SAFETY DATA SHEET

Revision date: 20-Jul-2021

Revision Number 1

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

| Product identifier | | |
|---|-------------------------------------|--|
| Product Name | CALCIUM HYDROXIDE - MOLE CREEK TAS | |
| Product Code(s) | 00000054084 | |
| Other means of identification | | |
| Synonyms | Limil Hydrated Lime Mole Creek TAS. | |
| Recommended use of the chemical and restrictions on use | | |
| Recommended use | Water treatment chemical. | |
| Uses advised against | No information available. | |

Supplier Ixom Operations Pty Ltd ABN: 51 600 546 512 Level 8. 1 Nicholson Street Melbourne 3000 Australia

Telephone Number: +61 3 9906 3000

Emergency telephone number

Emergency telephone number

1 800 033 111 (ALL HOURS)

Please ensure you refer to the limitations of this Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.

2. HAZARDS IDENTIFICATION

GHS Classification

Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)

Classified as a hazardous chemical in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

| Skin corrosion/irritation | Category 2 |
|--|-------------|
| Serious eye damage/eye irritation | Category 1 |
| Carcinogenicity | Category 1A |
| Specific target organ toxicity (single exposure) | Category 3 |
| Specific target organ toxicity (repeated exposure) | Category 2 |

SIGNAL WORD Danger

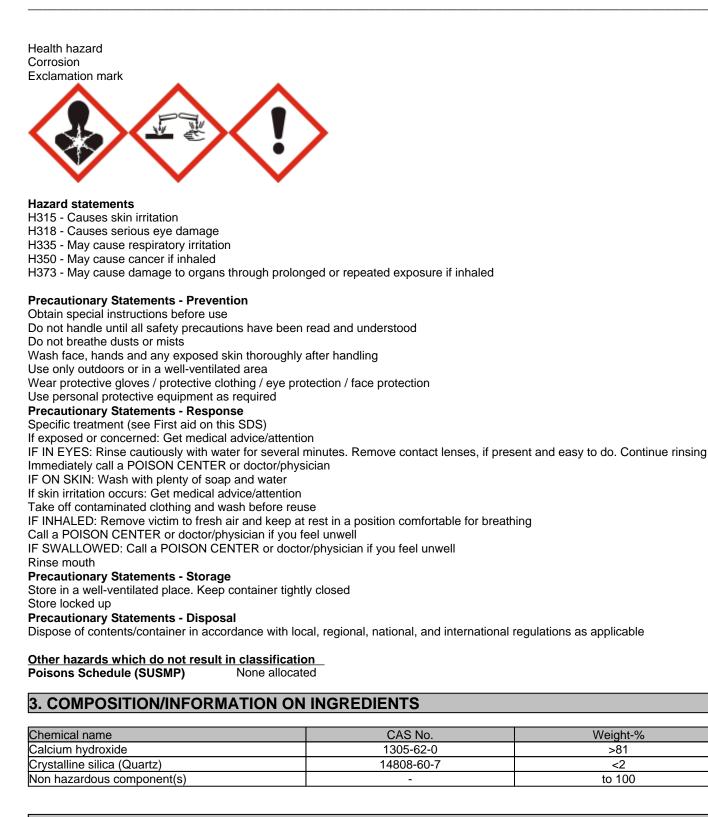

Label elements

Weight-%

>81

<2

to 100

4. FIRST AID MEASURES

Description of first aid measures

| General advice | Show this safety data sheet to the doctor in attendance. | |
|--|---|--|
| Emergency telephone number | Poisons Information Center, Australia: 13 11 26 Poisons Information Center, New Zealand: 0800 764 766 | |
| Inhalation | Remove to fresh air. If breathing is difficult, (trained personnel should) give oxygen. If not breathing, give artificial respiration. Get medical attention immediately if symptoms occur. | |
| Eye contact | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. Remove contact lenses, if present and easy to do. Continue rinsing. Do not rub affected area. Immediate medical attention is required. | |
| Skin contact | Wash off immediately with soap and plenty of water for at least 15 minutes. Get medical attention if irritation develops and persists. | |
| Ingestion | Clean mouth with water and drink afterwards plenty of water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get immediate medical advice/attention. | |
| Self-protection of the first aider | Avoid contact with skin, eyes, and clothing. Wear personal protective clothing (see section 8). | |
| Most important symptoms and effects, both acute and delayed | | |
| Symptoms | Irritation/Corrosion. May cause redness and tearing of the eyes. | |
| Indication of any immediate medical attention and special treatment needed | | |
| Note to physicians | Treat symptomatically. Can cause corneal burns. | |
| | | |
| 5. FIRE FIGHTING MEASURES | | |
| Suitable Extinguishing Media | | |

| 5. FIRE FIGHTING MEASURES | | |
|---|--|--|
| Suitable Extinguishing Media | | |
