SAFETY DATA SHEET

Revision date: 20-Oct-2022

Revision Number 1

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

| Product identifier | | |
|---|--------------------------------|--|
| Product Name | SILVER NITRATE | |
| Product Code(s) | 000032313101 | |
| Other means of identification | | |
| UN number | 1493 | |
| CAS No. | 7761-88-8 | |
| Synonyms | Nitric acid, silver (1+) salt. | |
| Recommended use of the chemical and restrictions on use | | |
| Recommended use | General chemical. | |
| Uses advised against | No information available. | |

Supplier

Ixom Operations Pty Ltd ABN: 51 600 546 512 Level 8, 1 Nicholson Street Melbourne 3000 Australia

Telephone Number: +61 3 9906 3000

Emergency telephone number

Emergency telephone number

1 800 033 111 (ALL HOURS)

Please ensure you refer to the limitations of this Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.

2. HAZARDS IDENTIFICATION

GHS Classification

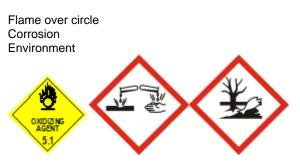

Classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG).

Classified as a hazardous chemical in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

| Oxidizing solids | Category 2 |
|-----------------------------------|---------------------------|
| Skin corrosion/irritation | Category 1 Sub-category B |
| Serious eye damage/eye irritation | Category 1 |
| Acute aquatic toxicity | Category 1 |
| Chronic aquatic toxicity | Category 1 |

SIGNAL WORD Danger

Label elements

Hazard statements

H272 - May intensify fire; oxidizer H314 - Causes severe skin burns and eye damage

The following health/environmental hazard categories fall outside the scope of the Workplace Health and Safety Regulations: H410 - Very toxic to aquatic life with long lasting effects

Precautionary Statements - Prevention

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking Keep/Store away from clothing/ combustible materials Take any precaution to avoid mixing with combustibles Do not breathe dusts or mists Wash face, hands and any exposed skin thoroughly after handling Wash eves thoroughly after handling. Wear protective gloves / protective clothing / eve protection / face protection Avoid release to the environment **Precautionary Statements - Response** Specific treatment (see First aid on this SDS) IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing Immediately call a POISON CENTER or doctor/physician IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower Wash contaminated clothing before reuse Immediately call a POISON CENTER or doctor/physician IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing Call a POISON CENTER or doctor/physician if you feel unwell IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell Rinse mouth Do NOT induce vomiting In case of fire: Use extinguishing media as outlined in Section 5 of this Safety Data Sheet to extinguish. Collect spillage **Precautionary Statements - Storage** Store locked up **Precautionary Statements - Disposal** Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable Other hazards which do not result in classification **General Hazards**

Poisons Schedule (SUSMP)

3. COMPOSITION/INFORMATION ON INGREDIENTS

4. FIRST AID MEASURES

| Description of first aid measures | | |
|---|--|--|
| General advice | For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor. Show this safety data sheet to the doctor in attendance. | |
| Inhalation | Remove to fresh air and keep at rest in a position comfortable for breathing. If breathing is difficult, (trained personnel should) give oxygen. If breathing has stopped, give artificial respiration. Get medical attention immediately. | |
| Eye contact | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Keep eye wide open while rinsing. Do not rub affected area. Immediate medical attention is required. | |
| Skin contact | IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. Immediate medical attention is required. | |
| Ingestion | Clean mouth with water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Immediate medical attention is required. | |
| Self-protection of the first aider | Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. Use personal protective equipment as required. See section 8 for more information. Avoid contact with skin, eyes, and clothing. | |
| Most important symptoms and effects, both acute and delayed | | |
| Symptoms | Irritation/Corrosion. May cause redness and tearing of the eyes. Erythema (skin redness). Burning. Difficulty in breathing. | |
| Indication of any immediate medica | al attention and special treatment needed | |
| Note to physicians | Treat symptomatically. Can cause corneal burns. | |

| 5. FIRE FIGHTING MEASURES | | |
|--|--|--|
| Suitable Extinguishing Media | | |
| Suitable Extinguishing Media | Water spray. | |
| | | |
| Unsuitable extinguishing media | No information available. | |
| Specific hazards arising from the chemical | | |
| Specific hazards arising from the chemical | These substances will accelerate burning when involved in a fire. Some may decompose explosively when heated or involved in a fire. May ignite combustibles (wood paper, oil, clothing, etc.). Runoff may create fire or explosion hazard. | |
| Special protective actions for fire-fighters | | |
| Special protective equipment for fire-fighters | Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment. Oxidizer. May ignite combustibles (wood paper, oil, clothing, etc.). Move containers from fire area if you can do it without risk. Fight fire from maximum distance or use unmanned hose holders or monitor nozzles. ALWAYS stay away | |

from tanks engulfed in fire. For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible withdraw from area and let fire burn.

