SAFETY DATA SHEET

er 2

	Revision Number 2
1. IDENTIFICATION OF TH	IE MATERIAL AND SUPPLIER
Product identifier	
Product Name	CLEANIX OXYBLEACH POWDER
Product Code(s)	00000054212
Other means of identification	
Synonyms	CIXLDRYOXY
Recommended use of the chemica	l and restrictions on use
Recommended use	Excellent for cleaning and removing organic stains (such as coffee, tea, wine, fruit juices, food, sauces, grass and blood) from fabrics, plastics, fibreglass, porcelain, ceramics, wood, carpets, asphalt, concrete, etc. A deep clean without surface damage.
Uses advised against	No information available.
Details of the supplier of the safety	v data sheet
Supplier Ixom Operations Pty Ltd (Incorporate NZBN: 9429041465226 Address: 166 Mt Maunganui South New Zealand	
Telephone Number: +64 9 368 2700 Facimile: +64 9 368 2710	
For further information, please con	itact
Contact Point	Product Safety Department
Emergency telephone number	
Emergency Telephone	0 800 734 607 (ALL HOURS)
Please ensure you refer to the limitations of this	Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.
2. HAZARDS IDENTIFICAT	ΓΙΟΝ
Not classified as a Dangerous Good	under NZS 5433 Transport of Dangerous Goods on Land; NON-DANGEROUS GOODS.
Classified as hazardous according to	criteria in the Hazardous Substances (Hazard Classification) Notice 2020.
GHS Classification	
SIGNAL WORD Danger	

Cleaning Products (Subsidiary Hazard) Group Standard 2020 Approval Number: HSR002530

Skin corrosion/irritation

Category 3

Serious eye damage/eye irritation	Category 1
Specific target organ toxicity (single exposure)	Category 3

Label elements

Hazard statements

H316 - Causes mild skin irritation H318 - Causes serious eye damage H335 - May cause respiratory irritation

Precautionary Statements - Prevention

Read label before use. Keep out of reach of children. Avoid breathing dust or spray mist Use only outdoors or in a well-ventilated area Wash eyes thoroughly after handling. Wear eye/face protection **Precautionary Statements - Response** Specific treatment (see First aid on this SDS)

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing Immediately call a POISON CENTER or doctor/physician

If skin irritation occurs: Get medical advice/attention

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing

Call a POISON CENTER or doctor/physician if you feel unwell

Precautionary Statements - Storage

Store in a well-ventilated place. Keep container tightly closed

Store locked up

Precautionary Statements - Disposal

Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

Other hazards which do not result in classification

3. COMPOSITION/INFORMATION ON INGREDIENTS

<u>Mixture</u>

Chemical name	CAS No.	Weight-%
Sodium carbonate	497-19-8	10-<30
Surfactant	-	10-<30
Sodium percarbonate	15630-89-4	<10
Other component(s)	-	to 100

4. FIRST AID MEASURES

Description of first aid measures

General advice	For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor. Show this safety data sheet to the doctor in attendance.
Emergency telephone number	Poisons Information Center, New Zealand: 0800 764 766

