SAFETY DATA SHEET

Revision date: 21-Nov-2022

Revision Number 1

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product identifier	
Product Name	DC DIRASLIP-S
Product Code(s)	00000054420
Other means of identification	
UN number	1814
Recommended use of the chemical	and restrictions on use
Recommended use	Soap-based chain lubricant for soft water.
Uses advised against	No information available.

Supplier Ixom Operations Pty Ltd ABN: 51 600 546 512 Level 8, 1 Nicholson Street Melbourne 3000 Australia

Telephone Number: +61 3 9906 3000

Emergency telephone number

Emergency telephone number

1 800 033 111 (ALL HOURS)

Please ensure you refer to the limitations of this Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.

2. HAZARDS IDENTIFICATION

GHS Classification

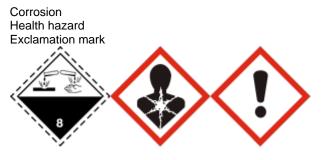

Classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG).

Classified as a hazardous chemical in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

Skin corrosion/irritation	Category 1 Sub-category B
Serious eye damage/eye irritation	Category 1
Skin sensitization	Category 1
Carcinogenicity	Category 1B

SIGNAL WORD Danger

Label elements

Hazard statements

H314 - Causes severe skin burns and eye damage

H317 - May cause an allergic skin reaction

H350i - May cause cancer by inhalation

Precautionary Statements - Prevention

Obtain special instructions before use Do not handle until all safety precautions have been read and understood Do not breathe fume, gas, mist, vapours, spray Wash face, hands and any exposed skin thoroughly after handling Contaminated work clothing should not be allowed out of the workplace Wear protective gloves / protective clothing / eye protection / face protection Use personal protective equipment as required **Precautionary Statements - Response** If exposed or concerned: Get medical advice/attention Specific treatment (see First aid on this SDS) IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing Immediately call a POISON CENTER or doctor/physician IF ON SKIN: Wash with plenty of soap and water IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower If skin irritation or rash occurs: Get medical advice/attention Wash contaminated clothing before reuse IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing Call a POISON CENTER or doctor/physician if you feel unwell IF SWALLOWED: Rinse mouth. DO NOT induce vomiting IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell **Precautionary Statements - Storage** Store locked up **Precautionary Statements - Disposal** Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

Other hazards which do not result in classification Poisons Schedule (SUSMP) 6

3. COMPOSITION/INFORMATION ON INGREDIENTS

<u>Mixture</u>

Chemical nature

Contains ethanol.

Chemical name	CAS No.	Weight-%
EDTA tetrasodium salt	64-02-8	1-<10
Potassium hydroxide	1310-58-3	1-<10
Formaldehyde	50-00-0	<1
Non hazardous component(s)	-	to 100

4. FIRST AID MEASURES

Description of first aid measures

Description of first aid measures	
General advice	For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor.
Inhalation	Remove to fresh air. Call a physician if symptoms occur.
Eye contact	Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Consult a physician.
Skin contact	Wash skin with soap and water. IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Immediately call a POISON CENTER or doctor/physician.
Ingestion	Rinse mouth thoroughly with water. Do NOT induce vomiting. Drink 1 or 2 glasses of water. Get immediate medical advice/attention.
Most important symptoms and effe	ects, both acute and delayed
Symptoms	Irritation/Corrosion. May cause redness and tearing of the eyes. Erythema (skin redness). Burning. May cause allergic skin reaction.
Indication of any immediate medic	al attention and special treatment needed
Note to physicians	Treat symptomatically. Can cause corneal burns.
5. FIRE FIGHTING MEASU	RES
Suitable Extinguishing Media	
Suitable Extinguishing Media	Dry chemical, CO2, water spray or regular foam.
Unsuitable extinguishing media	No information available.
Unsuitable extinguishing media Specific hazards arising from the c	
Specific hazards arising from the constraints of the second secon	hemical Corrosive hazard. Wear protective gloves/clothing and eye/face protection. Non-combustible.
Specific hazards arising from the c Specific hazards arising from the chemical	hemical Corrosive hazard. Wear protective gloves/clothing and eye/face protection. Non-combustible.
Specific hazards arising from the c Specific hazards arising from the chemical Special protective actions for fire-f Special protective equipment for	 <u>hemical</u> Corrosive hazard. Wear protective gloves/clothing and eye/face protection. Non-combustible. <u>ighters</u> Firefighters should wear self-contained breathing apparatus and full firefighting turnout
Specific hazards arising from the constraints of the second secon	hemical Corrosive hazard. Wear protective gloves/clothing and eye/face protection. Non-combustible. ighters Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment. 2R
Specific hazards arising from the constraints of the second secon	hemical Corrosive hazard. Wear protective gloves/clothing and eye/face protection. Non-combustible. ighters Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment. 2R

For emergency responders Use personal protection recommended in Section 8.

