# SAFETY DATA SHEET

Revision date: 08-Nov-2024

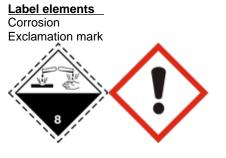

Revision Number 8

Section 1: Identification			
Product identifier			
Product Name	SODIUM METASILICATE PENTAHYDRATE		
Product Code(s)	000031036101		
Other means of identification			
UN number or ID number	3253		
CAS No.	10213-79-3		
Synonyms	Sodium silicate hydrate; Disodium trioxosilicate pentahydrate.		
Pure substance/mixture	Substance		
Recommended use of the chemica	l and restrictions on use		
Recommended use	Detergent/soap additive.		
Uses advised against	No information available.		
Details of manufacturer or importer			
<u>Supplier</u> IXOM Operations Pty Ltd ABN: 51 600 546 512 Level 8, 1 Nicholson Street Melbourne 3000 Australia			
Telephone Number: +61 3 9906 3000			
Emergency telephone number			
Emergency telephone number 1 800 033 111 (ALL HOURS)			
Please ensure you refer to the limitations of this Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.			
Section 2: Hazard identification			
Classified as a hazardous substance	in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).		

Classified as a hazardous substance in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS). Classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for Transport by Road and Rail; DANGEROUS GOODS.

GHS Classification	
Corrosive to metals	Category 1
Acute toxicity - Oral	Category 4
Skin corrosion/irritation	Category 1 Sub-category B
Serious eye damage/eye irritation	Category 1
Specific target organ toxicity (single exposure)	Category 3

Signal word DANGER

#### Hazard statements

H290 - May be corrosive to metals
H302 - Harmful if swallowed
H314 - Causes severe skin burns and eye damage
H318 - Causes serious eye damage
H335 - May cause respiratory irritation

#### **Precautionary Statements - Prevention**

Do not breathe dust/fume/gas/mist/vapors/spray. Keep only in original packaging. Wash face, hands and any exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area.

Wear protective gloves/clothing and eye/face protection.

#### Precautionary Statements - Response

Specific treatment (see First aid on this SDS).

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.

Wash contaminated clothing before reuse.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

Call a POISON CENTER or doctor/physician if you feel unwell.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

Absorb spillage to prevent material damage.

## **Precautionary Statements - Storage**

Store in a well-ventilated place. Keep container tightly closed.

#### Store locked up.

Store in corrosion resistant container with a resistant inner liner.

#### **Precautionary Statements - Disposal**

Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable.

Other hazards which do not result in classification

# Section 3: Composition and information on ingredients

Chemical name	CAS No.	Weight-%
Sodium metasilicate, pentahydrate	10213-79-3	>99.9

# Section 4: First aid measures

#### **Description of first aid measures**

**General advice** 

For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New

Zealand 0800 764 766) or a doctor. Show this safety data sheet to the doctor in attendance.

Inhalation	Remove to fresh air. If breathing is difficult, (trained personnel should) give oxygen. If breathing has stopped, give artificial respiration. Get medical attention immediately.
Eye contact	Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Consult a physician.
Skin contact	IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Immediately call a POISON CENTER or doctor/physician.
Ingestion	Rinse mouth thoroughly with water. Drink 1 or 2 glasses of water. Do NOT induce vomiting. Get immediate medical attention.
Most important symptoms and effe	ects, both acute and delayed

Symptoms	May cause redness and tearing of the eyes. Erythema (skin redness). Coughing and/ or wheezing. Difficulty in breathing. Irritation/Corrosion.	
Effects of Exposure	No information available.	
Indication of any immediate medica	dication of any immediate medical attention and special treatment needed	
Note to physicians	Treat symptomatically. Can cause corneal burns.	

