

Revision date: 17-Sep-2024

SAFETY DATA SHEET

Revision Number 6

| Section 1: Identification | | |
|--|---------------------------|--|
| Product identifier | | |
| Product Name | ENVIROSAN PLUS | |
| Product Code(s) | 00000006917 | |
| Other means of identification | | |
| Recommended use of the chemical and restrictions on use | | |
| Recommended use | Wine-barrel washing. | |
| Uses advised against | No information available | |
| Details of the supplier of the safety data sheet | | |
| Supplier IXOM Operations Pty Ltd (Incorporated in Australia) NZBN: 9429041465226 Street Address: 166 Totara Street Mt Maunganui South New Zealand Telephone Number: +64 9 368 2700 | | |
| Facsimile: +64 9 368 2710 | | |
| Emergency telephone number | | |
| Emergency Telephone | 0 800 734 607 (ALL HOURS) | |

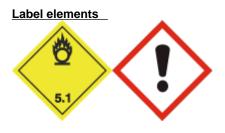

Please ensure you refer to the limitations of this Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.

Section 2: Hazard identification

Classified as a Dangerous Good according to NZS 5433 Transport of Dangerous Goods on Land; DANGEROUS GOODS.

Classified as hazardous according to criteria in the Hazardous Substances (Hazard Classification) Notice 2020. **GHS Classification**

| Oxidizing solids | Category 2 |
|-----------------------------------|------------|
| Acute toxicity - Oral | Category 4 |
| Serious eye damage/eye irritation | Category 2 |

Signal word

Danger

Hazard statements

H272 - May intensify fire; oxidizer H302 - Harmful if swallowed H319 - Causes serious eye irritation

Precautionary Statements - Prevention

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep/Store away from clothing and other combustible materials. Take any precaution to avoid mixing with combustibles. Avoid breathing dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/clothing and eye/face protection. Use personal protective equipment as required.

Precautionary Statements - Response

Specific treatment (see First aid on this SDS). IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth. In case of fire: Use extinguishing media as outlined in Section 5 of this Safety Data Sheet to extinguish..

Precautionary Statements - Storage

No storage statements.

Precautionary Statements - Disposal

Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable.

Other hazards which do not result in classification

Hazardous to terrestrial vertebrates.

Section 3: Composition/information on ingredients

| Chemical name | CAS No. | Weight-% |
|-------------------------------------|------------|----------|
| Sodium percarbonate | 15630-89-4 | >60% |
| Sodium C10-16 alkylbenzenesulfonate | 68081-81-2 | to 100% |

Section 4: First-aid measures

Description of first aid measures

| General advice | Show this safety data sheet to the doctor in attendance. For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor. |
|----------------|--|
| Inhalation | Remove to fresh air. If breathing is difficult, (trained personnel should) give oxygen. If breathing has stopped, give artificial respiration. Get medical attention immediately. |
| Eye contact | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Do not rub affected area. Call a physician immediately. |
| Skin contact | Wash skin with soap and water. Get medical attention if irritation develops and persists. |

| Ingestion | Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately. Clean mouth with water and drink afterwards plenty of water. | |
|--|--|--|
| Most important symptoms and effe | cts, both acute and delayed | |
| Symptoms | Irritating. May cause redness and tearing of the eyes. | |
| Effects of Exposure | No information available. | |
| Indication of any immediate medical attention and special treatment needed | | |
| Note to physicians | Treat symptomatically. | |
| Section 5: Fire-fighting measures | | |
| Hazchem code | 1Y | |
| Suitable Extinguishing Media | | |
| Suitable Extinguishing Media | Water. Dry chemical, CO2, water spray or regular foam. | |
| Unsuitable extinguishing media | No information available. | |
| Specific hazards arising from the chemical | | |
| Specific hazards arising from the chemical | Oxidizer. These substances will accelerate burning when involved in a fire. May ignite combustibles (wood paper, oil, clothing, etc.). In a fire or if heated, a pressure increase will occur and the container may burst. | |
| Hazardous combustion products | Carbon oxides. | |
| Special protective actions for fire-fighters | | |

Special protective equipment and
precautions for fire-fightersFirefighters should wear self-contained breathing apparatus and full firefighting turnout gear.
Keep containers cool with water spray.

