# SAFETY DATA SHEET

Revision Number 1

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER				
Product identifier				
Product Name CLEANIX LAUNDRY WASH LIQUID OLL				
Product Code(s)	00000054233			
Other means of identification				
Synonyms	CIXLDRYLIQ			
Recommended use of the chemical	and restrictions on use			
Recommended use	A concentrated heavy-duty laundry liquid with enzymes, suitable for everyday use in front and top-loading machines. Can be used for all textile types, in hot or cold water.			
Uses advised against	No information available.			
Details of the supplier of the safety	data sheet			
<u>Supplier</u> Ixom Operations Pty Ltd (Incorporated NZBN: 9429041465226 Address: 166 Mt Maunganui South New Zealand				
Telephone Number: +64 9 368 2700 Facimile: +64 9 368 2710				
For further information, please cont	act			
Contact Point Product Safety Department				
Emergency telephone number				
Emergency Telephone	0 800 734 607 (ALL HOURS)			
Please ensure you refer to the limitations of this Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.				
2. HAZARDS IDENTIFICATION				
Not classified as a Dangerous Good under NZS 5433 Transport of Dangerous Goods on Land; NON-DANGEROUS GOODS.				
Classified as hazardous according to criteria in the Hazardous Substances (Hazard Classification) Notice 2020.				
GHS Classification				
SIGNAL WORD Danger				

Cleaning Products (Subsidiary Hazard) Group Standard 2020 Approval Number: HSR002530

Skin corrosion/irritation	Category 2	
Serious eye damage/eye irritation	Category 1	

Respiratory sensitization

Category 1

#### Label elements

#### **Hazard statements**

H315 - Causes skin irritation H318 - Causes serious eye damage H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled **Precautionary Statements - Prevention** 

Read label before use. Keep out of reach of children. Avoid breathing dust or spray mist Use only outdoors or in a well-ventilated area Wash hands and face thoroughly after handling Wear protective gloves / protective clothing / eye protection / face protection In case of inadequate ventilation wear respiratory protection **Precautionary Statements - Response** Specific treatment (see First aid on this SDS) IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing Immediately call a POISON CENTER or doctor/physician IF ON SKIN: Wash with plenty of soap and water If skin irritation occurs: Get medical advice/attention Take off contaminated clothing and wash it before reuse IF INHALED: Remove person to fresh air and keep comfortable for breathing If experiencing respiratory symptoms: Call a POISON CENTER or doctor **Precautionary Statements - Storage** No storage statements **Precautionary Statements - Disposal** Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

#### Other hazards which do not result in classification

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

#### Mixture

Chemical name	CAS No.	Weight-%
Hexyl D-glucoside	54549-24-5	5-<30
Polyethylene glycol, mono(2-ethylhexyl ether)	26468-86-0	5-<30
Sodium carbonate	497-19-8	1-<10
.alphaAmylase	9000-90-2	0.1-<4
Cellulase	9012-54-8	0.1-<4
Other component(s)	-	to 100

### 4. FIRST AID MEASURES

#### Description of first aid measures

**General advice** 

For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New

Emergency telephone numberPoisons Information Center, New Zealand: 0800 764 766 Poisons Information Center, Australia: 13 11 26InhalationRemove to fresh air and keep at rest in a position comfortable for breathing. If breathing is difficult, (trained personnel should) give oxygen. If breathing has stopped, give artificial respiration. Get medical attention immediately.Eye contactRinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek immediately if symptoms occur.Skin contactWash off immediately with soap and plenty of water. Get medical attention immediately if symptoms occur.IngestionClean mouth with water and drink afterwards plenty of water. Do NOT induce vomiting.			
Poisons Information Center, Australia: 13 11 26         Inhalation       Remove to fresh air and keep at rest in a position comfortable for breathing. If breathing is difficult, (trained personnel should) give oxygen. If breathing has stopped, give artificial respiration. Get medical attention immediately.         Eye contact       Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek immediately medical attention/advice.         Skin contact       Wash off immediately with scap and plenty of water. Get medical attention immediately if symptoms occur.         Ingestion       Clean mouth with water and drink afterwards plenty of water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptom occur.         Most important symptoms and effects, both acute and delayed       Irritation/Corrosion. May cause redness and tearing of the eyes. Coughing and/ or wheezing. Difficulty in breathing.         Indication of any immediate medical attention and special treatment needed.       Treat symptomatically. Can cause corneal burns. May cause sensitization by inhalation.         Stribuble Extinguishing Media       Dry chemical, CO2, water spray or regular foam.         Suitable Extinguishing Media       None known.         Specific hazards arising from the chemical.       None known.         Specific hazards arising from the chemical.       None-combustible, substance itself does not burn but may decompose upon heating to produce corrosive and/or toxic furmes.		Zealand 0800 764 766) or a doctor. Show this safety data sheet to the doctor in attendance	
difficult, (trained personnel should) give oxygen. If breathing has stopped, give artificial respiration. Get medical attention immediately. 6. ACCIDENTAL RELEASE MEASURES			
	6. ACCIDENTAL RELEASE	MEASURES	

### Personal precautions, protective equipment and emergency procedures

Personal precautionsAvoid contact with skin and eyes. Avoid breathing vapors or mists. Ensure adequate<br/>ventilation. Evacuate personnel to safe areas. Stop leak if you can do it without risk. Do not<br/>touch or walk through spilled material. Use personal protective equipment as required.<br/>Wash thoroughly after handling.

