# SAFETY DATA SHEET

Revision date: 03-Jun-2022

. . . .

. .

.

# **1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER**

| roduct identifier              |                           |  |  |
|--------------------------------|---------------------------|--|--|
| Product Name                   | MARSHMALLOW ROOT HS       |  |  |
| Product Code(s)                | 00000035551               |  |  |
| Other means of identification  |                           |  |  |
| Pure substance/mixture         | Mixture                   |  |  |
| Recommended use of the chemica | I and restrictions on use |  |  |
| Recommended use                | Cosmetics applications.   |  |  |
| Uses advised against           | No information available. |  |  |

Supplier Ixom Operations Pty Ltd (Bronson & Jacobs division) - incorporated in Australia ABN:51 600 546 512 70 Marple Avenue Villawood NSW 2163 Australia

Telephone Number: +61 2 8717 2929 Facsimile: +61 2 9755 9611

## Emergency telephone number

Emergency telephone number

1 800 033 111 (ALL HOURS)

Please ensure you refer to the limitations of this Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.

# 2. HAZARDS IDENTIFICATION

## GHS Classification

Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)

Not classified as a hazardous chemical in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS)

SIGNAL WORD None

Label elements

## Hazard statements

Other hazards which do not result in classificationPoisons Schedule (SUSMP)None allocated

# **3. COMPOSITION/INFORMATION ON INGREDIENTS**

#### <u>Mixture</u>

| Chemical name                              | CAS No. | Weight-% |
|--|---------|----------|
| Propylene glycol                           | 57-55-6 | >60      |
| Ingredients determined not to be hazardous | -       | to 100   |

# 4. FIRST AID MEASURES

#### **Description of first aid measures**

| General advice   | For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New   |  |  |  |
|--|--|--|--|--|
| General advice   | Zealand 0800 764 766) or a doctor.   |  |  |  |
| Inhalation   | Remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms occur.  |  |  |  |
| Eye contact  | Rinse thoroughly with plenty of water, also under the eyelids. Get medical attention if symptoms occur.  |  |  |  |
| Skin contact   | Wash skin with soap and water. Call a physician if symptoms occur.   |  |  |  |
| Ingestion  | Clean mouth with water and drink afterwards plenty of water. Do NOT induce vomiting. Get medical attention if symptoms occur.  |  |  |  |
| Most important symptoms and effe   | cts, both acute and delayed  |  |  |  |
| Symptoms   | No information available.  |  |  |  |
| Indication of any immediate medical attention and special treatment needed |  |  |  |  |
| Note to physicians   | Treat symptomatically.   |  |  |  |
|  |  |  |  |  |
| 5. FIRE FIGHTING MEASU<br>Suitable Extinguishing Media                     | RES  |  |  |  |
| Suitable Extinguishing Media   | Dry chemical, CO2, sand, earth, water spray or regular foam.   |  |  |  |
| Unsuitable extinguishing media   | High volume water jet.   |  |  |  |
| Specific hazards arising from the chemical                                 |  |  |  |  |
| Specific hazards arising from the chemical                                 | Combustible liquid. On burning will emit toxic fumes, including those of oxides of carbon.<br>Fire residues and contaminated fire extinguishing water must be disposed of in accordance<br>with local regulations. |  |  |  |
| Hazardous combustion products  | Oxides of carbon.  |  |  |  |
|  |  |  |  |  |

## Special protective actions for fire-fighters

**Special protective equipment for fire-fighters** Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.

# 6. ACCIDENTAL RELEASE MEASURES

## Personal precautions, protective equipment and emergency procedures

| Personal precautions                                 | Ensure adequate ventilation. Avoid breathing vapors or mists. Avoid contact with skin, eyes, and clothing. Wash thoroughly after handling. Use personal protective equipment as required. |  |
|--|---|--|
| For emergency responders                             | Shut off ignition sources. Clear area of all unprotected personnel. Use personal protection recommended in Section 8.   |  |
| Environmental precautions                            |   |  |
| Environmental precautions                            | See Section 12 for additional Ecological Information. Refer to protective measures listed in Sections 7 and 8.  |  |
| Methods and material for containment and cleaning up |   |  |
| Methods for containment                              | Prevent further leakage or spillage if safe to do so. Dike far ahead of spill to collect runoff water. Remove ignition sources. Provide adequate ventilation.                             |  |
| Methods for cleaning up                              | Slippery when spilt. Avoid accidents, clean up immediately. Dam up. Soak up with inert absorbent material. Pick up and transfer to properly labelled containers.                          |  |