Section 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

| Personal precautions | Keep people away from and upwind of spill/leak. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Do not touch or walk through spilled material. Avoid contact with skin and eyes. Avoid breathing dust/fume/gas/mist/vapors/spray. Stop leak if you can do it without risk. Ensure adequate ventilation. Evacuate personnel to safe areas. Use personal protective equipment as required. Wash thoroughly after handling. |
|---------------------------|---|
| Other information | Keep combustibles (wood, paper, oil, etc) away from spilled material. Refer to protective measures listed in Sections 7 and 8. |
| For emergency responders | Use personal protection recommended in Section 8. |
| Environmental precautions | |

| Environmental precautions | Prevent entry into waterways, sewers, basements or confined areas. Do not flush into surface water or sanitary sewer system. Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. | |
|--|---|--|
| Methods and material for containment and cleaning up | | |
| Methods for containment | Prevent further leakage or spillage if safe to do so. | |
| Methods for cleaning up | Use appropriate personal protective equipment (PPE). Carefully shovel or sweep up spilled material and place in suitable container. Avoid generating dust. Never return spill or leaks to original containers for re-use. | |
| Precautions to prevent secondary hazards | | |
| Prevention of secondary hazards | Clean contaminated objects and areas thoroughly observing environmental regulations. | |

Section 7: Handling and storage

Precautions for safe handling

| Advice on safe handling | Avoid contact with skin and eyes. Avoid breathing dust/fume/gas/mist/vapors/spray. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Take off contaminated clothing and wash before reuse. Do not eat, drink or smoke when using this product. Use personal protection equipment. Wash thoroughly after handling. Keep out of reach of children. | |
|--|---|--|
| General hygiene considerations | Remove and wash contaminated clothing and gloves, including the inside, before re-use. Contaminated work clothing should not be allowed out of the workplace. Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product. Avoid contact with skin, eyes or clothing. Wear suitable gloves and eye/face protection. | |
| Conditions for safe storage, including any incompatibilities | | |
| Storage Conditions | Keep containers tightly closed in a dry, cool and well-ventilated place. Protect from moisture. Protect from direct sunlight. Keep in properly labeled containers. Do not store near combustible materials. Keep out of the reach of children. Keep dry - reacts with water, may lead to drum rupture. Keep container closed when not in use. | |
| Incompatible materials | Acids. Bases. Organic material. Combustible material. Finely powdered metals. Water. Alkalis. Flammable liquids. Flammable solids. Reducing agents. Permanganates. Rust. | |

Section 8: Exposure controls/personal protection

Control parameters

Exposure Limits

No value assigned for this specific material by the New Zealand Workplace Health & Safety Authority. However, Workplace Exposure Standard(s) for particulates:.

Particulates not otherwise classified: 8hr WES-TWA 10 mg/m³ (inhalable dust) or 3 mg/m³ (respirable dust)

As published by the New Zealand Workplace Health & Safety Authority.

WES - TWA (Workplace Exposure Standard - Time Weighted Average) - The eight-hour, time-weighted average exposure standard is designed to protect the worker from the effects of long-term exposure.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

Appropriate engineering controls

Engineering controls Apply technical measures to comply with the occupational exposure limits.

If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, CHEMICAL GOGGLES, GLOVES, DUST MASK.

| Eye/face protection | Goggles. |
|---------------------------------|--|
| , | |
| Hand protection | Impervious gloves. |
| Skin and body protection | Boots. Wear suitable protective clothing. Overalls. |
| Respiratory protection | If determined by a risk assessment an inhalation risk exists, wear a dust mask/respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716. |
| Environmental exposure controls | No information available. |

Section 9: Physical and chemical properties

Information on basic physical and chemical properties

| Physical state | Solid | |
|---------------------------------|--------------------------|------------------|
| Appearance | Powder | |
| Color | White | |
| Odor | Not specified | |
| Odor threshold | No information available | |
| | | |
| Property_ | Values | Remarks • Method |
| pH | No data available | |
| Melting point / freezing point | Decomposes | |
| Boiling point / boiling range | No data available | None known |
| Flash point | Not applicable | |
| Evaporation rate | No data available | None known |
| Flammability (solid, gas) | No data available | None known |
| Flammability Limit in Air | | None known |
| Upper flammability or explosive | No data available | |
| | | |

| limits | | |
|---------------------------------|-------------------|------------|
| Lower flammability or explosive | No data available | |
| limits | | |
| Vapor pressure | No data available | None known |
| Vapor density | No data available | None known |
| Relative density | No data available | |
| Water solubility | No data available | |
| Solubility(ies) | Soluble in water | None known |
| Partition coefficient | No data available | None known |
| Autoignition temperature | No data available | None known |
| Decomposition temperature | | |
| Kinematic viscosity | No data available | None known |
| Dynamic viscosity | No data available | None known |
| | | |