	Poisons Information Center, Australia: 13 11 26
Inhalation	Remove to fresh air and keep at rest in a position comfortable for breathing. If breathing is difficult, (trained personnel should) give oxygen. Call a physician if symptoms occur.
Eye contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek immediate medical attention/advice.
Skin contact	Wash off immediately with soap and plenty of water. Get medical attention immediately if symptoms occur.
Ingestion	Clean mouth with water and drink afterwards plenty of water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptom occur.
Most important symptoms and effe	cts, both acute and delayed
Symptoms	Irritation/Corrosion. May cause redness and tearing of the eyes. Coughing and/ or wheezing. Difficulty in breathing.
Indication of any immediate medica	al attention and special treatment needed
Note to physicians	Treat symptomatically. Can cause corneal burns.
5. FIRE FIGHTING MEASU	RES
Suitable Extinguishing Media	
Suitable Extinguishing Media	Dry chemical, CO2, water spray or regular foam.
Unsuitable extinguishing media	None known.
Specific hazards arising from the c	hemical
Specific hazards arising from the	hemical Non-combustible, substance itself does not burn but may decompose upon heating to produce corrosive and/or toxic fumes.
Specific hazards arising from the chemical	Non-combustible, substance itself does not burn but may decompose upon heating to produce corrosive and/or toxic fumes.
Specific hazards arising from the chemical <u>Special protective actions for fire-fi</u> Special protective equipment for	Non-combustible, substance itself does not burn but may decompose upon heating to produce corrosive and/or toxic fumes.
Specific hazards arising from the chemical <u>Special protective actions for fire-fi</u> Special protective equipment for fire-fighters	Non-combustible, substance itself does not burn but may decompose upon heating to produce corrosive and/or toxic fumes. ighters Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.
Specific hazards arising from the c Specific hazards arising from the chemical Special protective actions for fire-fi Special protective equipment for fire-fighters 6. ACCIDENTAL RELEASE Personal precautions, protective equipment	Non-combustible, substance itself does not burn but may decompose upon heating to produce corrosive and/or toxic fumes. ighters Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.

For emergency responders Use personal protection recommended in Section 8.

Environmental precautions

Environmental precautions	See Section 12 for additional Ecological Information.		
Methods and material for containment and cleaning up			
Methods for containment	Prevent further leakage or spillage if safe to do so.		
Methods for cleaning up	Use appropriate personal protective equipment (PPE). Carefully shovel or sweep up spilled material and place in suitable container. Avoid generating dust.		
Precautions to prevent secondary hazards			

Prevention of secondary hazards Clean contaminated objects and areas thoroughly observing environmental regulations.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling	Avoid contact with skin and eyes. Avoid breathing dust or spray mist. Use personal protection equipment. Wash thoroughly after handling.
Conditions for safe storage, includi	ng any incompatibilities
Storage Conditions	Store in a cool, dry, well ventilated place and out of direct sunlight. Keep container closed when not in use.
Incompatible materials	Will emulsify with petrochemical oils and liquids.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

 Exposure Limits
 No value assigned for this specific material by the New Zealand Workplace Health & Safety

 Authority.
 However, Workplace Exposure Standard(s) for particulate(s):

Particulates not otherwise classified: 8hr WES-TWA 10 mg/m³ (inhalable dust) or 3 mg/m³ (respirable dust)

As published by the New Zealand Workplace Health & Safety Authority.

WES - TWA (Workplace Exposure Standard - Time Weighted Average) - The eight-hour, time-weighted average exposure standard is designed to protect the worker from the effects of long-term exposure.

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

Appropriate engineering controls

 Engineering controls
 Eyewash stations. Apply technical measures to comply with the occupational exposure limits.

 If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and

the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, CHEMICAL GOGGLES, GLOVES, DUST MASK.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic	physical and chemical properties
Physical state	Solid

Physical state	Soliu	
Appearance	Granulated Powder	
Color	Off-white	
Odor	Characteristic Soap	
Odor threshold	No information available.	
Property	Values	Remarks • Method
pH	No data available	None known
Melting point / freezing point	No data available	None known
Boiling point / boiling range	No data available	None known
Flash point	No data available	None known
Evaporation rate	No data available	None known
Flammability (solid, gas)	No data available	None known
Flammability Limit in Air		None known
Upper flammability or explosive	No data available	
limits		
Lower flammability or explosive	No data available	
limits		
Vapor pressure	No data available	None known
Vapor density	No data available	None known
Relative density	No data available	None known
Water solubility	No data available	None known
Solubility(ies)	No data available	None known
Partition coefficient	No data available	None known
Autoignition temperature	No data available	None known

Decomposition temperature Kinematic viscosity Dynamic viscosity No data available No data available No data available None known None known None known

Other information

10. STABILITY AND REACTIVITY

Reactivity	
Reactivity	No information available.
Chemical stability	
Stability	Stable under normal conditions.
Explosion data	
Sensitivity to mechanical impact	None.
Sensitivity to static discharge	None.
Possibility of hazardous reactions	
Possibility of hazardous reactions	None under normal processing.
Conditions to avoid	
Conditions to avoid	Dust formation.
Incompatible materials	
Incompatible materials	Will emulsify with petrochemical oils and liquids.
Hazardous decomposition products	

Hazardous decomposition products Carbon dioxide (CO2).