# Section 5: Firefighting measures

#### Suitable Extinguishing Media

Suitable extinguishing media	Use extinguishing agent suitable for type of surrounding fire.		
Unsuitable extinguishing media	No information available.		
Specific hazards arising from the ch	nemical		
Specific hazards arising from the chemical	Corrosive hazard. Wear protective gloves/clothing and eye/face protection. Contact with metals may evolve flammable hydrogen gas.		
Special protective actions for fire-fighters			
Special protective equipment and precautions for fire-fighters	Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.		
Hazchem code	2X		
Section 6: Accidental release measures			
Personal precautions, protective equipment and emergency procedures			

Personal precautions	Evacuate personnel to safe areas. Avoid contact with skin, eyes and inhalation of vapors. Ensure adequate ventilation. Stop leak if you can do it without risk. Use personal protective equipment as required.
For emergency responders	Use personal protection recommended in Section 8.

Environmental precautions			
Environmental precautions	Local authorities should be advised if significant spillages cannot be contained.		
Methods and material for containment and cleaning up			
Methods for containment	Prevent further leakage or spillage if safe to do so.		
Methods for cleaning up	Use appropriate personal protective equipment (PPE). Carefully shovel or sweep up spilled material and place in suitable container. Avoid generating dust. After cleaning, flush away traces with water.		

# Section 7: Handling and storage

#### Precautions for safe handling

Advice on safe handling	Avoid contact with skin, eyes or clothing. Do not breathe dust. Use personal protection equipment. Wash thoroughly after handling. Keep out of reach of children.		
Conditions for safe storage, including any incompatibilities			
Storage Conditions	Keep containers tightly closed in a dry, cool and well-ventilated place. Keep from freezing. Keep container closed when not in use. Store away from foodstuffs.		
Incompatible materials	Acids. Aluminum. Copper. Zinc. Brass. Bronze. Lead. Tin. Fluorine.		

## Section 8: Exposure controls and personal protection

#### Control parameters

Exposure Limits

No value assigned for this specific material by Safe Work Australia. However, Workplace Exposure Standard(s) for particulates:

Dusts not otherwise classified: 8hr TWA = 10 mg/m<sup>3</sup>

As published by Safe Work Australia Workplace Exposure Standards for Airborne Contaminants.

TWA - The time-weighted average airborne concentration of a particular substance when calculated over an eight-hour working day, for a five-day working week.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

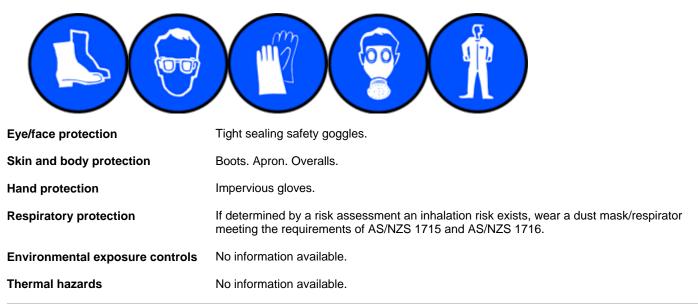

#### Appropriate engineering controls

# Engineering controls Ensure that eyewash stations and safety showers are close to the workstation location. Apply technical measures to comply with the occupational exposure limits. If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

#### Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, CHEMICAL GOGGLES, GLOVES, DUST MASK.

# Section 9: Physical and chemical properties

#### Information on basic physical and chemical properties

Physical state Appearance Color Odor Odor threshold	Solid No information available White Odourless No information available	
Property	Values	Remarks • Method
pH	12.4 (1% aqueous solution)	None known
pH (as aqueous solution)	No data available	None known
Melting point / freezing point	72.2°C	None known
Boiling point / boiling range	No data available	None known
Flash point	Not applicable	None known
Evaporation rate	No data available	None known
Flammability (solid, gas)	No data available	None known
Flammability Limit in Air		None known
Upper flammability or explosive	Not applicable	
limits		
Lower flammability or explosive	Not applicable	
limits		Niewe Income
Vapor pressure	No data available	None known
Vapor density	No data available	None known
Relative density	54-60 lbs/ft3 (Bulk density, loose)	None known
Water solubility	Soluble	None known
Solubility(ies)	No data available	None known
Partition coefficient	No data available	None known
Autoignition temperature	Not applicable	None known
Decomposition temperature	No data available	None known
Kinematic viscosity	No data available	None known
Dynamic viscosity	No data available	None known

