# SAFETY DATA SHEET

Revision date: 12-Apr-2021

# 1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product identifier	
Product Name	AMARANTH
Product Code(s)	00000034887
Other means of identification	
CAS No.	915-67-3
Chemical name	2,7-Naphthalenedisulfonic acid, 3-hydroxy-4-[(4-sulfo-1-naphthalenyl)azo]-, trisodium salt
Synonyms	United Colours Amaranth Dye Powder; United Colours Amaranth Granular; Amaranth Colour C309; Exacol Amaranth; Exagran Amaranth
Recommended use of the chemical	and restrictions on use
Recommended use	Coloring agent
Uses advised against	No information available.
Details of the supplier of the safety	data sheet
<u>Supplier</u> Ixom Operations Pty Ltd (Bronson & J Street Address: 166 Totara Street Mt Maunganui South New Zealand	acobs division) - incorporated in Australia
Telephone Number: +64 9 309 2528 Facsimile: +64 9 0508 366 364	
For further information, please cont	act
Contact Point	Product Safety Department
Emergency telephone number	
Emergency Telephone	0 800 734 607 (ALL HOURS)
<b></b>	

# 2. HAZARDS IDENTIFICATION

Not classified as a Dangerous Good under NZS 5433 Transport of Dangerous Goods on Land.

Based on available information, not classified as hazardous according to criteria in the Hazardous Substances (Minimum Degrees of Hazard) Notice 2017 and the Hazardous Substances (Classification) Notice 2017.

### **GHS Classification**

### Revision Number 5

Label elements

Hazard statements

Other hazards which do not result in classification Dust can form an explosive mixture with air

# **3. COMPOSITION/INFORMATION ON INGREDIENTS**

#### Substance

chemical

Chemical name	CAS No.	Weight-%
C.I. Food Red 9	915-67-3	100

# 4. FIRST AID MEASURES

### Description of first aid measures

Emergency telephone number	Poisons Information Center, New Zealand: 0800 764 766 Poisons Information Center, Australia: 13 11 26	
Inhalation	Remove to fresh air. Call a physician if symptoms occur.	
Eye contact	Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Consult a physician.	
Skin contact	Wash skin with soap and water. Call a physician if symptoms occur.	
Ingestion	Clean mouth with water and drink afterwards plenty of water. Do NOT induce vomiting. Get medical attention if symptoms occur.	

Most important symptoms and effects, both acute and delayed

Symptoms No information available.

Indication of any immediate medical attention and special treatment needed

Note to physicians Treat symptomatically.

5. FIRE FIGHTING MEASURES			
Suitable Extinguishing Media			
Suitable Extinguishing Media	Dry chemical or CO2. Foam.		
Unsuitable extinguishing media	Do not use straight streams.		
Specific hazards arising from the chemical			
Specific hazards arising from the	Combustible material. Dust can form an explosive mixture with air. Avoid generation of dust.		

Hazardous combustion products Carbon oxides. Nitrogen oxides. Hydrogen cyanide. Oxides of sulfur.

#### Special protective actions for fire-fighters

Special protective equipment for<br/>fire-fightersFirefighters should wear self-contained breathing apparatus and full firefighting turnout<br/>gear. Use personal protection equipment.

### 6. ACCIDENTAL RELEASE MEASURES

#### Personal precautions, protective equipment and emergency procedures

Personal precautions	Avoid contact with skin and eyes. Avoid breathing dust or spray mist. Avoid generation of dust. Ensure adequate ventilation. Do not touch or walk through spilled material. Remove all sources of ignition. Take precautionary measures against static discharges. Evacuate personnel to safe areas. Wash thoroughly after handling.		
For emergency responders	Use personal protection recommended in Section 8.		
Environmental precautions			
Environmental precautions	Prevent product from entering drains.		
Methods and material for containment and cleaning up			
Methods for containment	Prevent further leakage or spillage if safe to do so.		
Methods for cleaning up	Use appropriate personal protective equipment (PPE). Carefully shovel or sweep up spilled material and place in suitable container. Avoid generating dust. Use only non-sparking tools.		
Precautions to prevent secondary bazards			

#### Precautions to prevent secondary hazards

**Prevention of secondary hazards** Clean contaminated objects and areas thoroughly observing environmental regulations.

## 7. HANDLING AND STORAGE

#### Precautions for safe handling

Advice on safe handling Advice on safe handling Avoid contact with skin and eyes. Avoid breathing dust or spray mist. Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Avoid generation of dust. Ground and bond all lines and equipment associated with product system. All equipment should be non-sparking and explosion proof. Take precautionary measures against static discharges.

