SAFETY DATA SHEET

Revision date: 18-May-2020

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product identifier				
Product Name	TARTARIC ACID			
Product Code(s)	00000034355			
Other means of identification				
CAS No.	87-69-4			
Recommended use of the chemical	and restrictions on use			
Recommended use	Foodstuffs.			
Uses advised against	No information available.			
Details of the supplier of the safety	data sheet			
<u>Supplier</u> Ixom Operations Pty Ltd (Bronson & Jacobs division) - incorporated in Australia Street Address: 166 Totara Street Mt Maunganui South New Zealand				
Telephone Number: +64 9 309 2528 Facsimile: +64 9 0508 366 364				
For further information, please contact				
Contact Point	Product Safety Department			
Emergency telephone number				
Emergency Telephone	0 800 734 607 (ALL HOURS)			

2. HAZARDS IDENTIFICATION

Not classified as a Dangerous Good under NZS 5433:2012 Transport of Dangerous Goods on Land.

Classified as hazardous according to criteria in the Hazardous Substances (Minimum Degrees of Hazard) Notice 2017 and the Hazardous Substances (Classification) Notice 2017.

GHS Classification

Approval Number: HSR003472

Acute aquatic toxicity	Category 3 - (HSNO 9.1C)
Chronic aquatic toxicity	Category 3 - (HSNO 9.1C)

Label elements

Hazard statements

H412 - Harmful to aquatic life with long lasting effects

Precautionary Statements - Prevention

Avoid release to the environment

Precautionary Statements - Disposal

In the case of a substance that is in compliance with a HSNO approval other than a Part 6A (Group Standards) approval, a label must provide a description of one or more appropriate and achievable methods for the disposal of a substance in accordance with the Hazardous Substances (Disposal) Notice 2017. This may also include any method of disposal that must be avoided.

Other hazards which do not result in classification

May form combustible dust concentrations in air

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance

Chemical name	CAS No.	Weight-%
Tartaric acid	87-69-4	100

4. FIRST AID MEASURES

Description of first aid measures

General advice	For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor.		
Emergency telephone number	Poisons Information Center, New Zealand: 0800 764 766 Poisons Information Center, Australia: 13 11 26		
Inhalation	Move victim to fresh air. Get medical attention immediately if symptoms occur.		
Eye contact	Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Consult a physician.		
Skin contact	Wash skin with soap and water.		
Ingestion	Get medical attention if symptoms occur.		
Most important symptoms and effects, both acute and delayed			
Symptoms	No information available.		
Indication of any immediate medical attention and special treatment needed			
Note to physicians	Can cause corneal burns.		
5 FIDE FIGHTING MEASU	DEC		

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media

Suitable Extinguishing Media Dry chemical, CO2, water spray or regular foam.

Unsuitable extinguishing media

Specific hazards arising from the chemical			
Specific hazards arising from the chemical	Avoid generation of dust. Fine dust dispersed in air may ignite.		
Hazardous combustion products	Carbon oxides.		
Special protective actions for fire-f	ighters_		
Special protective equipment for fire-fighters	Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.		
6. ACCIDENTAL RELEASE	E MEASURES		
Personal precautions, protective e	quipment and emergency procedures		
Personal precautions	Take precautionary measures against static discharges.		
Other information	ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).		
For emergency responders	Use personal protection recommended in Section 8.		
Environmental precautions			
Environmental precautions	See Section 12 for additional Ecological Information.		
Methods and material for containm	ent and cleaning up		
Methods for containment	Prevent further leakage or spillage if safe to do so.		
Methods for cleaning up	Use appropriate personal protective equipment (PPE). Carefully shovel or sweep up spilled material and place in suitable container. Avoid generating dust.		
Precautions to prevent secondary hazards			
Prevention of secondary hazards	Clean contaminated objects and areas thoroughly observing environmental regulations.		

No information available.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling Avoid generation of dust. Do not smoke. Ensure adequate ventilation. Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Ground and bond all lines and equipment associated with product system. All equipment should be non-sparking and explosion proof.

