# SAFETY DATA SHEET

Revision date: 24-Jul-2024

Revision Number 2

Revision date: 24-Jul-20	24 Re	vision I
Section 1: Identification	n	
Product identifier		
Product Name	TASI MINT 00655AC (FCIA00655AC)	
Product Code(s)	00000026270	
Other means of identification		
Recommended use of the che	emical and restrictions on use	
Recommended use	Fragrances.	
Uses advised against	No information available	
Details of the supplier of the s	safety data sheet	
<u>Supplier</u> Ixom Operations Pty Ltd (Brons Street Address: 166 Totara Str Mt Maunganui South New Zealand	on & Jacobs division) - incorporated in Australia reet	
Telephone Number: +64 9 309 2 Facsimile: +64 9 0508 366 364	2528	
Emergency telephone numbe	<u>r</u>	
Emergency Telephone	0 800 734 607 (ALL HOURS)	
Please ensure you refer to the limitations	s of this Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.	
Section 2: Hazard ider	ntification	

Not classified as a Dangerous Good under NZS 5433 Transport of Dangerous Goods on Land; NON-DANGEROUS GOODS.

Classified as hazardous according to criteria in the Hazardous Substances (Hazard Classification) Notice 2020. GHS Classification

Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 1
Skin sensitization	Category 1
Reproductive toxicity	Category 2
Acute aquatic toxicity	Category 3
Chronic aquatic toxicity	Category 3

Label elements

Signal word Danger

#### Hazard statements H315 - Causes skin irritation H317 - May cause an allergic skin reaction

H318 - Causes serious eye damage

H361d - Suspected of damaging the unborn child

H412 - Harmful to aquatic life with long lasting effects

#### **Precautionary Statements - Prevention**

Obtain special instructions before use.

Do not handle until all safety precautions have been read and understood.

Avoid breathing dust/fume/gas/mist/vapors/spray.

Contaminated work clothing should not be allowed out of the workplace.

Wash hands thoroughly after handling.

Wear protective gloves/clothing and eye/face protection.

Avoid release to the environment.

#### **Precautionary Statements - Response**

Specific treatment (see First aid on this SDS).

IF exposed or concerned: Get medical advice/attention.

Eyes

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

Skin

IF ON SKIN: Wash with plenty of soap and water.

If skin irritation or rash occurs: Get medical advice/attention.

Take off contaminated clothing and wash before reuse.

## **Precautionary Statements - Storage**

Store locked up.

#### **Precautionary Statements - Disposal**

Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable.

#### Other hazards which do not result in classification

Harmful to aquatic life.

# Section 3: Composition/information on ingredients

Chemical name	CAS No.	Weight-%
Diethyl phthalate	84-66-2	30-60
2-Cyclohexen-1-one, 2-methyl-5-(1-methylethenyl)-, (R)-; (L-Carvone)	6485-40-1	10-<30
Menthol	89-78-1	10-<30
Methyl salicylate	119-36-8	1-<10
d-Limonene	5989-27-5	1-<10
1,8-Cineole	470-82-6	1-<10
.betaCaryophyllene	87-44-5	<1

Chemical name	CAS No.	Weight-%
Other component(s)	-	to 100

# Section 4: First-aid measures

## Description of first aid measures

General advice	For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor.
Inhalation	Remove to fresh air. (Call a physician if symptoms occur).
Eye contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Do not rub affected area. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately if symptoms occur.
Skin contact	Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation develops and persists.
Ingestion	Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. If symptoms persist, call a physician.

## Most important symptoms and effects, both acute and delayed

Symptoms	Irritating. May cause redness and tearing of the eyes. May cause allergic skin reaction. Redness. Rashes. Hives.
Effects of Exposure	No information available.
Indication of any immediate medical attention and special treatment needed	
Note to physicians	May cause sensitization by skin contact. Can cause corneal burns. Treat symptomatically.

# Section 5: Fire-fighting measures

Suitable Extinguishing Media		
Suitable Extinguishing Media	Dry chemical, CO2, water spray or alcohol-resistant foam.	
Unsuitable extinguishing media	No information available.	
Specific hazards arising from the chemical		
Specific hazards arising from the chemical	Combustible liquid. On burning will emit toxic fumes, including those of oxides of carbon. In the event of fire, cool tanks with water spray. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.	
Hazardous combustion products	Oxides of carbon.	
Special protective actions for fire-fighters		
Special protective equipment and precautions for fire-fighters	Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear.	

