----------------------------------	--

### Methods and material for containment and cleaning up

<b>Methods for containment</b>	Stop leak if you can do it without risk. Remove ignition sources. Provide adequate ventilation. Do not touch or walk through spilled material. Dike far ahead of spill to collect runoff water. Keep out of drains, sewers, ditches and waterways. Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal.
<b>Methods for cleaning up</b>	Slippery when spilt. Avoid accidents, clean up immediately. Dam up. Take precautionary measures against static discharges. Use non-sparking tools. Soak up with inert absorbent material. Pick up and transfer to properly labelled containers.