| Suitable Extinguishing Media | Use extinguishing agent suitable for type of surrounding fire. | |
| Unsuitable extinguishing media | No information available. | |
| Specific hazards arising from the chemical | | |
| Specific hazards arising from the chemical | Non-combustible. | |
| Special protective actions for fire-fighters | | |
| Special protective equipment for fire-fighters | Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment. | |

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

| Personal precautions | Avoid contact with skin, eyes, and clothing. Do not breathe dust. Ensure adequate ventilation. Use personal protective equipment as required. |
|--------------------------|---|
| Other information | Refer to protective measures listed in Sections 7 and 8. |
| For emergency responders | Use personal protection recommended in Section 8. |

| Environmental precautions | |
|--|--|
| Environmental precautions | Prevent further leakage or spillage if safe to do so. |
| Methods and material for containment and cleaning up | |
| Methods for containment | Prevent further leakage or spillage if safe to do so. |
| Methods for cleaning up | Use appropriate personal protective equipment (PPE). Carefully shovel or sweep up spilled material and place in suitable container. Avoid generating dust. After cleaning, flush away traces with water and detergent. |
| | |

7. HANDLING AND STORAGE

Precautions for safe handling

| Advice on safe handling | Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes, and clothing. Do not eat, drink or smoke when using this product. Take off contaminated clothing and wash before reuse. Wash thoroughly after handling. | |
|--|---|--|
| General hygiene considerations | Wear suitable gloves and eye/face protection. Avoid contact with skin, eyes, and clothing. Do not breathe dust. Do not eat, drink or smoke when using this product. Wash hands before breaks and immediately after handling the product. | |
| Conditions for safe storage, including any incompatibilities | | |
| | | |
| Storage Conditions | Keep containers tightly closed in a dry, cool and well-ventilated place. Protect from direct sunlight. Protect from moisture. Store away from foodstuffs. Keep container closed when not in use. | |
| Storage Conditions | sunlight. Protect from moisture. Store away from foodstuffs. Keep container closed when | |

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure Limits

No value assigned for this specific material by Safe Work Australia. However, Workplace Exposure Standard(s) for constituent(s):

Calcium hydroxide: 8hr TWA = 5 mg/m³ Silica Crystalline - Quartz (respirable dust): 8hr TWA = 0.05 mg/m³, Carcinogen Category 1A

As published by Safe Work Australia Workplace Exposure Standards for Airborne Contaminants.

TWA - The time-weighted average airborne concentration of a particular substance when calculated over an eight-hour working day, for a five-day working week.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

Appropriate engineering controls

Engineering controls

Eyewash stations. Apply technical measures to comply with the occupational exposure limits.