# Section 6: Accidental release measures

## Personal precautions, protective equipment and emergency procedures

Personal precautions	Avoid contact with skin, eyes or clothing. Ensure adequate ventilation. Evacuate personnel to safe areas. Use personal protective equipment as required. Keep people away from and upwind of spill/leak. Do not touch or walk through spilled material. Wash thoroughly after handling. Remove all sources of ignition. See section 8 for more information.	
Other information	Ventilate the area. Refer to protective measures listed in Sections 7 and 8.	
For emergency responders	Shut off ignition sources. Clear area of all unprotected personnel. Use personal protection recommended in Section 8.	
Environmental precautions		
Environmental precautions	Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Refer to protective measures listed in Sections 7 and 8.	
Methods and material for containment and cleaning up		
Methods for containment	Stop leak if you can do it without risk. Do not touch or walk through spilled material. Remove	
	ignition sources. Provide adequate ventilation. Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Provide adequate ventilation.	
Methods for cleaning up	ignition sources. Provide adequate ventilation. Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Provide adequate	
Methods for cleaning up Precautions to prevent secondary	ignition sources. Provide adequate ventilation. Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Provide adequate ventilation. Dam up. Soak up with inert absorbent material. Use personal protective equipment as required. Pick up and transfer to properly labeled containers.	

# Section 7: Handling and storage

## Precautions for safe handling

Advice on safe handling	Obtain special instructions before use. Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing. Avoid breathing dust/fume/gas/mist/vapors/spray. Ensure adequate ventilation. Wash thoroughly after handling. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use according to package label instructions. Do not handle until all safety precautions have been read and understood. Not to be used by pregnant workers and workers who have recently given birth or who are breastfeeding. Keep out of reach of children.
General hygiene considerations	Do not eat, drink or smoke when using this product. Regular cleaning of equipment, work area and clothing is recommended. Wash hands and face before breaks and immediately after handling the product. Avoid contact with skin, eyes or clothing. Wear suitable gloves and eye/face protection.
Conditions for safe storage, includ	ing any incompatibilities
Storage Conditions	Store locked up. Keep container tightly closed in a dry and well-ventilated place. Protect

**Conditions** Store locked up. Keep container tightly closed in a dry and well-ventilated place. Protect from direct sunlight. Store away from incompatible materials (refer to SDS). Store away from foodstuffs and sources of heat or ignition. Store away from incompatible materials described in Section 10.

Incompatible materials

Strong oxidizing agents.

# Section 8: Exposure controls/personal protection

#### Control parameters

Exposure Limits

No value assigned for this specific material by the New Zealand Workplace Health & Safety Authority. However, Workplace Exposure Standard(s) for constituents:.

Chemical name	New Zealand	Australia	ACGIH TLV	United Kingdom
Diethyl phthalate	TWA: 5 mg/m <sup>3</sup>	8hr TWA = 5 mg/m <sup>3</sup>	TWA: 5 mg/m <sup>3</sup>	TWA: 5 mg/m <sup>3</sup>
84-66-2				STEL: 10 mg/m <sup>3</sup>

As published by the New Zealand Workplace Health & Safety Authority.

WES - TWA (Workplace Exposure Standard - Time Weighted Average) - The eight-hour, time-weighted average exposure standard is designed to protect the worker from the effects of long-term exposure.

These Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. The exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity. <u>Appropriate engineering controls</u>

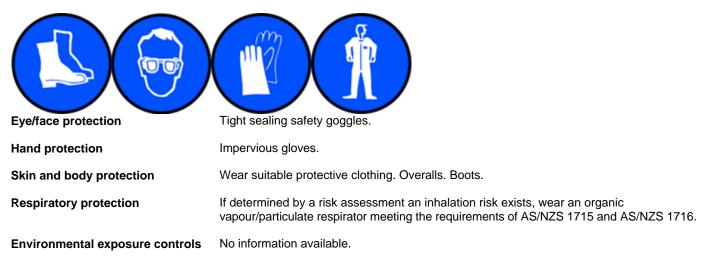

**Engineering controls** Ensure adequate ventilation, especially in confined areas. Apply technical measures to comply with the occupational exposure limits.

If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

#### Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, CHEMICAL GOGGLES, GLOVES.