Hazchem code

1Y

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

| Personal precautions | Keep people away from and upwind of spill/leak. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Stop leak if you can do it without risk. Evacuate personnel to safe areas. Ensure adequate ventilation. Avoid contact with skin, eyes, and clothing. Use personal protective equipment as required. Wash thoroughly after handling. See section 8 for more information. | |
|--|--|--|
| Other information | Keep combustibles (wood, paper, oil, etc) away from spilled material. Ventilate the area. Refer to protective measures listed in Sections 7 and 8. | |
| For emergency responders | Use personal protection recommended in Section 8. | |
| Environmental precautions | | |
| Environmental precautions | Prevent entry into waterways, sewers, basements or confined areas. Do not flush into surface water or sanitary sewer system. Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. | |
| Methods and material for containment and cleaning up | | |
| Methods for containment | Prevent further leakage or spillage if safe to do so. Isolate spill or leak area immediately. | |
| Methods for cleaning up | Use appropriate personal protective equipment (PPE). Carefully shovel or sweep up spilled material and place in suitable container. Avoid generating dust. | |

7. HANDLING AND STORAGE

Precautions for safe handling

| Advice on safe handling | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Take off contaminated clothing and wash before reuse. Use personal protection equipment. Avoid contact with skin, eyes, and clothing. Do not breathe dust. Handle in accordance with good industrial hygiene and safety practice. Keep out of reach of children. | |
|--|---|--|
| General hygiene considerations | Remove and wash contaminated clothing and gloves, including the inside, before re-use. Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product. Avoid contact with skin, eyes, and clothing. Wear suitable gloves and eye/face protection. | |
| Conditions for safe storage, including any incompatibilities | | |
| Storage Conditions | Keep containers tightly closed in a dry, cool and well-ventilated place. Keep in properly labelled containers. Do not store near combustible materials. Protect from light. Store away from foodstuffs. Store in accordance with the particular national regulations. Store in accordance with local regulations. | |
| Incompatible materials | Strong reducing agents. Strong bases. Alcohols. Ammonia. Hydrogen peroxide. Acetylene. Organic material. Charcoal. | |
| Poisons Schedule (SUSMP) | 6 | |

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure Limits

No value assigned for this specific material by Safe Work Australia. However, Workplace Exposure Standard(s) for particulates:

Dusts not otherwise classified: 8hr TWA = 10 mg/m³

As published by Safe Work Australia Workplace Exposure Standards for Airborne Contaminants.

TWA - The time-weighted average airborne concentration of a particular substance when calculated over an eight-hour working day, for a five-day working week.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

Appropriate engineering controls

Engineering controls Ensure that eyewash stations and safety showers are close to the workstation location. Apply technical measures to comply with the occupational exposure limits.

If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, CHEMICAL GOGGLES, GLOVES, DUST MASK.

Physical state

9. PHYSICAL AND CHEMICAL PROPERTIES

Solid

Information on basic physical and chemical properties

| Appearance Color | No information available. White | |
|---|------------------------------------|------------------|
| Odor | Odourless | |
| Odor threshold | No information available. | |
| Property | Values | Remarks • Method |
| рН | ca. 6 (aqueous solution) | |
| pH (as aqueous solution) | No data available | None known |
| Melting point / freezing point | 212°C | |
| Boiling point / boiling range | 433°C | None known |
| Flash point | Not applicable | |
| Evaporation rate | No data available | None known |
| Flammability (solid, gas) | No data available | None known |
| Flammability Limit in Air | | None known |
| Upper flammability or explosive limits | No data available | |
| Lower flammability or explosive limits | No data available | |
| Vapor pressure | No data available | None known |
| Vapor density | No data available | None known |
| Relative density | 4.35 | |
| Water solubility | Soluble in water | |
| Solubility(ies) | No data available | None known |
| Partition coefficient | No data available | None known |
| Autoignition temperature | No data available | None known |
| Decomposition temperature | 440°C | |
| Kinematic viscosity | No data available | None known |
| Dynamic viscosity | No data available | None known |
| | | |

Other information

10. STABILITY AND REACTIVITY

| Reactivity | | |
|--|--|--|
| Reactivity | Oxidizer. | |
| Chemical stability | | |
| Stability | Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure. | |
| Explosion data Sensitivity to mechanical impact None. | | |
| Sensitivity to static discharge | None. | |
| Possibility of hazardous reactions | | |
| Possibility of hazardous reactions | None under normal processing. | |
| Hazardous polymerization | Hazardous polymerization does not occur. | |
| Conditions to avoid | | |

Conditions to avoid Exposure to light. Avoid contamination of the material.

Incompatible materials

Incompatible materials Strong reducing agents. Strong bases. Alcohols. Ammonia. Hydrogen peroxide. Acetylene. Organic material. Charcoal.

Hazardous decomposition products

Hazardous decomposition products Silver oxides. Nitrogen oxides. Oxygen.

11. TOXICOLOGICAL INFORMATION

Acute toxicity

Information on likely routes of exposure

| Product Information | No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are: |
|---------------------|---|
| Inhalation | May cause irritation. |
| Eye contact | Causes serious eye damage. |
| Skin contact | Causes burns. |
| Ingestion | Can burn mouth, throat, and stomach. |
| Symptoms | Irritation/Corrosion. May cause redness and tearing of the eyes. Erythema (skin redness). Burning. Difficulty in breathing. |

Numerical measures of toxicity - Product Information

No information available.