If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, CHEMICAL GOGGLES, GLOVES, DUST MASK.

| Eye/face protection | Tight sealing safety goggles. |
|---------------------------------|--|
| Skin and body protection | Wear suitable protective clothing. Chemical resistant apron. Boots. Overalls. |
| Hand protection | Impervious gloves. |
| Respiratory protection | If determined by a risk assessment an inhalation risk exists, wear a dust mask/respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716. |
| Environmental exposure controls | No information available. |

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

| Physical state | Solid | |
|--|---------------------------|------------------|
| Appearance | Powder | |
| Color | Off-white | |
| Odor | Odourless | |
| Odor threshold | No information available. | |
| Property | Values | Remarks • Method |
| рН | 12.0 (aqueous slurry) | None known |
| pH (as aqueous solution) | No data available | None known |
| Melting point / freezing point | 580°C (decomposes) | None known |
| Boiling point / boiling range | No data available | None known |
| Flash point | No data available | None known |
| Evaporation rate | No data available | None known |
| Flammability (solid, gas) | No data available | None known |
| Flammability Limit in Air | | None known |
| Upper flammability or explosive limits | No data available | |
| Lower flammability or explosive limits | No data available | |
| Vapor pressure | No data available | None known |

| Vapor density Relative density | No data available 2.30-2.40 | None known |
|-----------------------------------|--------------------------------|------------|
| Water solubility | Sparingly soluble 1.6-1.8 g/L | None known |
| Solubility(ies) | No data available | None known |
| Partition coefficient | No data available | None known |
| Autoignition temperature | No data available | None known |
| Decomposition temperature | 580°C | None known |
| Kinematic viscosity | No data available | None known |
| Dynamic viscosity | No data available | |
| | | |

Other information

10. STABILITY AND REACTIVITY

| Reactivity | |
|---|--|
| Reactivity | Reacts with strong acids. |
| Chemical stability | |
| Stability | Stable under normal conditions. |
| Explosion data Sensitivity to mechanical impac | t None. |
| Sensitivity to static discharge | None. |
| Possibility of hazardous reactions | |
| Possibility of hazardous reactions | Absorbs carbon dioxide on exposure to air. Attacks aluminium, lead, brass in the presence of moisture. |
| Hazardous polymerization | Hazardous polymerization does not occur. |
| Conditions to avoid | |
| Conditions to avoid | Extremes of temperature and direct sunlight. Dust formation. Moisture. Exposure to air. |
| Incompatible materials | |
| Incompatible materials | Acids. Nitrogen containing compounds. Maleic anhydride. Phosphorus. |
| Hazardous decomposition products | |
| Hazardous decomposition products Calcium oxide. | |

11. TOXICOLOGICAL INFORMATION

Acute toxicity

Information on likely routes of exposure

| Product Information | No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are: |
|---------------------|---|
| Inhalation | Irritating to respiratory system. |
| Eye contact | Causes serious eye damage. |

| Skin contact | Causes skin irritation. Repeated exposure may cause skin dryness or cracking. |
|--------------|--|
| Ingestion | Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhoea. |
| Symptoms | Irritation/Corrosion. May cause redness and tearing of the eyes. |

<u>Numerical measures of toxicity</u> - Product Information No information available.

Numerical measures of toxicity - Component Information

| Chemical name | Oral LD50 | Dermal LD50 | Inhalation LC50 |
|-------------------|--------------------|-------------|-----------------|
| Calcium hydroxide | = 7340 mg/kg (Rat) | - | - |

See section 16 for terms and abbreviations

Delayed and immediate effects as well as chronic effects from short and long-term exposure

| Skin corrosion/irritation | Irritating to skin. |
|-----------------------------------|----------------------------|
| Serious eye damage/eye irritation | Causes serious eye damage. |
| Respiratory or skin sensitization | No information available. |
| Germ cell mutagenicity | No information available. |
| Carcinogenicity | May cause cancer. |

| Chemical name | Australia |
|--|-----------|
| Crystalline silica (Quartz) - 14808-60-7 | Carc. 1A |

