# SAFETY DATA SHEET

Revision date: 22-Oct-2024

#### Revision Number 5

Section 1: Identification	
Product identifier	
Product Name	CETYL-STEARYL ALCOHOL
Product Code(s)	00000035972
Other means of identification	
CAS No.	67762-27-0
Chemical name	Alcohols, C16-18
Synonyms	Lipocol SC; ThaiOL 1618; Cetostearyl Alcohol C1650; Cetostearyl Alcohol BP; Nafol 1618H Alcohol; Cetostearyl Alcohol 18-65F: TA-1618
Pure substance/mixture	Substance
Recommended use of the chemica	l and restrictions on use
Recommended use	Cosmetic ingredient.
Uses advised against	No information available.
Details of manufacturer or importe	<u>r</u>
Supplier Ixom Operations Pty Ltd (Bronson & ABN:51 600 546 512 70 Marple Avenue Villawood NSW 2163 Australia	Jacobs division) - incorporated in Australia
Telephone Number: +61 2 8717 2929 Facsimile: +61 2 9755 9611	
Emergency telephone number	
Emergency telephone number	1 800 033 111 (ALL HOURS)

Please ensure you refer to the limitations of this Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.

# Section 2: Hazard identification

Not classified as a hazardous substance in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.

# GHS Classification

#### Label elements

Signal word None

Other hazards which do not result in classification

May form combustible dust concentrations in air.

# Section 3: Composition and information on ingredients

Chemical name	CAS No.	Weight-%
Alcohols, C16-18	67762-27-0	100

# Section 4: First aid measures

# **Description of first aid measures**

General advice	For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor.	
Inhalation	Remove to fresh air. If symptoms persist, call a physician.	
Eye contact	Rinse thoroughly with plenty of water, also under the eyelids. Do not rub affected area. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if symptoms occur. Contact with molten materials requires immediate medical assistance.	
Skin contact	Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. If symptoms persist, call a physician. After contact with molten product, cool skin area rapidly with cold water. Removal of solidified molten material from skin requires medical assistance.	
Ingestion	Rinse mouth. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. If molten material is swallowed, seek immediate medical attention.	
Most important symptoms and effects, both acute and delayed		

Symptoms	No information available.	
Effects of Exposure	No information available.	
Indication of any immediate medical attention and special treatment needed		
Note to physicians	Treat symptomatically.	

# Section 5: Firefighting measures

# Suitable Extinguishing Media

Suitable extinguishing media Fine water spray. Foam. Dry chemical. Carbon dioxide (CO2).

#### Specific hazards arising from the chemical

Specific hazards arising from the chemical	Combustible solid. In the event of fire, cool tanks with water spray. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.	
Hazardous combustion products	Oxides of carbon.	
Special protective actions for fire-fighters		

# Special protective equipment and<br/>precautions for fire-fightersFirefighters should wear self-contained breathing apparatus and full firefighting turnout gear.<br/>Use personal protection equipment.

# Section 6: Accidental release measures

# Personal precautions, protective equipment and emergency procedures

Personal precautions	Avoid contact with skin, eyes or clothing. Ensure adequate ventilation. Do not touch or walk through spilled material. Keep people away from and upwind of spill/leak. Avoid generation of dust. Evacuate personnel to safe areas. Wash thoroughly after handling. Use personal protective equipment as required. Avoid breathing dust or spray mist.	
Other information	Ventilate the area.	
For emergency responders	Shut off ignition sources. Clear area of all unprotected personnel. Use personal protection recommended in Section 8.	
Environmental precautions		
Environmental precautions	Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. See Section 12 for additional Ecological Information.	
Methods and material for containment and cleaning up		
Methods for containment	Stop leak if you can do it without risk. Remove ignition sources. Provide adequate ventilation. Keep out of drains, sewers, ditches and waterways.	
Methods for cleaning up	Pick up and transfer to properly labeled containers. Avoid generation of dust. Where possible allow molten material to solidify naturally. Slippery when spilt. Avoid accidents, clean up immediately. Cover with damp absorbent (inert material, sand or soil).	