Conditions for safe storage, including any incompatibilities Storage Conditions Keep containers tightly closed in a dry, cool and well-ventilated place. Incompatible materials Bases. Oxidizing agents. Reducing agents. Silver. Fluorine.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure Limits

No value assigned for this specific material by the New Zealand Workplace Health & Safety Authority. However, Workplace Exposure Standard(s) for particulate(s):

Biological occupational exposure limits

Particulates not otherwise classified: 8hr WES-TWA 10 mg/m³ (inhalable dust) or 3 mg/m³ (respirable dust)

As published by the New Zealand Workplace Health & Safety Authority.

WES - TWA (Workplace Exposure Standard - Time Weighted Average) - The eight-hour, time-weighted average exposure standard is designed to protect the worker from the effects of long-term exposure.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

Appropriate engineering controls

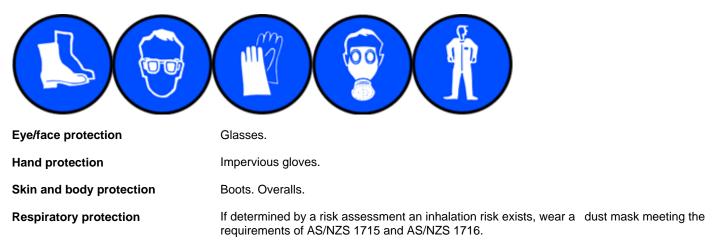

Engineering controls Apply technical measures to comply with the occupational exposure limits.

If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVES, DUST MASK.

Environmental exposure controls No information available.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties			
Physical state Solid			
Appearance	No information available		
Color	White		
Odor	Odourless.		
Odor threshold	No information available.		

Property_	Values
рН	No data available
Melting point / freezing point	169°C
Boiling point / boiling range	179.1°C
Flash point	>100°C
Evaporation rate	No data available
Flammability (solid, gas)	No data available
Flammability Limit in Air	
Upper flammability or explosive	No data available
limits	
Lower flammability or explosive	No data available
limits	
Vapor pressure	<5 Pa @20°C
Vapor density	No data available
Relative density	1.76 @20°C
Water solubility	Soluble in water
Solubility(ies)	No data available
Partition coefficient	No data available
Autoignition temperature	375°C
Decomposition temperature	No data available
Kinematic viscosity	No data available
Dynamic viscosity	No data available

Remarks • Method

None known None known CC (closed cup) None known None known None known

None known None known None known None known None known None known None known None known

Other information

10. STABILITY AND REACTIVITY

Reactivity_	
Reactivity	No information available.
Chemical stability	
Stability	Stable under normal conditions.
Explosion data	
Sensitivity to mechanical impact	None.
Sensitivity to static discharge	None.
Possibility of hazardous reactions	
Hazardous polymerization	Hazardous polymerization does not occur.
Possibility of hazardous reactions	Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition

	source is a potential dust explosion hazard.
Conditions to avoid	
Conditions to avoid	Heat, flames and sparks.
Incompatible materials	
Incompatible materials	Bases. Oxidizing agents. Reducing agents. Silver. Fluorine.
Hazardous decomposition products	

Hazardous decomposition products Carbon oxides.

11. TOXICOLOGICAL INFORMATION

Acute toxicity

Information on likely routes of exposure

Product Information	No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are:
Inhalation	Inhalation of dust in high concentration may cause irritation of respiratory system.
Eye contact	Dust contact with the eyes can lead to mechanical irritation.
Skin contact	Contact with dust can cause mechanical irritation or drying of the skin.
Ingestion	May cause gastrointestinal discomfort if consumed in large amounts.
Symptoms	No information available.
Acute toxicity	
Numerical measures of toxicity No information available.	
Oral LD50 Inhalation LC50	> 5000 mg/kg (rat) > 5 mg/l /4hr
See section 16 for terms and abbrevia	ations
Delayed and immediate effects as v	vell as chronic effects from short and long-term exposure
Skin corrosion/irritation	Not classified.
Serious eye damage/eye irritation	Causes serious eye damage.
Sensitization	Not classified.
Germ cell mutagenicity	Not classified.
Carcinogenicity	Not classified.
Reproductive toxicity	Not classified.
STOT - single exposure	Not classified.