Environmental precautions	
Environmental precautions	Local authorities should be advised if significant spillages cannot be contained.
Methods and material for containme	nt and cleaning up
Methods for containment	Prevent further leakage or spillage if safe to do so.
Methods for cleaning up	Soak up with inert absorbent material. Pick up and transfer to properly labelled containers. After cleaning, flush away traces with water.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling	Avoid contact with skin and eyes. Do not breathe vapor or mist. Use personal protection equipment. Wash thoroughly after handling.
Conditions for safe storage, includ	ng any incompatibilities
Storage Conditions	Keep containers tightly closed in a dry, cool and well-ventilated place. Store away from foodstuffs. Do not store in aluminium or galvanised containers nor use die-cast zinc or aluminium bungs; steel bungs should be used. Keep container closed when not in use. This material is a Scheduled Poison and must be stored, maintained and used in accordance with the relevant regulations.
Incompatible materials	Acids. Ammonium salts. Metals.
Poisons Schedule (SUSMP)	6

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure Limits No value assigned for this specific material by Safe Work Australia. However, Workplace Exposure Standard(s) for constituent(s):

Ethyl alcohol (Ethanol): 8hr TWA = 1880 mg/m³ (1000 ppm) Formaldehyde: 8hr TWA = 1.2 mg/m³ (1 ppm), 15 min STEL = 2.5 mg/m³ (2 ppm), Carcinogen Category 2, Sen Potassium hydroxide: Peak Limitation = 2 mg/m³

As published by Safe Work Australia Workplace Exposure Standards for Airborne Contaminants.

TWA - The time-weighted average airborne concentration of a particular substance when calculated over an eight-hour working day, for a five-day working week.

STEL (Short Term Exposure Limit) - the airborne concentration of a particular substance calculated as a time-weighted average over 15 minutes, which should not be exceeded at any time during a normal eight hour work day. According to current knowledge this concentration should neither impair the health of, nor cause undue discomfort to, nearly all workers.

Carcinogen Category 2 - substances suspected of having carcinogenic potential. The available information is not adequate for making a satisfactory assessment.

Sen' Notice - sensitiser. The substance can cause a specific immune response in some people. An affected individual may subsequently react to exposure to minute levels of that substance and should not be further exposed to the substance.

Peak Limitation - a maximum or peak airborne concentration of a particular substance determined over the shortest analytically practicable period of time which does not exceed 15 minutes.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

Appropriate engineering controls

Engineering controls Ensure that eyewash stations and safety showers are close to the workstation location. Apply technical measures to comply with the occupational exposure limits.

If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, CHEMICAL GOGGLES, FACE SHIELD, GLOVES (Long), APRON, RUBBER BOOTS.

Environmental exposure controls No information available.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Physical state	
Appearance	
Color	
Odor	
Odor threshold	

Liquid Clear Pale Yellow No information available. No information available.

<u>Property</u> pH pH (as aqueous solution) <u>Values</u> 10-12.5 (1%) No data available Remarks • Method None known None known

Melting point / freezing point Boiling point / boiling range Flash point Evaporation rate Flammability (solid, gas) Flammability Limit in Air	No data available No data available Not applicable No data available No data available	None known None known None known None known None known None known
Upper flammability or explosive	Not applicable	
limits		
Lower flammability or explosive	Not applicable	
limits		
Vapor pressure	No data available	None known
Vapor density	No data available	None known
Relative density	1.031	None known
Water solubility	Miscible in water	None known
Solubility(ies)	No data available	None known
Partition coefficient	No data available	None known
Autoignition temperature	Not applicable	None known
Decomposition temperature	No data available	None known
Kinematic viscosity	No data available	None known
Dynamic viscosity	No data available	None known

Other information

10. STABILITY AND REACTIVITY

Reactivity	
Reactivity	Reacts with strong acids.
Chemical stability	
Stability	Stable under normal conditions.
Explosion data Sensitivity to mechanical impac	t None.
Sensitivity to static discharge	None.
Possibility of hazardous reactions	
Possibility of hazardous reactions	Contact with metals may evolve flammable hydrogen gas.
Conditions to avoid	
Conditions to avoid	Do not contaminate food or feed stuffs.
Incompatible materials	
Incompatible materials	Acids. Ammonium salts. Metals.
Hazardous decomposition products	<u>5</u>
Hazardous decomposition products	s None known based on information supplied.

11. TOXICOLOGICAL INFORMATION

Acute toxicity

Information on likely routes of exposure

Product Information	No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are:
Inhalation	May cause irritation.
Eye contact	Causes serious eye damage.
Skin contact	Contact causes severe skin irritation and possible burns. May cause sensitization by skin contact.
Ingestion	Can burn mouth, throat, and stomach.
Symptoms	Irritation/Corrosion. May cause redness and tearing of the eyes. Erythema (skin redness). Burning.

Numerical measures of toxicity - Product Information

Refer to component information below.