# Section 7: Handling and storage

# Precautions for safe handlingAdvice on safe handlingAdvice on safe handlingAvoid contact with skin, eyes or clothing. Avoid generation of dust. Keep away from open<br/>flames, hot surfaces and sources of ignition. Take precautionary measures against static<br/>discharges. Take off contaminated clothing and wash before reuse. Wash thoroughly after<br/>handling. Use personal protection equipment. Use according to package label instructions.<br/>Handle in accordance with good industrial hygiene and safety practice. Avoid breathing dust<br/>or spray mist.General hygiene considerationsContaminated work clothing should not be allowed out of the workplace. Regular cleaning of<br/>equipment, work area and clothing is recommended. Wash hands and face before breaks<br/>and immediately after handling the product. Avoid contact with skin, eyes or clothing. Wear<br/>suitable gloves and eye/face protection.

Conditions for safe storage, including any incompatibilities

	Keep containers tightly closed in a cool, well-ventilated place. Keep container closed when not in use. Protect from direct sunlight. Store away from sources of heat or ignition. Store away from incompatible materials described in Section 10.
Incompatible materials	None known based on information supplied.

# Section 8: Exposure controls and personal protection

## Control parameters

**Exposure Limits** 

No value assigned for this specific material by Safe Work Australia. However, Workplace Exposure Standard(s) for particulates:

Dusts not otherwise classified: 8hr TWA = 10 mg/m<sup>3</sup>

As published by Safe Work Australia Workplace Exposure Standards for Airborne Contaminants.

TWA - The time-weighted average airborne concentration of a particular substance when calculated over an eight-hour working day, for a five-day working week.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

#### Appropriate engineering controls

Engineering controls

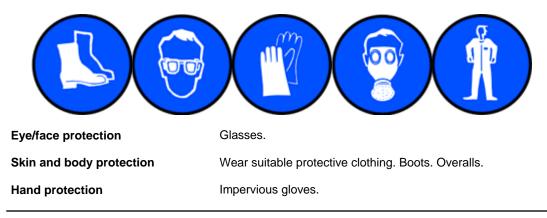

Ensure adequate ventilation, especially in confined areas. Apply technical measures to comply with the occupational exposure limits.

If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

## Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVES, DUST MASK.

Respiratory protection	If determined by a risk assessment an inhalation risk exists, wear a dust mask/respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716.
Environmental exposure controls	No information available.
Thermal hazards	No information available.

# Section 9: Physical and chemical properties

# Information on basic physical and chemical properties

Physical state Appearance Color Odor Odor threshold	Solid Flakes / Pastilles / Pellets White Characteristic No information available	
Property	Values	Remarks • Method
pH	No data available	None known
pH (as aqueous solution)	No data available	None known
Melting point / freezing point	50 °C	None known
Boiling point / boiling range	>= 248.9 °C	None known
Flash point	>= 154.44 °C	None known
Evaporation rate	No data available	None known
Flammability (solid, gas)	No data available	None known
Flammability Limit in Air		None known
Upper flammability or explosive limits	No data available	
Lower flammability or explosive limits	No data available	
Vapor pressure	<1 mmHg	@ 22 °C

No data available

No data available Insoluble in water.

No data available

0.800 - 0.815

@ 22 °C None known @ 20 °C None known None known None known None known None known None known

Dynamic viscosity Other information

Vapor density

**Relative density** 

Water solubility

Partition coefficient

Kinematic viscosity

Autoignition temperature

Decomposition temperature

Solubility(ies)

# Section 10: Stability and reactivity

#### **Reactivity**

Reactivity

No information available.

Chemical stability

Stability

Stable under normal conditions.

Explosion data Sensitivity to me

Sensitivity to mechanical impact None. Sensitivity to static discharge None.

Possibility of hazardous reactions

Possibility of hazardous reactions None under normal processing.

 Conditions to avoid
 Avoid exposure to heat, sources of ignition, and open flame. Dust formation. Direct sunlight.

 Incompatible materials
 None known based on information supplied.