Method

# Section 9: Physical and chemical properties

## Information on basic physical and chemical properties Physical state

Appearance	Clear	
Color	Colourless to Light yellow	
Odor	Fresh Mint Spicy	
Odor threshold	No information available	
<u>Property</u>	Values	Remarks • Meth
рН	No data available	None known
Melting point / freezing point	No data available	None known
Boiling point / boiling range	No data available	None known
Flash point	98 °C	CC (closed cup)
Evaporation rate	No data available	None known
Flammability (solid, gas)	No data available	None known
Flammability Limit in Air		None known
Upper flammability or explosive	No data available	
limits		
Lower flammability or explosive	No data available	
limits		
Vapor pressure	No data available	None known
Vapor density	No data available	None known
Relative density	1.029 - 1.049 @20°C	None known
Water solubility	No data available	None known
Solubility(ies)	No data available	None known
Partition coefficient	No data available	None known
Autoignition temperature	No data available	None known
Decomposition temperature		None known
Kinematic viscosity	No data available	None known
Dynamic viscosity	No data available	None known
· ·		

Other information Particle characteristics

# Section 10: Stability and reactivity

Reactivity	
Reactivity	No information available.
Chemical stability	
Stability	Stable under normal conditions.
Explosion data	
Sensitivity to mechanical impact	None.
Sensitivity to static discharge	None.
Possibility of hazardous reactions	
Possibility of hazardous reactions	None under normal processing.
Conditions to avoid	
Conditions to avoid	Keep away from open flames, hot surfaces and sources of ignition. Do not contaminate food

or feed stuffs.

Incompatible materials

Incompatible materials Strong oxidizing agents.

Hazardous decomposition products

Hazardous decomposition products Oxides of carbon.

# Section 11: Toxicological information

## Acute toxicity

Information on likely routes of exposure

Product Information	No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are:
Inhalation	May cause irritation.
Eye contact	Causes serious eye damage. May cause irreversible damage to eyes.
Skin contact	Causes skin irritation. May cause sensitization by skin contact.
Ingestion	Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.
Symptoms	Irritating. May cause redness and tearing of the eyes. May cause allergic skin reaction. Redness. Rashes. Hives.
Acute toxicity	

Numerical measures of toxicity

Component Information			
Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
Diethyl phthalate	= 8600 mg/kg (Rat)	> 11200 mg/kg (Rat)	>4.64 mg/L (Rat)6 h
2-Cyclohexen-1-one, 2-methyl-5-(1-methylethenyl)-, (R)-; (L-Carvone)	= 5400 mg/kg (Rat)	> 2000 mg/kg (Rat)	-
Menthol	= 3180 mg/kg (Rat)	-	= 5289 mg/m³ (Rat)4 h
Methyl salicylate	= 887 mg/kg (Rat)	> 5000 mg/kg (Rabbit)	-
d-Limonene	= 5200 mg/kg (Rat)	> 5 g/kg (Rabbit)	-
	= 4400 mg/kg (Rat)		
1,8-Cineole	= 2480 mg/kg (Rat)	-	-

# Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritation

Causes skin irritation. Classification is based on mixture calculation methods based on component data.

Serious eye damage/eye irritation	Causes serious eye damage. Classification is based on mixture calculation methods based on component data.
Respiratory or skin sensitization	May cause sensitization by skin contact. Classification is based on mixture calculation methods based on component data.
Germ cell mutagenicity	No information available.

# Carcinogenicity

The table below indicates whether each agency has listed any ingredient as a carcinogen.

Chemical name		New Zealand	IARC
d-Limonene - 5989-27-5	5	-	Group 3
Reproductive toxicity	•	<sup>i</sup> damaging the unborn child. Classificati ed on component data.	on is based on mixture calculation
STOT - single exposure	No informatio	on available.	
STOT - repeated exposure	No informatio	on available.	
Aspiration hazard	No informatio	on available.	
Data used to identify the health effects	Refer to Sect SDS.	ion 16 for Key literature references and	sources for data used to compile the

# Section 12: Ecological information

# **Ecotoxicity**

Aquatic ecotoxicity

Avoid contaminating waterways. Harmful to aquatic life with long lasting effects.

Chemical name	Algae/aquatic plants	Fish	Crustacea
Diethyl phthalate	EC50: =23mg/L (72h,	LC50: =17mg/L (96h,	EC50: 36 - 74mg/L (48h,
	Desmodesmus subspicatus)	Pimephales promelas)	Daphnia magna)
	EC50: =21mg/L (96h,	LC50: =16.8mg/L (96h,	EC50: =86mg/L (48h, Daphnia
	Desmodesmus subspicatus)	Pimephales promelas)	magna)
	EC50: 42 - 255mg/L (72h,	LC50: =22mg/L (96h, Lepomis	
	Pseudokirchneriella	macrochirus)	
	subcapitata)	LC50: =16.7mg/L (96h,	
	EC50: 2.11 - 4.29mg/L (96h,	Lepomis macrochirus)	
	Pseudokirchneriella	LC50: =12mg/L (96h,	
	subcapitata)	Oncorhynchus mykiss)	
2-Cyclohexen-1-one,	-	LC50: =6.1mg/L (96h,	-
2-methyl-5-(1-methylethenyl)-, (R)-;		Oncorhynchus mykiss)	
(L-Carvone)			
d-Limonene	-		LC50 Daphnia magna (Water
		Pimephales promelas)	flea) 0.577 mg/L/48 hr (1)
		LC50: =35mg/L (96h,	
		Oncorhynchus mykiss)	
1,8-Cineole	-	LC50: 95.4 - 109mg/L (96h,	-