STOT - repeated exposure	Not classified.
Aspiration hazard	Not classified.

12. ECOLOGICAL INFORMATION

Ecotoxicity

Ecotoxicity

Keep out of waterways. Harmful to aquatic life with long lasting effects.

Chemical name	Algae/aquatic plants	Fish	Crustacea	
Tartaric acid	-	LC50: >100mg/L (96h, Danio rerio)	-	
Persistence and degradability Persistence and degradability	Readily biodegradable.	· · · · · · · · · · · · · · · · · · ·		
Bioaccumulative potential				
Bioaccumulation	No information available.			
<u>Mobility</u>				
Mobility in soil	No information available.			
Other adverse effects				
Other adverse effects	No information available.			
13. DISPOSAL CONSID	ERATIONS			
Waste treatment methods				
Waste from residues/unused products	Dispose of in accordance environmental legislation.	with local regulations. Dispose of v	waste in accordance with	
Contaminated packaging	Do not reuse empty conta	Do not reuse empty containers.		
14. TRANSPORT INFOR	MATION			
ROAD AND RAIL TRANSPORT	Not classified as a Dange on Land.	rous Good under NZS 5433:2012 ⁻	Transport of Dangerous Goods	
IATA		us Goods by the criteria of the Inte rous Goods Regulations for transp DDS.		
IMDG_		us Goods by the criteria of the Inte		

15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

New Zealand

National regulations

See section 8 for national exposure control parameters

Chemical name	New Zealand HSNO Chemical Classification
Tartaric acid - 87-69-4	9.1C (All),9.1C (C)

International Inventories	
NZIoC	This material is listed on the New Zealand Inventory of Chemicals.
TSCA	Contact supplier for inventory compliance status.
DSL/NDSL	Contact supplier for inventory compliance status.
EINECS/ELINCS	Contact supplier for inventory compliance status.
ENCS	Contact supplier for inventory compliance status.
IECSC	Contact supplier for inventory compliance status.
KECL	Contact supplier for inventory compliance status.
PICCS	Contact supplier for inventory compliance status.
AICS	This material is listed on the Australian Inventory of Chemical Substances.

Legend:

NZIOC - New Zealand Inventory of Chemicals

TSCA - United States Toxic Substances Control Act Section 8(b) Inventory

DSL/NDSL - Canadian Domestic Substances List/Non-Domestic Substances List

EINECS/ELINCS - European Inventory of Existing Chemical Substances/European List of Notified Chemical Substances

ENCS - Japan Existing and New Chemical Substances

IECSC - China Inventory of Existing Chemical Substances

KECL - Korean Existing and Evaluated Chemical Substances

PICCS - Philippines Inventory of Chemicals and Chemical Substances

AICS - Australian Inventory of Chemical Substances

International Regulations

The Montreal Protocol on Substances that Deplete the Ozone Layer Not applicable

The Stockholm Convention on Persistent Organic Pollutants Not applicable

The Rotterdam Convention Not applicable

16. OTHER INFORMATION

Supplier Safety Data Sheet 07/2018

Prepared By	This Safety Data Sheet has been prepared by Ixom Operations Pty Ltd (Toxicology and SDS Services).
Issuing Date:	18-May-2020
Reason(s) For Issue:	5 Yearly Revised Primary SDS

Revision Note:

The symbol (*) in the margin of this SDS indicates that this line has been revised.

Disclaimer

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Ixom Operations Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their Bronson & Jacobs representative or Ixom Operations Pty Ltd at the contact details on page 1.

Ixom Operations Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.

Bronson and Jacobs incorporating the businesses of Woods and Woods and Keith Harris.