Conditions for safe storage, including any incompatibilities

Storage Conditions	Keep containers tightly closed in a dry, cool and well-ventilated place. Store away from sources of heat or ignition. Keep container closed when not in use.
Incompatible materials	Strong acids. Strong bases. Oxidizing agents. Reducing agents.

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Control parameters

#### Exposure Limits

No value assigned for this specific material by the New Zealand Workplace Health & Safety Authority. However, Workplace Exposure Standard(s) for particulate(s):

Particulates not otherwise classified: 8hr WES-TWA 10 mg/m3 (inhalable dust) or 3 mg/m3 (respirable dust)

As published by the New Zealand Workplace Health & Safety Authority.

WES - TWA (Workplace Exposure Standard - Time Weighted Average) - The eight-hour, time-weighted average exposure standard is designed to protect the worker from the effects of long-term exposure.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

#### Appropriate engineering controls

Engineering controls

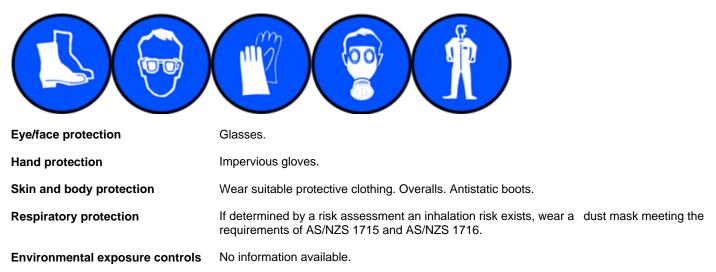

Apply technical measures to comply with the occupational exposure limits.

If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

#### Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVES, DUST MASK.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and o		
Physical state	Solid	
Appearance	Powder or Granules	
Color	Reddish Brown	
Odor	Odourless	
Odor threshold	No information available.	
Property	Values	Remarks • Method
pH	7 - 8	aqueous solution
Melting point / freezing point	No data available	None known
Boiling point / boiling range	No data available	None known
Flash point	No data available	None known
Evaporation rate	No data available	None known
Flammability (solid, gas)	No data available	None known
Flammability Limit in Air		None known
Upper flammability or explosive	No data available	
limits		
Lower flammability or explosive	No data available	
limits		
Vapor pressure	No data available	None known
Vapor density	No data available	None known
Relative density	No data available	None known
Water solubility	No data available	None known
Solubility(ies)	Dispersible in water	None known
Partition coefficient	No data available	None known
Autoignition temperature	No data available	None known
Decomposition temperature	No data available	None known
Kinematic viscosity	No data available	None known
Dynamic viscosity	No data available	None known

Other information

# **10. STABILITY AND REACTIVITY**

Reactivity	
Reactivity	No information available.
Chemical stability	
Stability	Stable under normal conditions.
Explosion data	
Sensitivity to mechanical impact	None.
Sensitivity to static discharge	Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.
Possibility of hazardous reactions	
Possibility of hazardous reactions	Dust can form an explosive mixture with air.
Possibility of hazardous reactions Conditions to avoid	Dust can form an explosive mixture with air.
-	Dust can form an explosive mixture with air. Dust formation. Static discharge (electrostatic discharge). Direct sunlight. Moisture.
Conditions to avoid	
Conditions to avoid	

### Hazardous decomposition products

Hazardous decomposition products Carbon oxides. Nitrogen oxides. Hydrogen cyanide. Oxides of sulfur.

