SAFETY DATA SHEET

Revision date: 15-Oct-2024

Revision Number 3

Section 1: Identification	
Product identifier	
Product Name	L-MENTHOL
Product Code(s)	00000030954
Other means of identification	
CAS No.	2216-51-5
Synonyms	Menthol L Pellets; L-Menthol White Crystals; Menthol Crystals USP Natural; Plaimar Menthol Crystals; Menthol Crystal PPMEN77009; AAMEN77009; Menthol Crystals
Pure substance/mixture	Substance
Recommended use of the chemica	l and restrictions on use
Recommended use	Aromatic applications.
Uses advised against	No information available.
Details of manufacturer or imported	<u>r</u>
Supplier Ixom Operations Pty Ltd (Bronson & A ABN:51 600 546 512 70 Marple Avenue Villawood NSW 2163 Australia	Jacobs division) - incorporated in Australia
Telephone Number: +61 2 8717 2929 Facsimile: +61 2 9755 9611	
Emergency telephone number	
Emergency telephone number	1 800 033 111 (ALL HOURS)
Please ensure you refer to the limitations of this	Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.
Section 2: Hazard identific	ation
	in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS). y the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and
GHS Classification	

Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 2

Label elements Exclamation mark

Signal word WARNING

Hazard statements

H315 - Causes skin irritation H319 - Causes serious eye irritation

Precautionary Statements - Prevention

Wash face, hands and any exposed skin thoroughly after handling.
Wear protective gloves/clothing and eye/face protection.
Precautionary Statements - Response
Specific treatment (see First aid on this SDS).
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.
IF ON SKIN: Wash with plenty of water and soap.
If skin irritation occurs: Get medical advice/attention.
Take off contaminated clothing and wash it before reuse.

Other hazards which do not result in classification

May be harmful if swallowed. May be harmful if inhaled. Harmful to aquatic life. May form combustible dust concentrations in air.

Section 3: Composition and information on ingredients

Chemical name	CAS No.	Weight-%
L-Menthol	2216-51-5	100

Section 4: First aid measures

Description of first aid measures

General advice	For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor. Show this safety data sheet to the doctor in attendance.
Inhalation	Remove to fresh air. Get medical attention immediately if symptoms occur.
Eye contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Keep eye wide open while rinsing. Do not rub affected area. Get medical attention if irritation develops and persists.
Skin contact	Wash off immediately with soap and plenty of water for at least 15 minutes. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. Never give anything by mouth to an unconscious person. Do NOT induce

	vomiting. Call a physician.	
Self-protection of the first aider	Avoid contact with skin, eyes or clothing. Wear personal protective clothing (see section 8).	
Most important symptoms and effect	ets, both acute and delayed	
Symptoms	May cause redness and tearing of the eyes. Burning sensation.	
Effects of Exposure	No information available.	
Indication of any immediate medica	l attention and special treatment needed	
Note to physicians	Treat symptomatically.	
Section 5: Firefighting mea	asures	
Section 5: Firefighting mea	asures	
	Dry chemical, CO2, alcohol-resistant foam or water spray.	
Suitable Extinguishing Media		
Suitable Extinguishing Media Suitable extinguishing media	Dry chemical, CO2, alcohol-resistant foam or water spray. Do not scatter spilled material with high pressure water streams.	

Hazardous combustion products Carbon oxides.

Special protective actions for fire-fighters

Special protective equipment and
precautions for fire-fightersFirefighters should wear self-contained breathing apparatus and full firefighting turnout gear.
Use personal protection equipment.

Section 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

Personal precautions	Avoid contact with skin, eyes or clothing. Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Wash thoroughly after handling. Use personal protective equipment as required. Avoid breathing dust or spray mist.
Other information	Refer to protective measures listed in Sections 7 and 8.
For emergency responders	Use personal protection recommended in Section 8.
Environmental precautions	
Environmental precautions	Prevent further leakage or spillage if safe to do so. See Section 12 for additional Ecological Information. Keep out of drains, sewers, ditches and waterways.
Methods and material for containm	ent and cleaning up
Methods for containment	Prevent further leakage or spillage if safe to do so. Remove ignition sources. Provide adequate ventilation.

Methods for cleaning up	Use appropriate personal protective equipment (PPE). Carefully shovel or sweep up spilled material and place in suitable container. Avoid generating dust. Use non-sparking tools.

Section 7: Handling and storage

Precautions for safe handling

Advice on safe handling Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing. Take precautionary measures against static discharges. Keep away from open flames, hot surfaces and sources of ignition. Do not eat, drink or smoke when using this product. Take off contaminated clothing and wash before reuse. Avoid breathing dust or spray mist.

General hygiene considerations Wear suitable gloves and eye/face protection. Do not eat, drink or smoke when using this product. Avoid contact with skin, eyes or clothing.

Conditions for safe storage, including any incompatibilities

Storage ConditionsKeep containers tightly closed in a dry, cool and well-ventilated place. Keep container
closed when not in use. Store away from sources of heat or ignition.Incompatible materialsStrong oxidizing agents. Phenols. Chloral hydrate. Betanaphthol. Pyrogallol. Resorcinol.

Section 8: Exposure controls and personal protection

Thymol in triturations.

Control parameters

Exposure Limits

No value assigned for this specific material by Safe Work Australia. However, Workplace Exposure Standard(s) for particulates:

Dusts not otherwise classified: 8hr TWA = 10 mg/m³

As published by Safe Work Australia Workplace Exposure Standards for Airborne Contaminants.