Numerical measures of toxicity - Component Information

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
EDTA tetrasodium salt	= 1658 mg/kg(Rat)	-	-
Potassium hydroxide	= 284 mg/kg (Rat)	-	-
Formaldehyde	= 100 mg/kg (Rat)	= 270 mg/kg (Rabbit)	= 0.578 mg/L (Rat)4 h

See section 16 for terms and abbreviations

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritation	Causes burns. Classification is based on mixture calculation methods based on component data.	
Serious eye damage/eye irritation	Causes serious eye damage. Classification is based on mixture calculation methods based on component data.	
Respiratory or skin sensitization	May cause an allergic skin reaction. Classification is based on mixture calculation methods based on component data.	
Germ cell mutagenicity	No information available.	
Carcinogenicity	May cause cancer by inhalation. Classification is based on mixture calculation methods based on component data.	
Chemical name		Australia
Chemical name Formaldehyde - 50-00-0		Australia Carc. 1B
	No information available.	
Formaldehyde - 50-00-0	No information available. No information available.	
Formaldehyde - 50-00-0 Reproductive toxicity		
Formaldehyde - 50-00-0 Reproductive toxicity STOT - single exposure	No information available.	

12. ECOLOGICAL INFORMATION

Ecotoxicity

Ecotoxicity

Keep out of waterways.

Chemical name	Algae/aquatic plants	Fish	Toxicity to microorganisms	Crustacea
EDTA tetrasodium salt	-	LC50: =41mg/L (96h,	-	EC50: =610mg/L (24h,
		Lepomis macrochirus)		Daphnia magna)
		LC50: =59.8mg/L (96h,		
		Pimephales promelas)		
Potassium hydroxide	-	LC50: =80mg/L (96h,	-	-
		Gambusia affinis)		
Formaldehyde	-	LC50: 22.6 - 25.7mg/L	-	LC50: =2mg/L (48h,
		(96h, Pimephales		Daphnia magna) EC50:
		promelas) LC50:		11.3 - 18mg/L (48h,
		=1510µg/L (96h, Lepomis		Daphnia magna)
		macrochirus) LC50:		
		=41mg/L (96h,		
		Brachydanio rerio) LC50:		
		0.032 - 0.226mL/L (96h,		
		Oncorhynchus mykiss)		
		LC50: 100 - 136mg/L		
		(96h, Oncorhynchus		
		mykiss) LC50: 23.2 -		
		29.7mg/L (96h,		
		Pimephales promelas)		

Persistence and degradability

Persistence and degradability

No information available.

Bioaccumulative potential

Bioaccumulation

No information available.

Component Information

Chemical name	Partition coefficient		
Potassium hydroxide	0.65		
	0.83		
Formaldehyde	0.35		

Mobility

Mobility in soil

No information available.

Other adverse effects

Other adverse effects

High concentrations may harm aquatic life by the effect on pH.

13. DISPOSAL CONSIDERATIONS

Waste treatment methods

Waste from residues/unused products Dispose of in accordance with local regulations. Dispose of waste in accordance with environmental legislation.

Empty containers should be taken to an approved waste handling site for recycling or Contaminated packaging disposal. **14. TRANSPORT INFORMATION** ADG Classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for Transport by Road and Rail: DANGEROUS GOODS. **UN number** 1814 POTASSIUM HYDROXIDE SOLUTION Proper shipping name Hazard class 8 **Packing group** Ш Hazchem code 2R ΙΑΤΑ Classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; DANGEROUS GOODS.

UN number	1814
UN proper shipping name	POTASSIUM HYDROXIDE SOLUTION
Transport hazard class(es)	8
Packing group	II

IMDG

Classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; DANGEROUS GOODS.

UN number	1814
UN proper shipping name	POTASSIUM HYDROXIDE SOLUTION
Transport hazard class(es)	8
Packing group	II
IMDG EMS Fire	F-A
IMDG EMS Spill	S-B
Marine pollutant	No

15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations

Australia

Classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG).

Classified as a hazardous chemical in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

See section 8 for national exposure control parameters

Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP)Classified as a scheduled poison according to the Standard for Uniform Scheduling of Medicines and Poisons (SUSMP)Poisons Schedule (SUSMP)6

Major hazard (accident/incident planning) regulation

Verify that license requirements are met		
Chemical name	Threshold quantity (T)	
Formaldehyde - 50-00-0	50 tonne TQ >90%	
National pollutant inventory		
Subject to reporting requirement		
Chemical name	National pollutant inventory	
Formaldehyde - 50-00-0	10 tonne/yr Threshold category 1	

International Inventories

AIIC

All the constituents of this material are listed on the Australian Inventory of Industrial Chemicals.

Legend:

AllC - Australian Inventory of Industrial Chemicals

International Regulations

The Montreal Protocol on Substances that Deplete the Ozone Layer Not applicable

The Stockholm Convention on Persistent Organic Pollutants Not applicable

The Rotterdam Convention Not applicable

16. OTHER INFORMATION

Reason(s) For Issue: First Issue Primary SDS

Issuing Date: 21-Nov-2022

This Safety Data Sheet has been prepared by Ixom Operations Pty Ltd (Toxicology and SDS Services).

Revision Note:

The symbol (*) in the margin of this SDS indicates that this line has been revised.

Key or legend to abbreviations and acronyms used in the safety data sheet

Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Ixom Operations Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their Ixom representative or Ixom Operations Pty Ltd at the contact details on page 1.

Ixom Operations Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.