# 7. HANDLING AND STORAGE

| Precautions for safe handling       |   |  |
|-------------------------------------|---|--|
| Advice on safe handling             | Ensure adequate ventilation. Avoid contact with skin and eyes. Avoid breathing vapors or mists. Wash thoroughly after handling. Use according to package label instructions. Handle in accordance with good industrial hygiene and safety practice.                             |  |
| General hygiene considerations      | Regular cleaning of equipment, work area and clothing is recommended. Wash hands and face before breaks and immediately after handling the product. Wear suitable gloves and eye/face protection.   |  |
| Conditions for safe storage, includ | ing any incompatibilities   |  |
| Storage Conditions                  | Keep containers tightly closed in a dry, cool and well-ventilated place. Protect from direct sunlight. Keep away from open flames, hot surfaces and sources of ignition. Store away from incompatible materials described in Section 10. Keep container closed when not in use. |  |
|                                     | Classified as a C2 (COMBUSTIBLE LIQUID) for the purpose of storage and handling, in accordance with the requirements of AS 1940. Refer to State Regulations for storage and transport requirements.   |  |
| Incompatible materials              | Reducing agents. Acids. and. Strong oxidizing agents.   |  |
| Poisons Schedule (SUSMP)            | None allocated  |  |

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Control parameters

**Exposure Limits** 

No value assigned for this specific material by Safe Work Australia. However, Workplace Exposure Standard(s) for constituent(s):

Propane-1,2-diol (propylene glycol) (total: vapour & particulates): 8hr TWA = 474 mg/m<sup>3</sup> (150 ppm); (particulates only): 8hr TWA = 10 mg/m<sup>3</sup>

As published by Safe Work Australia Workplace Exposure Standards for Airborne Contaminants.

TWA - The time-weighted average airborne concentration of a particular substance when calculated over an eight-hour working day, for a five-day working week.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

#### Appropriate engineering controls

**Engineering controls** Ensure adequate ventilation, especially in confined areas. Apply technical measures to comply with the occupational exposure limits.

If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

### Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVES.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

Liquid

### Information on basic physical and chemical properties Physical state

| Appearance                      | No information available.              |                  |
|---------------------------------|--|------------------|
| Color                           | Yellow to Orange Yellow                |                  |
| Odor                            | Not specified                          |                  |
| Odor threshold                  | No information available.              |                  |
|                                 |  |                  |
| Property                        | Values                                 | Remarks • Method |
| рН                              | 5.2 - 7.2                              | None known       |
| pH (as aqueous solution)        | No data available                      | None known       |
| Melting point / freezing point  | No data available                      | None known       |
| Boiling point / boiling range   | 188 °C                                 | None known       |
| Flash point                     | >100 °C                                | None known       |
| Evaporation rate                | No data available                      | None known       |
| Flammability (solid, gas)       | No data available                      | None known       |
| Flammability Limit in Air       |  | None known       |
| Upper flammability or explosive | No data available                      |                  |
| limits                          |  |                  |
| Lower flammability or explosive | No data available                      |                  |
| limits                          |  |                  |
| Vapor pressure                  | 0.12 hPa @20°C; 3 hPa @50°C            | None known       |
| Vapor density                   | No data available                      | None known       |
| Relative density                | 1.020 - 1.060 @20°C (relative density) | None known       |
| Water solubility                | No data available                      | None known       |
| Solubility(ies)                 | Miscible in water                      | None known       |
| Partition coefficient           | No data available                      | None known       |
| Autoignition temperature        | No data available                      | None known       |
| Decomposition temperature       | No data available                      | None known       |
| Kinematic viscosity             | No data available                      | None known       |
| Dynamic viscosity               | No data available                      | None known       |
|                                 |  |                  |

Other information

# **10. STABILITY AND REACTIVITY**

| Reactivity  |  |
|---|--|
| Reactivity  | No information available.                            |
| Chemical stability                                |  |
| Stability   | Stable under normal conditions.                      |
| Explosion data<br>Sensitivity to mechanical impac | t None.  |
| Sensitivity to static discharge                   | None.  |
| Possibility of hazardous reactions                |  |
| Possibility of hazardous reactions                | None under normal processing.                        |
| Conditions to avoid                               |  |
| Conditions to avoid                               | Heat, flames and sparks. Avoid exposure to humidity. |
|   |  |

**Incompatible materials** 

Incompatible materials

Reducing agents. Acids. and. Strong oxidizing agents.

Hazardous decomposition products

Hazardous decomposition products Oxides of carbon.

# 11. TOXICOLOGICAL INFORMATION

## Acute toxicity

Information on likely routes of exposure

| Product Information | No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are: |  |
|---------------------|---|--|
| Inhalation          | May cause irritation.   |  |
| Eye contact         | May cause irritation.   |  |
| Skin contact        | May cause irritation.   |  |
| Ingestion           | May cause gastrointestinal discomfort if consumed in large amounts.   |  |
| Symptoms            | No information available.   |  |

Numerical measures of toxicity - Product Information No information available.

