| Please ensure you refer to the limitations of this Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.                               |                                             |  |

# Section 2: Hazard identification

Not classified as a hazardous substance in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.

### **GHS Classification**

Label elements

Signal word None

### Other hazards which do not result in classification No information available.

# Section 3: Composition and information on ingredients

| Chemical name                                      | CAS No. | Weight-% |
|----------------------------------------------------|---------|----------|
| Flavour ingredients determined not to be hazardous | -       | 100      |

# Section 4: First aid measures

### Description of first aid measures

| General advice                                                             | For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor.                 |  |
|----------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|--|
| Inhalation                                                                 | Remove to fresh air. If symptoms persist, call a physician.                                                                             |  |
| Eye contact                                                                | Rinse thoroughly with plenty of water, also under the eyelids. Keep eye wide open while rinsing. If symptoms persist, call a physician. |  |
| Skin contact                                                               | Wash skin with soap and water. Get medical attention if irritation develops and persists.                                               |  |
| Ingestion                                                                  | Clean mouth with water and drink afterwards plenty of water. Do NOT induce vomiting. Get medical attention if symptoms occur.           |  |
| Most important symptoms and effects, both acute and delayed                |                                                                                                                                         |  |
| Symptoms                                                                   | No information available.                                                                                                               |  |
| Effects of Exposure                                                        | No information available.                                                                                                               |  |
| Indication of any immediate medical attention and special treatment needed |                                                                                                                                         |  |
| Note to physicians                                                         | Treat symptomatically.                                                                                                                  |  |
| Section 5: Firefighting mea                                                | asures                                                                                                                                  |  |
| Suitable Extinguishing Media                                               |                                                                                                                                         |  |
| Suitable extinguishing media                                               | Dry chemical, CO2, water spray or regular foam.                                                                                         |  |
| Unsuitable extinguishing media                                             | High volume water jet.                                                                                                                  |  |
| Specific hazards arising from the chemical                                 |                                                                                                                                         |  |
| Specific hazards arising from the chemical                                 | Non-combustible. Decomposes on heating emitting toxic fumes.                                                                            |  |
| Hazardous combustion products                                              | Oxides of carbon. Oxides of nitrogen. Oxides of sulfur. Oxides of sodium.                                                               |  |
| Special protective actions for fire-fighters                               |                                                                                                                                         |  |

| Special  | protective equipment and |  |
|----------|--------------------------|--|
| precauti | ons for fire-fighters    |  |

Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.

# Section 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

| Personal precautions                                 | Avoid contact with skin and eyes. Avoid breathing dust or spray mist. Avoid generation of dust. Ensure adequate ventilation. Evacuate personnel to safe areas. Wash thoroughly after handling.                                                      |  |
|------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| For emergency responders                             | Clear area of all unprotected personnel. Use personal protection recommended in Section 8.                                                                                                                                                          |  |
| Environmental precautions                            |                                                                                                                                                                                                                                                     |  |
| Environmental precautions                            | See Section 12 for additional Ecological Information.                                                                                                                                                                                               |  |
| Methods and material for containment and cleaning up |                                                                                                                                                                                                                                                     |  |
| Methods for containment                              | Prevent further leakage or spillage if safe to do so.                                                                                                                                                                                               |  |
| Methods for cleaning up                              | Cover with damp absorbent (inert material, sand or soil). Vacuum or sweep material and place in a disposal container. Avoid generation of dust. Use personal protective equipment as required. Pick up and transfer to properly labeled containers. |  |

# Section 7: Handling and storage

| Precautions for safe handling                                |                                                                                                                                                                                                                                                                 |  |
|--------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Advice on safe handling                                      | Avoid contact with skin, eyes or clothing. Avoid breathing dust or spray mist. Avoid generation of dust. Use personal protection equipment. Use according to package label instructions. Handle in accordance with good industrial hygiene and safety practice. |  |
| General hygiene considerations                               | Regular cleaning of equipment, work area and clothing is recommended. Wash hands and face before breaks and immediately after handling the product. Wear suitable gloves and eye/face protection.                                                               |  |
| Conditions for safe storage, including any incompatibilities |                                                                                                                                                                                                                                                                 |  |
| Storage Conditions                                           | Keep containers tightly closed in a cool, well-ventilated place. Protect from sunlight. Store away from incompatible materials described in Section 10. Keep container closed when not in use.                                                                  |  |
| Incompatible materials                                       | Oxidizing agent.                                                                                                                                                                                                                                                |  |