| Reproductive toxicity | No information available. | |
|--------------------------|--|--|
| STOT - single exposure | May cause respiratory irritation. | |
| STOT - repeated exposure | H373 - May cause damage to organs through prolonged or repeated exposure if inhaled. | |
| Aspiration hazard | No information available. | |
| Chronic effects: | The toxicity of crystalline silica is directly proportional to the ability of any particle to reach the lower respiratory tract. Quartz particles with an aerodynamic diameter below 10um are likely to be most harmful to humans, as they reach the lower respiratory tract and are less readily removed by the lungs. | |
| | Increases in lung cancer have been attributed to the inhalation of crystalline silica in a number of industries, including; ore mining, quarrying and granite works, ceramics, pottery, refractory brick and diatomaceous earth industries and in foundry workers. | |
| | The International Agency for Research on Cancer has classified crystalline silica as a Type 1 Carcinogen - Carcinogenic to Humans, based on sufficient evidence in humans and animals. | |
| | Increasing in vitro and in vivo evidence suggests that lung carcinomas in rats are a result of marked and persistent inflammation and epithelial proliferation. | |
| | Crystalline silica also causes a range of non-neoplastic pulmonary effects, including; inflammation, silicosis, lymph node fibrosis, airways disease, emphysema and increased permeability of the airspace epithelium. | |

12. ECOLOGICAL INFORMATION

Ecotoxicity

Ecotoxicity

Keep out of waterways.

| Chemical name | Algae/aquatic plants | Fish | Toxicity to | Crustacea |
|-------------------|----------------------|----------------------|----------------|-----------|
| | | | microorganisms | |
| Calcium hydroxide | - | LC50: =160mg/L (96h, | - | - |
| | | Gambusia affinis) | | |

Persistence and degradability

| Persistence and degradability | No information available. |
|-------------------------------|---------------------------|
| | |

| Bioaccumulation No information available | Bioaccumulation | No information available |
|---|-----------------|--------------------------|
|---|-----------------|--------------------------|

Mobility

Mobility in soil

No information available.

Other adverse effects

13. DISPOSAL CONSIDERATIONS

Waste treatment methods

| Waste from residues/unused | Dispose of in accordance with local regulations. Dispose of waste in accordance with |
|----------------------------|--|
| products | environmental legislation. |

14. TRANSPORT INFORMATION

<u>ADG</u>

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.

<u>IATA</u>

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS.

IMDG

Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS.

15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations

<u>Australia</u>

Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)

Classified as a hazardous chemical in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

See section 8 for national exposure control parameters

Poisons Schedule (SUSMP) None allocated

| International | Inventories |
|---------------|-------------|
| AICS | |

All the constituents of this material are listed on the Australian Inventory of Industrial Chemicals or are exempt.

Legend:

- Australian Inventory of Industrial Chemicals

International Regulations

The Montreal Protocol on Substances that Deplete the Ozone Layer Not applicable

The Stockholm Convention on Persistent Organic Pollutants Not applicable

The Rotterdam Convention Not applicable

16. OTHER INFORMATION

Supplier Safety Data Sheet 11/2019

Reason(s) For Issue: First Issue Primary SDS

Issuing Date: 20-Jul-2021

This Safety Data Sheet has been prepared by Ixom Operations Pty Ltd (Toxicology and SDS Services).

Revision Note:

The symbol (*) in the margin of this SDS indicates that this line has been revised.

Key or legend to abbreviations and acronyms used in the safety data sheet

| Legend Section | <u>on 8: EXPOSURE CONTROLS/PERSONAL</u> | <u>_ PROTECTION</u> | |
|----------------|---|---------------------|----------------------------------|
| TWA | TWA (time-weighted average) | STEL | STEL (Short Term Exposure Limit) |
| Ceiling | Maximum limit value | * | Skin designation |
| C | Carcinogen | | - |

Key literature references and sources for data used to compile the SDS

Disclaimer

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Ixom Operations Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their Ixom representative or Ixom Operations Pty Ltd at the contact details on page 1.

Ixom Operations Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.
