-	Nuitele la Factio auticlaire e Mardia

### Suitable Extinguishing Media

Suitable Extinguishing Media Water spray. Alcohol resistant foam. Carbon dioxide (CO2).

**Unsuitable extinguishing media** No information available.

Specific hazards arising from the chemical

Specific hazards arising from the chemical Combustible liquid. Cool drums with water spray. Applying foam will release significant amounts of hydrogen gas that can be trapped under the foam blanket. Do not allow extinguishing medium to contact container contents. Most fire extinguishing media will cause hydrogen evolution, and once the fire is put out, may accumulate in poorly ventilated or confined areas and result in flash fire or explosion if ignited.

Hazardous combustion products Carbon oxides. Oxides of silicon.

Special protective actions for fire-fighters

Special protective equipment for fire-fighters	Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.

# 6. ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

Personal precautions	Avoid contact with skin and eyes. Avoid breathing vapors or mists. Use personal protective equipment as required. Wash thoroughly after handling.	
For emergency responders	Use personal protection recommended in Section 8.	
Environmental precautions		
Environmental precautions	See Section 12 for additional Ecological Information.	
Methods and material for containment and cleaning up		
Methods for containment	Dike to collect large liquid spills.	
Methods for cleaning up	Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. For large amounts, pump off product.	
Precautions to prevent secondary hazards		
Prevention of secondary hazards	Clean contaminated objects and areas thoroughly observing environmental regulations.	

# 7. HANDLING AND STORAGE

# Precautions for safe handling

Advice on safe handling	Avoid contact with skin and eyes. Avoid breathing vapors or mists. Use personal protection equipment. Wash thoroughly after handling.
Conditions for safe storage, includ	ling any incompatibilities

# Storage Conditions Keep containers tightly closed in a dry, cool and well-ventilated place. Keep at temperatures between 5 °C and 40 °C. Store away from sources of heat or ignition. Keep container closed when not in use. Incompatible metaziele Strong oxide. Alkelia, Strong oxidizing agenta.