Hazardous decomposition products

Hazardous decomposition products Oxides of carbon.

# Section 11: Toxicological information

Information on likely routes of exposure

Product Information	No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are:
Inhalation	May cause irritation. Inhalation of vapours/mists from the heated material may cause respiratory irritation.
Eye contact	May cause irritation. Contact with the hot material can result in pain, thermal burns, and permanent injury.
Skin contact	May cause irritation. Contact with hot material may cause skin burns.
Ingestion	May cause gastrointestinal discomfort if consumed in large amounts. Contact with hot material can cause thermal burns.
Symptoms	No information available.

```
Acute toxicity .
```

Numerical measures of toxicity - Product Information

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
Alcohols, C16-18	> 10000 mg/kg (Rat)	> 10000 mg/kg (Rabbit)	> 21 mg/L (Rat)1 h
See section 16 for terms and abbreviations			

See section 16 for terms and abbreviations

# Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritation	No information available.
Serious eye damage/eye irritation	No information available.
Respiratory or skin sensitization	No information available.
Germ cell mutagenicity	No information available.

Carcinogenicity	No information available.
Reproductive toxicity	No information available.
STOT - single exposure	No information available.
STOT - repeated exposure	No information available.
Aspiration hazard	No information available.

# Section 12: Ecological information

# **Ecotoxicity**

Aquatic ecotoxicity

Avoid contaminating waterways.

Chemical name	Algae/aquatic plants	Fish	Toxicity to	Crustacea
			microorganisms	
Alcohols, C16-18	-	-	-	EC50: =1666mg/L (48h,
				Daphnia magna)

Terrestrial ecotoxicity	There is no data for this product.	
Persistence and degradability Persistence and degradability	Readily biodegradable.	
Bioaccumulative potential		
Bioaccumulation	This chemical shows a low bioac	cumulation potential.
Chemica	al name	Partition coefficient
Alcohols	C16-18	6.65
<u>Mobility</u>		
<u>Mobility</u> Mobility	No information available.	
	No information available.	
Mobility	No information available. No information available.	
Mobility Other adverse effects	No information available.	
Mobility <u>Other adverse effects</u> Other adverse effects	No information available.	

#### products

accordance with environmental legislation.

# **Contaminated packaging** Empty containers pose a potential fire and explosion hazard. Do not cut, puncture or weld containers. Dispose of in accordance with federal, state and local regulations.

See section 8 for more information

Section 14: Transport information	
ADG	Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.
IATA	Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS.
IMDG	Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code No information available

# Section 15: Regulatory information

# Safety, health and environmental regulations/legislation specific for the substance or mixture

## National regulations

#### Australia

Not classified as a hazardous substance in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.

See section 8 for national exposure control parameters

#### Standard for Uniform Scheduling of Medicines and Poisons (SUSMP)

#### No poisons schedule number allocated

Poison Schedule Number Not applicable

## Australian Industrial Chemicals Introduction Scheme (AICIS)

	Australian Industrial Chemicals Introduction Scheme (AICIS)	Additional information
Alcohols, C16-18 - 67762-27-0	Present	-

# Illicit Drug Precursors/Reagents

This product does not contain any substance(s) on the Illicit Drug Precursors/Reagents list.

International Inventories	
AIIC	This material is listed on the Australian Inventory of Industrial Chemicals.
NZIoC	Contact supplier for inventory compliance status.
TSCA	Contact supplier for inventory compliance status.
DSL/NDSL	Contact supplier for inventory compliance status.
EINECS/ELINCS	Contact supplier for inventory compliance status.
ENCS	Contact supplier for inventory compliance status.
IECSC	Contact supplier for inventory compliance status.
KECL	Contact supplier for inventory compliance status.
PICCS	Contact supplier for inventory compliance status.

# **Disclaimer**

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Ixom Operations Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their Bronson & Jacobs representative or Ixom Operations Pty Ltd at the contact details on page 1.

Ixom Operations Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.

Bronson and Jacobs incorporating the businesses of Woods and Woods and Keith Harris and Australian Botanical Products.

#### End of Safety Data Sheet