11. TOXICOLOGICAL INFORMATION

Acute toxicity

Information on likely routes of exposure

Product Information	No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are:
Inhalation	Irritating to respiratory system.
Eye contact	Causes serious eye damage.
Skin contact	Causes mild skin irritation.
Ingestion	Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhoea.
Symptoms	Irritation/Corrosion. May cause redness and tearing of the eyes. Coughing and/ or wheezing. Difficulty in breathing.
Acute toxicity	

Numerical measures of toxicity

Refer to component information below.

Component Information

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
Sodium carbonate	= 4090 mg/kg(Rat)	-	-
Sodium percarbonate	= 1034 mg/kg (Rat)	> 2000 mg/kg (Rabbit)	-

See section 16 for terms and abbreviations

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritation	Causes mild skin irritation. Classification is based on mixture calculation methods based on component data.	
Serious eye damage/eye irritation	Causes serious eye damage. Classification is based on mixture calculation methods based on component data.	
Respiratory or skin sensitization	No information available.	
Germ cell mutagenicity	No information available.	
Carcinogenicity	No information available.	
Reproductive toxicity	No information available.	
STOT - single exposure	May cause respiratory irritation. Classification is based on mixture calculation methods based on component data.	
STOT - repeated exposure	No information available.	
Aspiration hazard	No information available.	

12. ECOLOGICAL INFORMATION

Ecotoxicity

Ecotoxicity Keep out of waterways.

Terrestrial ecotoxicity There is no data for this product.

Chemical name	Algae/aquatic plants	Fish	Crustacea
Sodium carbonate	EC50: =242mg/L (120h, Nitzschia)	LC50: =300mg/L (96h, Lepomis macrochirus) LC50: 310 - 1220mg/L	EC50: =265mg/L (48h, Daphnia magna)
Sodium percarbonate	EC50: =70mg/L (240h, Chlorella emersonii)	(96h, Pimephales promelas) LC50: =70.7mg/L (96h, Pimephales promelas)	EC50: =4.9mg/L (48h, Daphnia pulex)

Persistence and degradability

Persistence and degradability No information available.

Bioaccumulative potential		
Bioaccumulation	No information available.	
<u>Mobility</u>		
Mobility in soil	No information available.	
Other adverse effects		
Other adverse effects	No information available.	
13. DISPOSAL CONSIDERATIONS		
Waste treatment methods		

Waste from residues/unused products	Dispose of product in packaging/container in a way that is consistent with the Hazardous Substances (Disposal) Notice 2017 and the Act, and Hazardous Substances (Amendments and Revocations) Notice 2020. Treat the chemical using a method that changes the characteristics or composition of the chemical so that the chemical is no longer a hazardous chemical; or export the chemical from New Zealand as waste.
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. TRANSPORT INFORMATION

ROAD AND RAIL TRANSPORT	Not classified as a Dangerous Good under NZS 5433 Transport of Dangerous Goods on Land; NON-DANGEROUS GOODS.
<u>IATA</u>	Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS.
IMDG	Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS.

15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

New Zealand	
National regulations	See section 8 for national exposure control parameters
International Inventories NZIoC TSCA DSL/NDSL EINECS/ELINCS ENCS	Contact supplier for inventory compliance status. Contact supplier for inventory compliance status.

IECSC	Contact supplier for inventory compliance status.
KECL	Contact supplier for inventory compliance status.
PICCS	Contact supplier for inventory compliance status.
AIIC	Contact supplier for inventory compliance status.

Legend:

NZIOC - New Zealand Inventory of Chemicals

TSCA - United States Toxic Substances Control Act Section 8(b) Inventory

DSL/NDSL - Canadian Domestic Substances List/Non-Domestic Substances List

Disclaimer

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Ixom Operations Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their Ixom representative or Ixom Operations Pty Ltd at the contact details on page 1.

Ixom Operations Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.