For emergency responders	Use personal protection recommended in Section 8.	
Environmental precautions		
Environmental precautions	See Section 12 for additional Ecological Information.	
Methods and material for containment and cleaning up		
Methods for containment	Prevent further leakage or spillage if safe to do so.	
Methods for cleaning up	Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal.	
Precautions to prevent secondary hazards		
Prevention of secondary hazards	Clean contaminated objects and areas thoroughly observing environmental regulations.	

# 7. HANDLING AND STORAGE

#### Precautions for safe handling

Advice on safe handling	Avoid contact with skin and eyes. Avoid breathing vapors or mists. Use personal protection equipment. Wash thoroughly after handling.
Conditions for safe storage, includ	ing any incompatibilities
Storage Conditions	Store in a cool, dry, well ventilated place and out of direct sunlight. Keep container closed when not in use.
Incompatible materials	Will emulsify with petrochemical oils and liquids.

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Control parameters

 Exposure Limits
 No value assigned for this specific material by the New Zealand Workplace Health & Safety Authority.

#### Appropriate engineering controls

**Engineering controls** Eyewash stations. Ensure adequate ventilation, especially in confined areas.

#### Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

#### OVERALLS, SAFETY SHOES, CHEMICAL GOGGLES, GLOVES.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

#### Information on basic physical and chemical properties

Physical state	Liquid
Appearance	No information available.
Color	Off-white
Odor	Characteristic Soap
Odor threshold	No information available.

Property	Values	Remarks • Method
рН	No data available	None known
Melting point / freezing point	No data available	None known
Boiling point / boiling range	No data available	None known
Flash point	No data available	None known
Evaporation rate	No data available	None known
Flammability (solid, gas)	No data available	None known
Flammability Limit in Air		None known
Upper flammability or explosive	No data available	
limits		
Lower flammability or explosive	No data available	
limits		
Vapor pressure	No data available	None known
Vapor density	No data available	None known
Relative density	No data available	None known
Water solubility	No data available	None known
Solubility(ies)	No data available	None known
Partition coefficient	No data available	None known
Autoignition temperature	No data available	None known
Decomposition temperature	No data available	None known
Kinematic viscosity	No data available	None known
Dynamic viscosity	No data available	None known

Other information

# **10. STABILITY AND REACTIVITY**

#### **Reactivity**

Reactivity	No information available.
Chemical stability	
Stability	Stable under normal conditions.
Explosion data	
Sensitivity to mechanical impact	None.
Sensitivity to static discharge	None.
Possibility of hazardous reactions	
Possibility of hazardous reactions	None under normal processing.
Conditions to avoid	
Conditions to avoid	None known based on information supplied.
Incompatible materials	
Incompatible materials	Will emulsify with petrochemical oils and liquids.
Hazardous decomposition products	<u>.</u>

Hazardous decomposition products Carbon oxides.

# 11. TOXICOLOGICAL INFORMATION

#### Acute toxicity

Information on likely routes of exposure

Product Information	No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are:
Inhalation	May cause irritation. May cause allergy or asthma symptoms or breathing difficulties if inhaled.
Eye contact	Causes serious eye damage.
Skin contact	Causes skin irritation.
Ingestion	Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhoea.
Symptoms	Irritation/Corrosion. May cause redness and tearing of the eyes. Coughing and/ or wheezing. Difficulty in breathing.

#### Acute toxicity

**Numerical measures of toxicity** Refer to component information below.

#### **Component Information**

[	Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
	Sodium carbonate	= 4090 mg/kg (Rat)	-	-

.alphaAmylase	> 7500 mg/kg (Rat)	-	-

See section 16 for terms and abbreviations

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritation	Causes skin irritation. Classification is based on mixture calculation methods based on component data.
Serious eye damage/eye irritation	Causes serious eye damage. Classification is based on mixture calculation methods based on component data.
Respiratory or skin sensitization	May cause sensitization by inhalation. Classification is based on mixture calculation methods based on component data.
Germ cell mutagenicity	No information available.
Carcinogenicity	No information available.
Reproductive toxicity	No information available.
STOT - single exposure	No information available.
STOT - repeated exposure	No information available.
Aspiration hazard	No information available.

12. ECOLOGICAL INFORMATION	

#### **Ecotoxicity**

Ecotoxicity	Keep out of waterways.
Terrestrial ecotoxicity	There is no data for this product.

Chemical name	Algae/aquatic plants	Fish	Crustacea
Sodium carbonate	EC50: =242mg/L (120h, Nitzschia)	LC50: =300mg/L (96h, Lepomis	EC50: =265mg/L (48h, Daphnia
		macrochirus) LC50: 310 - 1220mg/L	magna)
		(96h, Pimephales promelas)	

Persistence and degradability	
Persistence and degradability	No information available.
Bioaccumulative potential	
Bioaccumulation	No information available.
<u>Mobility</u>	
Mobility in soil	No information available.
Other adverse effects	
Other adverse effects	No information available.

# 13. DISPOSAL CONSIDERATIONS

#### Waste treatment methods

Waste from residues/unused products	Dispose of product in packaging/container in a way that is consistent with the Hazardous Substances (Disposal) Notice 2017 and the Act, and Hazardous Substances (Amendments and Revocations) Notice 2020. Treat the chemical using a method that changes the characteristics or composition of the chemical so that the chemical is no longer a hazardous chemical; or export the chemical from New Zealand as waste.
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal.

# **14. TRANSPORT INFORMATION**

ROAD AND RAIL TRANSPORT	Not classified as a Dangerous Good under NZS 5433 Transport of Dangerous Goods on Land; NON-DANGEROUS GOODS.
<u>IATA</u>	Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS.
IMDG	Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS.

# 15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

New Zealand	
National regulations	See section 8 for national exposure control parameters
International Inventories	
NZIOC	Contact supplier for inventory compliance status.
TSCA	Contact supplier for inventory compliance status.