## Numerical measures of toxicity - Component Information

| Chemical name    | Oral LD50            | Dermal LD50              | Inhalation LC50               |
|------------------|----------------------|--------------------------|-------------------------------|
| Propylene glycol | = >20 000 mg/kg(Rat) | = >2000 mg/kg ( Rabbit ) | = >317042 mg/m³/2H ( Rabbit ) |
|                  |                      |                          |                               |

See section 16 for terms and abbreviations

## Delayed and immediate effects as well as chronic effects from short and long-term exposure

| Skin corrosion/irritation         | No information available. |
|-----------------------------------|---------------------------|
| Serious eye damage/eye irritation | No information available. |
| Respiratory or skin sensitization | No information available. |
| Germ cell mutagenicity            | No information available. |
| Carcinogenicity                   | No information available. |
| Reproductive toxicity             | No information available. |
| STOT - single exposure            | No information available. |
| STOT - repeated exposure          | No information available. |
| Aspiration hazard                 | No information available. |

## **12. ECOLOGICAL INFORMATION**

## **Ecotoxicity**

Ecotoxicity

Avoid contaminating waterways.

| Chemical name    | Algae/aquatic plants   | Fish                    | Toxicity to    | Crustacea             |
|------------------|------------------------|-------------------------|----------------|-----------------------|
|                  |                        |                         | microorganisms |                       |
| Propylene glycol | EC50: =19000mg/L (96h, | LC50: =40613mg/L (96h,  | -              | EC50: >1000mg/L (48h, |
|                  | Pseudokirchneriella    | Oncorhynchus mykiss)    |                | Daphnia magna) EC50:  |
|                  | subcapitata)           | LC50: 41 - 47mL/L (96h, |                | >10000mg/L (24h,      |
|                  |                        | Oncorhynchus mykiss)    |                | Daphnia magna)        |
|                  |                        | LC50: =51400mg/L (96h,  |                |                       |
|                  |                        | Pimephales promelas)    |                |                       |
|                  |                        | LC50: =710mg/L (96h,    |                |                       |
|                  |                        | Pimephales promelas)    |                |                       |

### Persistence and degradability

Persistence and degradability No information available.

### Bioaccumulative potential

Bioaccumulation

No information available.

#### **Component Information**

| Chemical name    | Partition coefficient |
|------------------|-----------------------|
| Propylene glycol | -1.07                 |

## Mobility

Mobility in soil

No information available.

## Other adverse effects

| 13. DISPOSA | L CONSIDERATIONS |
|-------------|------------------|
|             |                  |

### Waste treatment methods

| Waste from residues/unused<br>products | Dispose of in accordance with local regulations. Dispose of waste in accordance with environmental legislation.   |
|--|---|
| Contaminated packaging                 | Empty containers pose a potential fire and explosion hazard. Do not cut, puncture or weld containers. Dispose of in accordance with federal, state and local regulations. |

# **14. TRANSPORT INFORMATION**

#### <u>ADG</u>

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.

## <u>IATA</u>

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS.

### <u>IMDG</u>

Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS.

# **15. REGULATORY INFORMATION**

#### Safety, health and environmental regulations/legislation specific for the substance or mixture

#### National regulations

#### Australia

Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)

Not classified as a hazardous chemical in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS)

See section 8 for national exposure control parameters

| Poisons Schedule | (SUSMP) | None allocated |
|------------------|---------|----------------|
|------------------|---------|----------------|

#### National pollutant inventory

Subject to reporting requirement

| Chemical name              | National pollutant inventory              |  |
|----------------------------|---|--|
| Propylene glycol - 57-55-6 | 20 MW Threshold category 2b total         |  |
|                            | 60000 MWH Threshold category 2b total     |  |
|                            | 1 tonne/h Threshold category 2a total     |  |
|                            | 25 tonne/yr Threshold category 1a total   |  |
|                            | 400 tonne/yr Threshold category 2a total  |  |
|                            | 2000 tonne/yr Threshold category 2b total |  |

#### International Inventories AIIC

All the constituents of this material are listed on the Australian Inventory of Industrial Chemicals.

Legend: AIIC - Australian Inventory of Industrial Chemicals

International Regulations

The Montreal Protocol on Substances that Deplete the Ozone Layer Not applicable

The Stockholm Convention on Persistent Organic Pollutants Not applicable

The Rotterdam Convention Not applicable

## **16. OTHER INFORMATION**

Reason(s) For Issue: 5 Yearly Revised Primary SDS

Issuing Date: 03-Jun-2022

This Safety Data Sheet has been prepared by Ixom Operations Pty Ltd (Toxicology and SDS Services).

#### **Revision Note:**

The symbol (\*) in the margin of this SDS indicates that this line has been revised.

## Key or legend to abbreviations and acronyms used in the safety data sheet

| Legend Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION |                             |      |  |
|---|-----------------------------|------|--|
| TŴA   | TWA (time-weighted average) | STEL |  |
| Ceiling   | Maximum limit value         | *    |  |
| C   | Carcinogen                  |      |  |

STEL (Short Term Exposure Limit) Skin designation

#### Disclaimer

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Ixom Operations Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their Bronson & Jacobs representative or Ixom Operations Pty Ltd at the contact details on page 1.

Ixom Operations Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.

Bronson and Jacobs incorporating the businesses of Woods and Woods and Keith Harris and Australian Botanical Products.