Other information

Section 10: Stability and re	eactivity		
Reactivity			
Reactivity	Corrosive to metals. Hygroscopic.		
Chemical stability			
Stability	Stable under normal conditions.		
Explosion data Sensitivity to mechanical impac Sensitivity to static discharge	t None. None.		
Possibility of hazardous reactions	-		
Possibility of hazardous reactions	Sodium metasilicate is precipitated by acids, alkaline earth and heavy metal ions. Contact with certain metals (eg. Al, Sn, Zn, and their alloys) can generate flammable hydrogen gas. Attacks aluminium, lead, brass in the presence of moisture.		
Conditions to avoid			
Conditions to avoid	Direct sunlight. Protect from moisture.		
Incompatible materials			
Incompatible materials	Acids. Aluminum. Copper. Zinc. Brass. Bronze. Lead. Tin. Fluorine.		
Hazardous decomposition products			
Hazardous decomposition products	s Sodium oxides. Oxides of silicon.		
Section 11: Toxicological i	information		
Information on likely routes of expo	osure		
Product Information	No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are:		
Inhalation	Irritating to respiratory system.		
Eye contact	Corrosive to the eyes and may cause severe damage including blindness.		
Skin contact	Causes severe burns.		
Ingestion	Can burn mouth, throat, and stomach.		
Symptoms	May cause redness and tearing of the eyes. Erythema (skin redness). Coughing and/ or wheezing. Difficulty in breathing. Irritation/Corrosion.		
Acute toxicity			
Numerical measures of toxicity - P	roduct Information		

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
Sodium metasilicate, pentahydrate	= 847 mg/kg (Rat)	-	-
See section 16 for terms and abbrevia	itions		
Delayed and immediate effects as v	vell as chronic effects from sho	ort and long-term exposure	
Skin corrosion/irritation	Causes severe burns.		
Serious eye damage/eye irritation	Causes serious eye damage.		
Respiratory or skin sensitization	No information available.		
Germ cell mutagenicity	Not mutagenic in AMES Test.		
Carcinogenicity	This product does not contain any carcinogens or potential carcinogens as listed by OSHA, IARC or NTP. (OSHA - Occupational Safety and Health Administration) (IARC - International Agency for Research on Cancer) (NTP - National Toxicology Program).		
Reproductive toxicity	No information available.		
STOT - single exposure	May cause respiratory irritation.		
STOT - repeated exposure	No information available.		
Aspiration hazard	No information available.		

Section 12: Ecological information		
Ecotoxicity		
Aquatic ecotoxicity	Keep out of waterways.	
Terrestrial ecotoxicity	There is no data for this product.	
Persistence and degradability		
Persistence and degradability	No information available.	
Bioaccumulative potential		

Bioaccumulation	There is no data for this product.	
<u>Mobility</u>		
Mobility	No information available.	
Other adverse effects		
Other adverse effects	No information available.	
Section 13: Disposal considerations		

#### Waste treatment methods

Waste from residues/unused products	Refer to Waste Management Authority. Dispose of material through a licensed waste contractor.
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal.