Pimephales promelas)

## **Terrestrial ecotoxicity**

Chemical name	Earthworm	Avian	Honeybees
Diethyl phthalate	LC50 0.66 - 1.09 mg/cm2 (Eisenia foetida 48 h filter paper)	_	-

Persistence and degradability No information available.

## **Bioaccumulative potential**

**Bioaccumulation** 

There is no data for this product.

## Component Information

Chemical name	Partition coefficient
Diethyl phthalate	2.2
2-Cyclohexen-1-one, 2-methyl-5-(1-methylethenyl)-, (R)-; (L-Carvone)	2.74
Menthol	3.4
Methyl salicylate	2.55
d-Limonene	4.23
1,8-Cineole	3.4
.betaCaryophyllene	1.648

## Mobility in soil

Mobility

No information available.

## Other adverse effects

No information available.

# Section 13: Disposal considerations

## Waste treatment methods

Waste from residues/unused products	Dispose of product in packaging in a way that is consistent with the EPA Consolidation 30 April 2021 of the Hazardous Substances (Disposal) Notice 2017 and the Act. Treat the substance using a method that changes the characteristics or composition of the substance so that the substance is no longer a hazardous substance; or export the substance from New Zealand as waste.
Contaminated packaging	For packages that have been in direct contact with hazardous substances, the person must ensure that the package is rendered incapable of containing any substance. It must be disposed of in a manner that is consistent with the requirements for disposal of the substance that it contained, taking into account the material the package is manufactured from. Packages may only be reused or recycled if: - the substance has a physical hazard other than corrosive to metal, and has been treated to remove any residual contents of the hazardous substance; - or for substances that have a health or environmental hazard, or corrosive to metal, the contents of the residue in the package are below the threshold for the substance to be classified as hazardous in the Hazardous Substances (Hazard Classification) Notice 2020.

# Section 14: Transport information

ROAD AND RAIL TRANSPORT	Not classified as a Dangerous Good under NZS 5433 Transport of Dangerous Goods on Land; NON-DANGEROUS GOODS.
IATA_	Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS.
IMDG	Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code No information available

#### Special precautions for user

Please refer to the applicable dangerous goods regulations for additional information

# Section 15: Regulatory information

#### Safety, health and environmental regulations/legislation specific for the substance or mixture

EPA New Zealand HSNO approval code or group standard	HSR002503 - Additives, Process Chemicals and Raw Materials (Subsidiary Hazard)
National regulations	There are no applicable tolerable exposure limits or environmental exposure limits according to the EPA Controls for Hazardous Substances
Certified handlers, tracking and controlled substance license requirements	Certified handlers are required for some substances. This includes substances requiring a controlled substance license, and most explosives, vertebrates toxic agents, and certain fumigants. Acutely toxic substances which are a Category 1 or 2, such as pesticides also require Certified handlers. Please check the Health and Safety at Work Act 2015 for further information Tracking is required for some highly hazardous substances. These substances need to be under the control of an appropriately trained person or appropriately secured. Please check the Health and Safety at Work Act 2015 for further information Controlled substance licenses are required to possess certain explosives, vertebrate toxic agents and fumigants. See Part 7 of the Health and Safety at Work Regulation 2017 for more information

#### International Regulations

The Montreal Protocol on Substances that Deplete the Ozone Layer Not applicable

The Stockholm Convention on Persistent Organic Pollutants Not applicable

The Rotterdam Convention Not applicable

International Inventories	
NZIoC	All the constituents of this material are listed on the New Zealand Inventory of Chemicals.
TSCA	Contact supplier for inventory compliance status.
DSL/NDSL	Contact supplier for inventory compliance status.
EINECS/ELINCS	Contact supplier for inventory compliance status.
ENCS	Contact supplier for inventory compliance status.
IECSC	Contact supplier for inventory compliance status.
KECL	Contact supplier for inventory compliance status.
PICCS	Contact supplier for inventory compliance status.
AIIC	All the constituents of this material are listed on the Australian Inventory of Industrial

TCSI

Chemicals.

Contact supplier for inventory compliance status.