Other information Particle characteristics

Section 10: Stability and reactivity

| Reactivity | |
|------------------------------------|--|
| Reactivity | Oxidizer. |
| Chemical stability | |
| Stability | Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure. |
| Explosion data | |
| Sensitivity to mechanical impact | None. |
| Sensitivity to static discharge | Yes. |
| Possibility of hazardous reactions | |
| Possibility of hazardous reactions | Heating can cause expansion or decomposition of the material, which can lead to the containers exploding. |
| Conditions to avoid | |
| Conditions to avoid | Heat, flames and sparks. Keep from any possible contact with water. Incompatible materials. Dust formation. Contact with foodstuffs. Do not contaminate food or feed stuffs. |
| Incompatible materials | |
| Incompatible materials | Acids. Bases. Organic material. Combustible material. Finely powdered metals. Water. Alkalis. Flammable liquids. Flammable solids. Reducing agents. Permanganates. Rust. |

Hazardous decomposition products

Hazardous decomposition products Carbon oxides.

Section 11: Toxicological information

Acute toxicity

Information on likely routes of exposure

Product Information

No adverse health effects expected if the chemical is handled in accordance with this Safety

| | Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are: |
|----------------|--|
| Inhalation | May cause irritation. |
| Eye contact | Causes serious eye irritation. |
| Skin contact | May cause irritation. |
| Ingestion | Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Harmful if swallowed. |
| Symptoms | Irritating. May cause redness and tearing of the eyes. |
| Acute toxicity | |
| | |

Numerical measures of toxicity No information available

Component Information Chemical name

| Component information | | | |
|---------------------------------------|----------------------------------|----------------------------------|------------------------------|
| Chemical name | Oral LD50 | Dermal LD50 | Inhalation LC50 |
| Sodium percarbonate | = 1034 mg/kg (Rat) | > 2000 mg/kg (Rabbit) | - |
| | | | |
| Delayed and immediate effects as v | vell as chronic effects from sh | ort and long-term exposure | |
| - | | | - |
| Skin corrosion/irritation | No information available. | | |
| | | | |
| Serious eye damage/eye irritation | Causes serious eye irritation. | Classification is based on mixtu | re calculation methods based |
| | on component data. | | |
| | | | |
| Respiratory or skin sensitization | No information available. | | |
| | | | |
| Germ cell mutagenicity | No information available. | | |
| · · · · · · · · · · · · · · · · · · · | | | |
| Carcinogenicity | Not listed as carcinogenic acc | ording to IAPC | |
| Carcinogenicity | (IARC - International Agency f | | |
| | | , | |
| | | | |
| Reproductive toxicity | No information available. | | |
| | | | |
| STOT - single exposure | No information available. | | |
| | | | |
| STOT menested symposium | | | |
| STOT - repeated exposure | No information available. | | |
| | | | |
| Aspiration hazard | No information available. | | |
| Data used to identify the health | Refer to Section 16 for Kev lite | erature references and sources | for data used to compile the |
| effects | SDS. | | |
| | | | |

Section 12: Ecological information

Ecotoxicity

| Aquatic ecotoxicity | Keep out of waterways. | | |
|-------------------------------|------------------------------------|---|--|
| Chemical name | Algae/aquatic plants | Fish | Crustacea |
| Sodium percarbonate | - | LC50: =70.7mg/L (96h, Pimephales promelas) | EC50: =4.9mg/L (48h, Daphnia pulex) |
| Terrestrial ecotoxicity | There is no data for this product | <u>.</u> | |
| Persistence and degradability | No information available. | | |
| Bioaccumulative potential | | | |
| Bioaccumulation | There is no data for this product. | | |
| Mobility in soil | | | |
| Mobility | No information available. | | |
| Other adverse effects | | | |
| No information available. | | | |
| | | | |

Section 13: Disposal considerations

Waste treatment methods

| Waste from residues/unused products | Dispose of product in packaging in a way that is consistent with the EPA Consolidation 30 April 2021 of the Hazardous Substances (Disposal) Notice 2017 and the Act. Treat the substance using a method that changes the characteristics or composition of the substance so that the substance is no longer a hazardous substance; or export the substance from New Zealand as waste. Class 2, 3 and 4 chemicals - may not be disposed of into or onto a landfill or sewage facility. They may only be burnt in certain situations. Class 2.1.1, 3.1 and 4.1.1 chemicals may only be discharged into the environment as waste if the substance will not at any time come into contact with class 1 or class 5 substances; and there will be no ignition source in the vicinity of the disposal site at any time and if the substance were to ignite, no person, or place where a person may legally be, would be exposed to an unsafe level of heat radiation |
|--|---|
| Contaminated packaging | For packages that have been in direct contact with hazardous substances, the person must ensure that the package is rendered incapable of containing any substance. It must be disposed of in a manner that is consistent with the requirements for disposal of the substance that it contained, taking into account the material the package is manufactured from. Packages may only be reused or recycled if: - the substance has a physical hazard other than corrosive to metal, and has been treated to remove any residual contents of the hazardous substance; - or for substances that have a health or environmental hazard, or corrosive to metal, the contents of the residue in the package are below the threshold for the substance to be classified as hazardous in the Hazardous Substances (Hazard Classification) Notice 2020. |

