

Revision date: 01-Aug-2022

SAFETY DATA SHEET

Revision Number 2

Section 1: Identification	
Product identifier	
Product Name	SANTICIZER PLATINUM P-1400
Product Code(s)	00000054093
Other means of identification	
CAS No.	1931129-39-3
Recommended use of the chemical	and restrictions on use
Recommended use	Plasticizer. Polymer additive.
Uses advised against	No information available
Details of the supplier of the safety	data sheet
<u>Supplier</u> IXOM Operations Pty Ltd (Incorporate NZBN: 9429041465226 Street Address: 166 Totara Street Mt Maunganui South New Zealand	d in Australia)

Telephone Number: +64 9 368 2700 Facsimile: +64 9 368 2710

Emergency telephone number

Emergency Telephone

0 800 734 607 (ALL HOURS)

Please ensure you refer to the limitations of this Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.

Section 2: Hazard identification

Not classified as a Dangerous Good under NZS 5433 Transport of Dangerous Goods on Land; NON-DANGEROUS GOODS.

Based on available information, not classified as hazardous according to criteria in the Hazardous Substances (Hazard Classification) Notice 2020. GHS Classification

Label elements

Other hazards which do not result in classification Harmful to aquatic life with long lasting effects.

Section 3: Composition/information on ingredients

Chemical name	CAS No.	Weight-%
Benzyl butyl cis-cyclohexane-1,2-dicarboxylate	1931129-39-3	100

Section 4: First-aid measures

Description of first aid measures

General advice	For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor.		
Inhalation	Remove to fresh air. Call a physician if symptoms occur.		
Eye contact	Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Consult a physician.		
Skin contact	Wash skin with soap and water. Call a physician if symptoms occur.		
Ingestion	Rinse mouth thoroughly with water. Do NOT induce vomiting. Get medical attention if symptoms occur.		
Most important symptoms and effe	cts, both acute and delayed		
Symptoms	No information available.		
Effects of Exposure	No information available.		
Indication of any immediate medica	I attention and special treatment needed		
Note to physicians	Treat symptomatically.		
Section 5: Fire-fighting me	easures		
Suitable Extinguishing Media			
Suitable Extinguishing Media	Dry chemical, CO2, water spray or regular foam.		
Unsuitable extinguishing media	Do not use a solid water stream as it may scatter and spread fire.		
Specific hazards arising from the c	hemical		
Specific hazards arising from the chemical	Combustible liquid.		
Hazardous combustion products	Carbon oxides.		
Special protective actions for fire-fi	ghters		

Special protective equipment and Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. **precautions for fire-fighters**

Section 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

Personal precautions	Avoid contact with skin, eyes and inhalation of vapors. Remove all sources of ignition. Evacuate personnel to safe areas. Use personal protective equipment as required. Wash thoroughly after handling.
For emergency responders	Use personal protection recommended in Section 8.
Environmental precautions	
Environmental precautions	Keep out of drains, sewers, ditches and waterways. Do not allow to enter into soil/subsoil.
Methods and material for containme	ent and cleaning up
Methods for containment	Prevent further leakage or spillage if safe to do so.
Methods for cleaning up	Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Dike to collect large liquid spills. After cleaning, flush away traces with water.
Precautions to prevent secondary h	nazards
Prevention of secondary hazards	Clean contaminated objects and areas thoroughly observing environmental regulations.

Section 7: Handling and storage			
Precautions for safe handling			
Advice on safe handling	Avoid contact with skin and eyes. Avoid breathing vapors or mists. Remove all sources of ignition. Use personal protection equipment. Wash thoroughly after handling.		
Conditions for safe storage, including any incompatibilities			
Storage Conditions	Keep in a dry, cool and well-ventilated place. Keep container closed when not in use.		
Incompatible materials	Oxidizing agents.		

Section 8: Exposure controls/personal protection

Control parameters

 Exposure Limits
 No value assigned for this specific material by the New Zealand Workplace Health & Safety Authority.

Appropriate engineering controls

Engineering controls Ensure adequate ventilation, especially in confined areas.

Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVES.

Eye/face protection	Glasses.
Hand protection	Impervious gloves.
Skin and body protection	Overalls. Boots.
Respiratory protection	If determined by a risk assessment an inhalation risk exists, wear an organic vapour/particulate respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716.
Environmental exposure controls	No information available.

Section 9: Physical and chemical properties

Information on basic physical and chemical properties

Information on basic physical and o	chemical properties	
Physical state	Liquid	
Appearance	No information available	
Color	Colourless to Pale Yellow	
Odor	Characteristic	
Odor threshold	No information available	
Property	Values	Remarks • Method
pH	No data available	None known
Melting point / freezing point	No data available	None known
Boiling point / boiling range	252°C	None known
Flash point	>185°C	Pensky-Martens Closed Cup (PMCC)
Evaporation rate	No data available	None known
Flammability (solid, gas)	No data available	None known
Flammability Limit in Air		None known
Upper flammability or explosive	No data available	
limits		
Lower flammability or explosive	No data available	
limits		
Vapor pressure	0.03 mm Hg @25°C	None known
Vapor density	No data available	None known
Relative density	1.07	None known
Water solubility	Negligible	None known
Solubility(ies)	No data available	None known
Partition coefficient	log Kow = 6.81	None known
Autoignition temperature	No data available	None known

Decomposition temperature Kinematic viscosity Dynamic viscosity

No data available No data available None known None known None known

Other information Particle characteristics

Section 10: Stability and reactivity		
Reactivity		
Reactivity	Non-reactive under normal conditions of use, storage and transport.	
Chemical stability		
Stability	Stable under normal conditions.	
Explosion data		
Sensitivity to mechanical impact	None.	
Sensitivity to static discharge	None.	
Possibility of hazardous reactions		
Possibility of hazardous reactions	None under normal processing.	
Conditions to avoid		
Conditions to avoid	Heat, flames and sparks.	
Incompatible materials		
Incompatible materials	Oxidizing agents.	
Hazardous decomposition products	<u>S</u>	
Hazardous decomposition products Carbon oxides.		