# **11. TOXICOLOGICAL INFORMATION**

#### Acute toxicity

Information on likely routes of exposure

Product Information	No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are:	
Inhalation	May cause irritation of respiratory tract.	
Eye contact	Dust contact with the eyes can lead to mechanical irritation.	
Skin contact	Prolonged or repeated contact may dry skin and cause irritation.	
Ingestion	May cause gastrointestinal discomfort if consumed in large amounts.	
Symptoms	No information available.	
Acute toxicity		

Numerical measures of toxicity

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
C.I. Food Red 9	= 6 g/kg (Rat)	-	-

See section 16 for terms and abbreviations

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritation	No information available.
---------------------------	---------------------------

Serious eye damage/eye irritation No information available.

Germ cell mutagenicity No information available.

Carcinogenicity

No information available.

Chemical name		New Zealand	IARC
C.I. Food Red 9 - 915-67	′-3		Group 3
Reproductive toxicity	No informatio	on available.	
STOT - single exposure	No informatio	on available.	
STOT - repeated exposure	No information	on available.	
Aspiration hazard	No information	on available.	

# 12. ECOLOGICAL INFORMATION

#### **Ecotoxicity**

Ecotoxicity Terrestrial ecotoxicity	Keep out of waterways. There is no data for this product.		
Persistence and degradability Persistence and degradability	No information available.		
Bioaccumulative potential Bioaccumulation	No information available.		
<u>Mobility</u> Mobility in soil	No information available.		
Other adverse effects Other adverse effects	No information available.		
13. DISPOSAL CONSIDERATIONS			

Waste treatment methods

Waste from residues/unused products	Dispose of in accordance with federal, state and local regulations Dispose of waste in accordance with environmental legislation
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal.

# 14. TRANSPORT INFORMATION

ROAD AND RAIL TRANSPORT	Not classified as a Dangerous Good under NZS 5433 Transport of Dangerous Goods on Land.
<u>IATA</u>	Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS.
IMDG	Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS.

# **15. REGULATORY INFORMATION**

### Safety, health and environmental regulations/legislation specific for the substance or mixture

#### New Zealand

National regulations See section 8 for national exposure control parameters International Inventories This material is listed on the New Zealand Inventory of Chemicals. NZIOC Contact supplier for inventory compliance status. TSCA DSL/NDSL Contact supplier for inventory compliance status. Contact supplier for inventory compliance status. **EINECS/ELINCS** Contact supplier for inventory compliance status. ENCS IECSC Contact supplier for inventory compliance status. KECL Contact supplier for inventory compliance status. Contact supplier for inventory compliance status. PICCS This material is listed on the Australian Inventory of Industrial Chemicals. AICS Leaend: NZIOC - New Zealand Inventory of Chemicals **TSCA** - United States Toxic Substances Control Act Section 8(b) Inventory DSL/NDSL - Canadian Domestic Substances List/Non-Domestic Substances List EINECS/ELINCS - European Inventory of Existing Chemical Substances/European List of Notified Chemical Substances

**ENCS** - Japan Existing and New Chemical Substances

**IECSC** - China Inventory of Existing Chemical Substances

KECL - Korean Existing and Evaluated Chemical Substances

**PICCS** - Philippines Inventory of Chemicals and Chemical Substances

- Australian Inventory of Industrial Chemicals

International Regulations

The Montreal Protocol on Substances that Deplete the Ozone Layer Not applicable

The Stockholm Convention on Persistent Organic Pollutants Not applicable

The Rotterdam Convention Not applicable

### **16. OTHER INFORMATION**

Supplier Safety Data Sheet; 05/ 2019

Prepared By	This Safety Data Sheet has been prepared by Ixom Operations Pty Ltd (Toxicology and SDS Services).
Issuing Date:	12-Apr-2021
Reason(s) For Issue:	5 Yearly Revised Primary SDS

**Revision Note:** 

The symbol (\*) in the margin of this SDS indicates that this line has been revised.

#### Key or legend to abbreviations and acronyms used in the safety data sheet

Legend Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION			
TWA	TWA (time-weighted average)	STEL	
Ceiling	Maximum limit value	*	
С	Carcinogen

#### Disclaimer

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Ixom Operations Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their Bronson & Jacobs representative or Ixom Operations Pty Ltd at the contact details on page 1.

Ixom Operations Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.

Bronson and Jacobs incorporating the businesses of Woods and Woods and Keith Harris.