See section 8 for more information

Section 14: Transport information		
ADG_	Classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for Transport by Road and Rail; DANGEROUS GOODS.	
UN number or ID number Proper shipping name Transport hazard class(es) Packing group Hazchem code	3253 DISODIUM TRIOXOSILICATE 8 III 2X	
IATA_	Classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; DANGEROUS GOODS.	
UN number UN proper shipping name Transport hazard class(es) Packing group	3253 DISODIUM TRIOXOSILICATE 8 III	
IMDG	Classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; DANGEROUS GOODS.	
UN number UN proper shipping name Transport hazard class(es) Packing group IMDG EMS Fire IMDG EMS Spill	3253 DISODIUM TRIOXOSILICATE 8 III F-A S-B	
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code No information available		

# Section 15: Regulatory information

#### Safety, health and environmental regulations/legislation specific for the substance or mixture

#### National regulations

#### Australia

Classified as a hazardous substance in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS). Classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for Transport by Road and Rail; DANGEROUS GOODS.

See section 8 for national exposure control parameters

#### Standard for Uniform Scheduling of Medicines and Poisons (SUSMP)

Classified as a scheduled poison according to the Standard for Uniform Scheduling of Medicines and Poisons (SUSMP) **Poison Schedule Number** 5

#### Australian Industrial Chemicals Introduction Scheme (AICIS)

Contact supplier for inventory compliance status

#### Illicit Drug Precursors/Reagents

This product does not contain any substance(s) on the Illicit Drug Precursors/Reagents list.

#### International Inventories

AIIC	This material is listed on the Australian Inventory of Industrial Chemicals.		
NZIOC	This material is listed on the New Zealand Inventory of Chemicals.		
TSCA	Contact supplier for inventory compliance status.		
DSL/NDSL	Contact supplier for inventory compliance status.		
EINECS/ELINCS	Contact supplier for inventory compliance status.		
ENCS	Contact supplier for inventory compliance status.		
IECSC	Contact supplier for inventory compliance status.		
KECL	Contact supplier for inventory compliance status.		
PICCS	Contact supplier for inventory compliance status.		

Legend:

AllC- Australian Inventory of Industrial Chemicals

NZIOC - New Zealand Inventory of Chemicals

**TSCA** - United States Toxic Substances Control Act Section 8(b) Inventory

DSL/NDSL - Canadian Domestic Substances List/Non-Domestic Substances List

**EINECS/ELINCS** - European Inventory of Existing Chemical Substances/European List of Notified Chemical Substances

**ENCS** - Japan Existing and New Chemical Substances

**IECSC** - China Inventory of Existing Chemical Substances

KECL - Korean Existing and Evaluated Chemical Substances

**PICCS** - Philippines Inventory of Chemicals and Chemical Substances

International Regulations

The Montreal Protocol on Substances that Deplete the Ozone Layer Not applicable

The Stockholm Convention on Persistent Organic Pollutants Not applicable

The Rotterdam Convention Not applicable

#### Section 16: Other information

Supplier Safety Data Sheet 12/2023

Reason(s) For Issue:	Revised Primary SDS Change in Physical Properties Change in NZ classification
Prepared By	This Safety Data Sheet has been prepared by IXOM Operations Pty Ltd (Toxicology and SDS Services).
Revision date:	08-Nov-2024

#### **Revision Note:**

The symbol (\*) in the margin of this SDS indicates that this line has been revised.

#### Key or legend to abbreviations and acronyms used in the safety data sheet

#### Legend

SVHC: Substances of Very High Concern for Authorization: PBT: Persistent, Bioaccumulative, and Toxic (PBT) Substances vPvB: Very Persistent and very Bioaccumulative (vPvB) Substances STOT: Specific Target Organ Toxicity ATE: Acute Toxicity Estimate LC50: 50% Lethal Concentration LD50: 50% Lethal Dose

#### Legend Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

TWA	TWA (time-weighted average)	STEL	STEL (Short Term Exposure Limit)
Ceiling	Maximum limit value	*	Skin designation
С	Carcinogen		

#### Key literature references and sources for data used to compile the SDS

#### **Disclaimer**

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since IXOM Operations Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their IXOM representative or IXOM Operations Pty Ltd at the contact details on page 1.

IXOM Operations Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.
