and re	eactivity
Reactivity	
Reactivity	No information available.
Chemical stability	
Stability	Stable under normal conditions.
Explosion data Sensitivity to mechanical impac Sensitivity to static discharge	<b>t</b> None. None.
Possibility of hazardous reactions	_
Possibility of hazardous reactions	None under normal processing.
Conditions to avoid	
Conditions to avoid	Heat, flames and sparks. Static discharge (electrostatic discharge). Direct sunlight.
Incompatible materials	
Incompatible materials	Alkali. Strong acids. Metal salts. Oxidizing agent.
Hazardous decomposition products	<u>S</u>
Hazardous decomposition products	s Oxides of carbon.
Section 11: Toxicological	information
Information on likely routes of expo	osure
Product Information	No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are:
Inhalation	May cause irritation

Inhalation May cause irritation.

- **Eye contact** May cause irritation.
- Skin contact May cause irritation.

#### Ingestion

Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Symptoms No information available.

#### Acute toxicity .

<u>Numerical measures of toxicity</u> - Product Information No information available

See section 16 for terms and abbreviations

Delayed and immediate effects as well as chronic effects from short and long	I-term exposure

Skin corrosion/irritation	No information available.
Serious eye damage/eye irritation	No information available.
Respiratory or skin sensitization	No information available.
Germ cell mutagenicity	Not mutagenic.
Carcinogenicity	Not carcinogenic.
Reproductive toxicity	No information available.
Reproductive toxicity STOT - single exposure	No information available. No information available.

Section 12: Ecological information		
<u>Ecotoxicity</u>		
Aquatic ecotoxicity	Avoid contaminating waterways.	
Terrestrial ecotoxicity	There is no data for this product.	
Persistence and degradability		
Persistence and degradability	Biodegradable.	

Bioaccumulative potential			
Bioaccumulation	Material does not bioaccumulate.		
Mobility			
Mobility	The product is insoluble and floats on water.		
Other adverse effects			
Other adverse effects	No information available.		
Section 13: Disposal considerations			
Waste treatment methods			
Waste from residues/unused	Should not be released into the environment. Dispose of in accordance with federal, state		

products	and local regulations.
Contaminated packaging	Empty containers pose a potential fire and explosion hazard. Do not cut, puncture or weld containers.

See section 8 for more information

Section 14: Transport information			
ADG_	Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.		
IATA	Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS.		
IMDG_	Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS.		

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code No information available

# Section 15: Regulatory information

#### Safety, health and environmental regulations/legislation specific for the substance or mixture

#### National regulations

#### <u>Australia</u>

Not classified as a hazardous substance in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.

See section 8 for national exposure control parameters

#### Standard for Uniform Scheduling of Medicines and Poisons (SUSMP)

No poisons schedule number allocated

Poison Schedule Number Not applicable

#### Australian Industrial Chemicals Introduction Scheme (AICIS)

	Australian Industrial Chemicals Introduction Scheme (AICIS)	Additional information
Ingredients determined not to be hazardous	Present	-

#### Illicit Drug Precursors/Reagents

This product does not contain any substance(s) on the Illicit Drug Precursors/Reagents list.

International Inventories			
AIIC	All the constituents of this material are listed on the Australian Inventory of Industrial		
	Chemicals or are regulated through the Food Standards Australia New Zealand (FSANZ).		
NZIoC	All the constituents of this material are listed on the New Zealand Inventory of Chemicals or		
	are regulated through the Food Standards Australia New Zealand (FSANZ).		
TSCA	Contact supplier for inventory compliance status.		
DSL/NDSL	Contact supplier for inventory compliance status.		
EINECS/ELINCS	Contact supplier for inventory compliance status.		
ENCS	Contact supplier for inventory compliance status.		
IECSC	Contact supplier for inventory compliance status.		
KECL			
	Contact supplier for inventory compliance status.		
PICCS	Contact supplier for inventory compliance status.

International Regulations			
The Montreal Protocol on Substances that Deplete the Ozone Layer Not applicable			
The Stockholm Convention on Persistent Organic Pollutants Not applicable			

The Rotterdam Convention Not applicable

# Section 16: Other information

Supplier Safety Data Sheet 02/2023 Decanox is a registered trademark.

Reason(s) For Issue:

5 Yearly Revised Primary SDS

#### **Prepared By**

This Safety Data Sheet has been prepared by IXOM Operations Pty Ltd (Toxicology and SDS Services).

Revision date: 15-Aug-2024

#### **Revision Note:**

The symbol (\*) in the margin of this SDS indicates that this line has been revised.

#### Key or legend to abbreviations and acronyms used in the safety data sheet

#### Legend

SVHC: Substances of Very High Concern for Authorization: PBT: Persistent, Bioaccumulative, and Toxic (PBT) Substances vPvB: Very Persistent and very Bioaccumulative (vPvB) Substances STOT: Specific Target Organ Toxicity ATE: Acute Toxicity Estimate LC50: 50% Lethal Concentration LD50: 50% Lethal Dose

#### Legend Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

TWA	TWA (time-weighted average)	STEL	STEL (Short Term Exposure Limit)
Ceiling	Maximum limit value	*	Skin designation
С	Carcinogen		-

#### Key literature references and sources for data used to compile the SDS

#### **Disclaimer**

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Ixom Operations Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their Bronson & Jacobs representative or Ixom Operations Pty Ltd at the contact details on page 1.

Ixom Operations Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.

Bronson and Jacobs incorporating the businesses of Woods and Woods and Keith Harris and Australian Botanical Products.