See section 16 for terms and abbreviations

Delayed and immediate effects as well as chronic effects from short and long-term exposure

| Skin corrosion/irritation | Causes burns. |
|-----------------------------------|---|
| Serious eye damage/eye irritation | Causes serious eye damage. |
| Respiratory or skin sensitization | No information available. |
| Germ cell mutagenicity | No information available. |
| Carcinogenicity | This product does not contain any carcinogens or potential carcinogens as listed by OSHA, IARC or NTP. (OSHA - Occupational Safety and Health Administration) (IARC - International Agency for Research on Cancer) (NTP - National Toxicology Program). |
| Reproductive toxicity | No information available. |
| STOT - single exposure | No information available. |

| STOT - repeated exposure | No information available. |
|--------------------------|---|
| Aspiration hazard | No information available. |
| Chronic effects: | Silver nitrate may cause argyria (a slate-gray or bluish discoloration of the skin and deep tissues due to the deposit of insoluble albuminate of silver). Absorption into the body leads to the formation of methemoglobin which in sufficient concentration causes cyanosis. Onset may be delayed 2 to 4 hours or longer. |

12. ECOLOGICAL INFORMATION

| <u>Ecotoxicity</u> | |
|-------------------------------|---|
| Ecotoxicity | Keep out of waterways. Very toxic to aquatic life with long lasting effects. |
| | |
| Persistence and degradability | |
| Persistence and degradability | Biodegradation is not an applicable endpoint since the product is an inorganic substance. |
| | |
| Bioaccumulative potential | |
| Bioaccumulation | No information available. |
| | |
| <u>Mobility</u> | |
| Mobility in soil | No information available. |
| Other adverse effects | |
| 13. DISPOSAL CONSIDERATIONS | |

Waste treatment methods

| Waste from residues/unused products | Should not be released into the environment. Dispose of in accordance with local regulations. Dispose of waste in accordance with environmental legislation. |
|--|--|
| Contaminated packaging | Empty containers should be taken to an approved waste handling site for recycling or disposal. |

14. TRANSPORT INFORMATION

<u>ADG</u>

Classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for Transport by Road and Rail; DANGEROUS GOODS.

| UN number | 1493 |
|----------------------|----------------|
| Proper shipping name | SILVER NITRATE |
| Hazard class | 5.1 |
| Packing group | II |
| Hazchem code | 1Y |

<u>IATA</u>

Classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; DANGEROUS GOODS.

| UN number | 1493 |
|-----------|------|
|-----------|------|

| UN proper shipping name | SILVER NITRATE |
|----------------------------|----------------|
| Transport hazard class(es) | 5.1 |
| Packing group | II |

IMDG

Classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; DANGEROUS GOODS.

| UN number | 1493 |
|----------------------------|----------------|
| UN proper shipping name | SILVER NITRATE |
| Transport hazard class(es) | 5.1 |
| Packing group | II |
| Marine pollutant | Yes |

15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations

Australia

Classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG).

Classified as a hazardous chemical in accordance with the criteria of Safe Work Australia - Globally Harmonized System (GHS).

See section 8 for national exposure control parameters

Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP)

Classified as a scheduled poison according to the Standard for Uniform Scheduling of Medicines and Poisons (SUSMP) **Poisons Schedule (SUSMP)** 6

Major hazard (accident/incident planning) regulation

Verify that license requirements are met <u>Hazardous chemical</u> Oxidizing material listed in Appendix A to the ADG Code Oxidizing materials that meet the criteria for Division 5.1 Packing Group I or II

Threshold quantity (T) 50 200

International Inventories AIIC

This material is listed on the Australian Inventory of Industrial Chemicals.

Legend: AIIC - Australian Inventory of Industrial Chemicals

International Regulations

The Montreal Protocol on Substances that Deplete the Ozone Layer Not applicable

The Stockholm Convention on Persistent Organic Pollutants Not applicable

The Rotterdam Convention Not applicable

16. OTHER INFORMATION

Supplier Material Safety Data Sheet 03/2016

Reason(s) For Issue: First Issue Primary SDS

Issuing Date: 20-Oct-2022

This Safety Data Sheet has been prepared by Ixom Operations Pty Ltd (Toxicology and SDS Services).

Revision Note:

The symbol (*) in the margin of this SDS indicates that this line has been revised.

Key or legend to abbreviations and acronyms used in the safety data sheet

| Legend Section | DILO. EXPOSURE CONTROLS/PERSONAL | PROTECTION | |
|----------------|----------------------------------|------------|----------------------------------|
| TWA | TWA (time-weighted average) | STEL | STEL (Short Term Exposure Limit) |
| Ceiling | Maximum limit value | * | Skin designation |
| С | Carcinogen | | |

Key literature references and sources for data used to compile the SDS

Disclaimer

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Ixom Operations Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their Ixom representative or Ixom Operations Pty Ltd at the contact details on page 1.

Ixom Operations Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.