Section 11: Toxicological information

Acute toxicity

Information on likely routes of exposure

Product Information	No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are:
Inhalation	May cause irritation.
Eye contact	May cause irritation.
Skin contact	May cause irritation.
Ingestion	May cause gastrointestinal discomfort if consumed in large amounts.
Symptoms	No information available.

.

Acute toxicity

Numerical measures of toxicity

Component Information			
Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
Benzyl butyl	-	> 2000 mg/kg (Rat)	-
cis-cyclohexane-1,2-dicarboxylate			
Delayed and immediate effects as v	well as chronic effects from sh	ort and long-term exposure	
Skin corrosion/irritation	Not classified.		
Serious eye damage/eye irritation	Not classified.		
Respiratory or skin sensitization	Not classified.		
Germ cell mutagenicity	Not classified.		
Carcinogenicity	Not classified.		
Reproductive toxicity	Not classified.		
STOT - single exposure	Not classified.		
STOT - repeated exposure	Not classified.		
Aspiration hazard	Not classified.		
Data used to identify the health effects	Refer to Section 16 for Key lite SDS.	erature references and sources f	or data used to compile the

Section 12: Ecological information

Ecotoxicity

Aquatic ecotoxicity

Keep out of waterways. Harmful to aquatic life with long lasting effects.

Chemical name	Algae/aquatic plants	Fish	Crustacea
Benzyl butyl	-	-	EC50 Daphnia magna = 1.1
cis-cyclohexane-1,2-dicarboxylate			mg/L/48h

Terrestrial ecotoxicity

There is no data for this product.

Persistence and degradability Inherently biodegradable.

Bioaccumulative potential

Bioaccumulation

There is no data for this product.

Component Information

Chemical name	Partition coefficient
Benzyl butyl cis-cyclohexane-1,2-dicarboxylate	4.56

Mobility in soil

Mobility

No information available.

Other adverse effects

No information available.

Section 13: Disposal considerations

Waste treatment methods

Waste from residues/unused products	Dispose of product in packaging in a way that is consistent with the EPA Consolidation 30 April 2021 of the Hazardous Substances (Disposal) Notice 2017 and the Act. Treat the substance using a method that changes the characteristics or composition of the substance so that the substance is no longer a hazardous substance; or export the substance from New Zealand as waste.
Contaminated packaging	For packages that have been in direct contact with hazardous substances, the person must ensure that the package is rendered incapable of containing any substance. It must be disposed of in a manner that is consistent with the requirements for disposal of the substance that it contained, taking into account the material the package is manufactured from.
	Packages may only be reused or recycled if: - the substance has a physical hazard other than corrosive to metal, and has been treated to remove any residual contents of the hazardous substance; - or for substances that have a health or environmental hazard, or corrosive to metal, the contents of the residue in the package are below the threshold for the substance to be classified as hazardous in the Hazardous Substances (Hazard Classification) Notice 2020.

Section 14: Transport information

ROAD AND RAIL TRANSPORT	Not classified as a Dangerous Good under NZS 5433 Transport of Dangerous Goods on Land; NON-DANGEROUS GOODS.
<u>IATA</u>	Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS.
IMDG	Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code No information available

Special precautions for user

Please refer to the applicable dangerous goods regulations for additional information

Section 15: Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

EPA New Zealand HSNO approval code or group standard	Not applicable
National regulations	There are no applicable tolerable exposure limits or environmental exposure limits according to the EPA Controls for Hazardous Substances
Certified handlers, tracking and controlled substance license requirements	Certified handlers are required for some substances. This includes substances requiring a controlled substance license, and most explosives, vertebrates toxic agents, and certain fumigants. Acutely toxic substances which are a Category 1 or 2, such as pesticides also require Certified handlers. Please check the Health and Safety at Work Act 2015 for further information Tracking is required for some highly hazardous substances. These substances need to be under the control of an appropriately trained person or appropriately secured. Please check the Health and Safety at Work Act 2015 for further information Controlled substance licenses are required to possess certain explosives, vertebrate toxic agents and fumigants. See Part 7 of the Health and Safety at Work Regulation 2017 for more information

International Regulations

The Montreal Protocol on Substances that Deplete the Ozone Layer Not applicable

The Stockholm Convention on Persistent Organic Pollutants Not applicable

The Rotterdam Convention Not applicable

International Inventories	
NZIoC	This material is not listed on the New Zealand Inventory of Chemicals.
TSCA	Contact supplier for inventory compliance status.
DSL/NDSL	Contact supplier for inventory compliance status.
EINECS/ELINCS	Contact supplier for inventory compliance status.
ENCS	Contact supplier for inventory compliance status.
IECSC	Contact supplier for inventory compliance status.
KECL	Contact supplier for inventory compliance status.
PICCS	Contact supplier for inventory compliance status.
AIIC	This material is not listed on the Australian Inventory of Industrial Chemicals, however, complies with the Australian Industrial Chemicals Introduction Scheme and may be introduced when used as recommended. Contact supplier for information.
TCSI	Contact supplier for inventory compliance status.