# Section 8: Exposure controls and personal protection

### Control parameters

Exposure Limits

No value assigned for this specific material by Safe Work Australia. However, Workplace Exposure Standard(s) for particulates:

**Revision Number** 4

Dusts not otherwise classified: 8hr TWA = 10 mg/m<sup>3</sup>

As published by Safe Work Australia Workplace Exposure Standards for Airborne Contaminants.

TWA - The time-weighted average airborne concentration of a particular substance when calculated over an eight-hour working day, for a five-day working week.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

### Appropriate engineering controls

**Engineering controls** Ensure adequate ventilation, especially in confined areas. Apply technical measures to comply with the occupational exposure limits.

If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

### Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

### OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVES, DUST MASK.

| Eye/face protection             | Glasses.                                                                                                                                           |  |
|---------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Skin and body protection        | Wear suitable protective clothing. Boots. Overalls.                                                                                                |  |
| Hand protection                 | Impervious gloves.                                                                                                                                 |  |
| Respiratory protection          | If determined by a risk assessment an inhalation risk exists, wear a dust mask/respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716. |  |
| Environmental exposure controls | No information available.                                                                                                                          |  |
| Thermal hazards                 | No information available.                                                                                                                          |  |

## Section 9: Physical and chemical properties

### Information on basic physical and chemical properties

| Physical state | Solid                     |
|----------------|---------------------------|
| Appearance     | Fine, Free-flowing Powder |
| Color          | Red - Brown               |
| Odor           | Not specified             |
| Odor threshold | No information available  |

Revision Number 4

| Property_                       | Values            | Remarks • Method |
|---------------------------------|-------------------|------------------|
| pH                              | No data available | None known       |
| pH (as aqueous solution)        | No data available | None known       |
| Melting point / freezing point  | No data available | None known       |
| Boiling point / boiling range   | No data available | None known       |
| Flash point                     | Not Applicable    | None known       |
| Evaporation rate                | No data available | None known       |
| Flammability (solid, gas)       | No data available | None known       |
| Flammability Limit in Air       |                   | None known       |
| Upper flammability or explosive | No data available |                  |
| limits                          |                   |                  |
| Lower flammability or explosive | No data available |                  |
| limits                          |                   |                  |
| Vapor pressure                  | Not Applicable    | None known       |
| Vapor density                   | Not Applicable    | None known       |
| Relative density                | No data available | None known       |
| Water solubility                | No data available | None known       |
| Solubility(ies)                 | Soluble in water  | None known       |
| Partition coefficient           | No data available | None known       |
| Autoignition temperature        | Not Applicable    | None known       |
| Decomposition temperature       | No data available | None known       |
| Kinematic viscosity             | No data available | None known       |
| Dynamic viscosity               | No data available | None known       |
|                                 |                   |                  |

# Section 11: Toxicological information

### Information on likely routes of exposure

| Product Information | No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are: |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inhalation          | May cause irritation.                                                                                                                                                                                                         |
| Eye contact         | May cause irritation. Dust contact with the eyes can lead to mechanical irritation.                                                                                                                                           |
| Skin contact        | May cause irritation.                                                                                                                                                                                                         |
| Ingestion           | May cause gastrointestinal discomfort if consumed in large amounts.                                                                                                                                                           |
| Symptoms            | No information available.                                                                                                                                                                                                     |
| Acute toxicity      |                                                                                                                                                                                                                               |

Acute toxicity .

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code No information available

# Section 15: Regulatory information

### Safety, health and environmental regulations/legislation specific for the substance or mixture

### National regulations

### Australia

Not classified as a hazardous substance in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.

See section 8 for national exposure control parameters

### Standard for Uniform Scheduling of Medicines and Poisons (SUSMP)

### No poisons schedule number allocated

Poison Schedule Number Not applicable

### Australian Industrial Chemicals Introduction Scheme (AICIS)