Section 14: Transport information

| ROAD AND RAIL TRANSPORT | Classified as a Dangerous Good according to NZS 5433 Transport of Dangerous Goods on Land; DANGEROUS GOODS. |
|----------------------------|--|
| UN number or ID number | 3378 |
| Proper shipping name | SODIUM CARBONATE PEROXYHYDRATE |
| Transport hazard class(es) | 5.1 |
| Packing group | II |
| Hazchem code | 1Y |
| IATA | Classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; DANGEROUS GOODS. |
| UN number | 3378 |
| UN proper shipping name | SODIUM CARBONATE PEROXYHYDRATE |
| Transport hazard class(es) | 5.1 |
| Packing group | II |
| IMDG | Classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; DANGEROUS GOODS. |
| UN number | 3378 |
| UN proper shipping name | SODIUM CARBONATE PEROXYHYDRATE |
| Transport hazard class(es) | 5.1 |
| Packing group | II |
| IMDG EMS Fire | F-A |
| IMDG EMS Spill | S-Q |
| Marine pollutant | Not applicable |

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code No information available

Special precautions for user

Please refer to the applicable dangerous goods regulations for additional information

Section 15: Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

| EPA New Zealand HSNO approval code or group standard | HSR002631 - Oxidising Liquids and Solids |
|--|---|
| National regulations | There are no applicable tolerable exposure limits or environmental exposure limits according to the EPA Controls for Hazardous Substances |
| Certified handlers, tracking and controlled substance license requirements | Certified handlers are required for some substances. This includes substances requiring a controlled substance license, and most explosives, vertebrates toxic agents, and certain fumigants. Acutely toxic substances which are a Category 1 or 2, such as pesticides also require Certified handlers. Please check the Health and Safety at Work Act 2015 for further information Tracking is required for some highly hazardous substances. These substances need to be under the control of an appropriately trained person or appropriately secured. Please check the Health and Safety at Work Act 2015 for further information Controlled substance licenses are required to possess certain explosives, vertebrate toxic agents and fumigants. See Part 7 of the Health and Safety at Work Regulation 2017 for more information |

International Regulations

The Montreal Protocol on Substances that Deplete the Ozone Layer Not applicable

The Stockholm Convention on Persistent Organic Pollutants Not applicable

The Rotterdam Convention Not applicable

| International Inventories | |
|---------------------------|---|
| NZIoC | All the constituents of this material are listed on the New Zealand Inventory of Chemicals. |
| TSCA | Contact supplier for inventory compliance status. |
| DSL/NDSL | Contact supplier for inventory compliance status. |
| EINECS/ELINCS | Contact supplier for inventory compliance status. |
| ENCS | Contact supplier for inventory compliance status. |
| IECSC | Contact supplier for inventory compliance status. |
| KECL | Contact supplier for inventory compliance status. |
| PICCS | Contact supplier for inventory compliance status. |
| AIIC | All the constituents of this material are listed on the Australian Inventory of Industrial |
| | Chemicals. |
| TCSI | Contact supplier for inventory compliance status. |
| | |

Legend:

NZIOC - New Zealand Inventory of Chemicals

TSCA - United States Toxic Substances Control Act Section 8(b) Inventory

DSL/NDSL - Canadian Domestic Substances List/Non-Domestic Substances List

EINECS/ELINCS - European Inventory of Existing Chemical Substances/European List of Notified Chemical Substances

ENCS - Japan Existing and New Chemical Substances

IECSC - China Inventory of Existing Chemical Substances

KECL - Korean Existing and Evaluated Chemical Substances

PICCS - Philippines Inventory of Chemicals and Chemical Substances

AllC- Australian Inventory of Industrial Chemicals

TCSI - Taiwan Chemical Substance Inventory

Disclaimer

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since IXOM Operations Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their IXOM representative or IXOM Operations Pty Ltd at the contact details on page 1.

IXOM Operations Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.