TWA - The time-weighted average airborne concentration of a particular substance when calculated over an eight-hour working day, for a five-day working week.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

Appropriate engineering controls

Engineering controls Apply technical measures to comply with the occupational exposure limits. Ensure adequate ventilation, especially in confined areas.

If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the

physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, CHEMICAL GOGGLES, GLOVES, DUST MASK.

Eye/face protection	Goggles.
Skin and body protection	Wear suitable protective clothing. Boots. Overalls.
Hand protection	Impervious gloves.
Respiratory protection	If determined by a risk assessment an inhalation risk exists, wear a dust mask/respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716.
Environmental exposure controls	No information available.
Thermal hazards	No information available.

Section 9: Physical and chemical properties

Information on basic physical and chemical properties

Physical state Appearance Color	Solid Needles, Crystals Colourless	
Odor	Menthol	
Odor threshold	No information available	
Property_	Values	Remarks • Method
pH	No data available	None known
pH (as aqueous solution)	No data available	None known
Melting point / freezing point	41.5 - 44 °C	None known
Boiling point / boiling range	212 °C	None known
Flash point	No data available	None known
Evaporation rate	No data available	None known
Flammability (solid, gas)	No data available	None known
Flammability Limit in Air		None known
Upper flammability or explosive	No data available	
limits		
Lower flammability or explosive	No data available	
limits		
Vapor pressure	No data available	None known
Vapor density	No data available	None known
Relative density	No data available	None known
Water solubility	0.1-1%	None known
Solubility(ies)	Very slightly Soluble in water	None known
Partition coefficient	No data available	None known
Autoignition temperature	No data available	None known
Decomposition temperature	No data available	None known
Kinematic viscosity	No data available	None known
Dynamic viscosity	No data available	None known

Other information

Section 10: Stability and reactivity

Reactivity_	
Reactivity	No information available.
Chemical stability	
Stability	Stable under normal conditions.
Explosion data Sensitivity to mechanical impac Sensitivity to static discharge	t None. Yes.
Possibility of hazardous reactions	_
Possibility of hazardous reactions	Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.
Conditions to avoid	
Conditions to avoid	Heat, flames and sparks. Dust formation. Static discharge (electrostatic discharge).
Incompatible materials	
Incompatible materials	Strong oxidizing agents. Phenols. Chloral hydrate. Betanaphthol. Pyrogallol. Resorcinol. Thymol in triturations.

Hazardous decomposition products

Hazardous decomposition products Carbon oxides.

Section 11: Toxicological information

Information on likely routes of exposure

No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are:
May cause irritation of respiratory tract. May be harmful if inhaled.
Causes serious eye irritation. May cause redness, itching, and pain.
Causes skin irritation.
Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.
Redness. May cause redness and tearing of the eyes.

Acute toxicity_.

Numerical measures of toxicity - Product Information

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
---------------	-----------	-------------	-----------------

L-Menthol	= 3300 mg/kg (Rat)	-	-		
See section 16 for terms and abbrevia	See section 16 for terms and abbreviations				
	vell as chronic effects from short and	long-term exposure			
Skin corrosion/irritation	Causes skin irritation.				
Serious eye damage/eye irritation	Causes serious eye irritation.				
Respiratory or skin sensitization	No information available.				
Germ cell mutagenicity	No information available.				
Carcinogenicity	No information available.				
Reproductive toxicity	No information available.				
Reproductive toxicity					
STOT - single exposure	No information available.				
STOT - repeated exposure	No information available.				
Aspiration hazard	No information available.				
-					

Section 12: Ecological information

Ecotoxicity

Aquatic ecotoxicity

Harmful to aquatic life. Keep out of waterways.

Chemical name	Algae/aquatic plants	Fish	Toxicity to microorganisms	Crustacea
L-Menthol	-	LC50: =18.9mg/L (96h, Pimephales promelas)	-	-

Terrestrial ecotoxicityThere is no data for this product.

 Persistence and degradability
 No information available.

 Bioaccumulative potential
 Bioaccumulation

Component Information			
Chemical name		Partition coefficient	
L-Men	thol	3.15	
<u>Mobility</u>			
Mobility	No information available.		
Other adverse effects			
Other adverse effects	No information available.		
Section 13: Disposal considerations			
Waste treatment methods			
Waste from residues/unused products	Dispose of in accordance with local regulations. Dispose of waste in accordance with environmental legislation.		
Contaminated packaging	Dispose of in accordance with federal, state and local regulations.		
See section 8 for more information			
Section 14: Transport info	rmation		
ADG		ds by the criteria of the Australian Dangerous Goods Code d and Rail; NON-DANGEROUS GOODS.	
IATA		ds by the criteria of the International Air Transport oods Regulations for transport by air; NON-DANGEROUS	
IMDG		ds by the criteria of the International Maritime Dangerous ansport by sea; NON-DANGEROUS GOODS.	

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code No information available

Section 15: Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations

<u>Australia</u>

Classified as a hazardous substance in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS). Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS. See section 8 for national exposure control parameters

Standard for Uniform Scheduling of Medicines and Poisons (SUSMP)

No poisons schedule number allocated

Poison Schedule Number Not applicable

Disclaimer

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Ixom Operations Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their Bronson & Jacobs representative or Ixom Operations Pty Ltd at the contact details on page 1.

Ixom Operations Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.

Bronson and Jacobs incorporating the businesses of Woods and Woods and Keith Harris and Australian Botanical Products.
